**1 Nichols' QUINCUNX RUBYFRUITCAKE (LPS f) F 01.07.2014**

Young Tortie LaPerm with a modified wedge head with slightly rounded contours and a medium length muzzle with long whiskers, fair chin, level bite and some whisker break and signs of whisker pads developing, though I felt the muzzle was somewhat fine. She has large ears without muffs or tufts, but with some furnishings, and she has medium sized expressive eyes. She has a firm medium sized body, slim legs, rounded feet and a medium length tail, and she is covered with a medium length wavy coat that has a resilient texture.

**2 Evans' QUINCUNX YETI CENTRO (LPL d 03 21) M 01.07.2014**

Litter mate of the previous cat, this time a red tabby & white boy with a modified wedge head with rounded contours and a medium length muzzle with long curved whiskers, good chin, level bite and slight whisker break and pads; overall I felt his head is a little shorter than ideal. He has large untufted ears with curved furnishings and rounded tips that set at an angle, and medium sized almond shaped expressive eyes. He has a medium sized firm body, medium length legs with rounded feet and a medium length tail that shows some plume developing; he is well covered with a medium length coat of wavy fur with a resilient texture.

**AC Senior Adult;**

**1 Gillies' CH BALLEGO WILLSCARLET (LPL d 03 21) M 0-7.06.2012**

Red tabby & white LaPerm with a modified wedge head that is broad at the cheeks and a broad medium length muzzle with prominent whisker pads and whisker break, long curved whiskers, level bite and a good chin; he has medium sized rounded ears that are set well, though I would have preferred them a fraction larger, and large almond shaped eyes. He has a medium sized body with a long plumed tail, and is well covered with a medium length coat that has a springy texture with waves and some curls.

**AC Visitors Adult;**

**1 Kindell & Hawthorne's HAMBRVIN LES FRIZZERABLES (LPL g 03 21) F 22.04.2013**

Blue tortie tabby & white LaPerm with a modified wedge head with gently rounded contours and a broad muzzle with long curved whiskers, prominent whisker pads, some whisker pinch, fair chin and level bite. She has large rounded ears with tufts, muffs & furnishings which are set well, and large almond shaped eyes. She has a medium sized firm body & a long plumed tail and is covered with a wavy coat with a resilient texture.

**2 Nichols' GLASTOCATS WALTER WHITE (LPL b 03 32) M 08.07.2014**

A young chocolate & white darker points LaPerm who is well grown for his age, with a modified wedge head and broad muzzle with a broad nose, long curved whiskers and with whisker pads developing though his chin slopes away somewhat. He has tufted medium sized rounded ears and medium sized almond shaped eyes. He has a firm medium sized body, medium length legs with rounded paws and a medium length tail with plume developing. He is covered with an excellent coat of medium length fur with a springy texture that shows waves and some curls.

**1 James' GR PR BALLEGO SCARLETOFTARA (LPL d 03) FN 07.06.2012**

Red & white LaPerm with a modified wedge head with gently rounded contours and a medium length broad muzzle with curved whiskers, prominent whisker break & whisker pads, level bite and a firm chin. He has large rounded ears with muffs and curved furnishings and large almond shaped expressive eyes. She has a firm medium sized body, medium length legs, rounded paws and a medium length tail with plume, and she is covered with a springy coat with waves and some curls. A lovely temperament and shown in excellent condition.

**2 Nichols' QUINCUNX FLIBBERTYGIBBET (LPL h 03) FN 06.08.2006**

Chocolate tortie & white LaPerm who was in a very bad mood today and was difficult to judge; modified wedge head with slightly rounded contours and a medium length broad rounded muzzle with prominent whisker pads, long curved whiskers and firm chin. She has large ears with furnishings that are set well, and large striking green eyes that were somewhat rounded. She has a firm medium sized body, slim legs, rounded paws and a medium length fully plumed tail and is covered with a medium length wavy coat with a springy texture.

**3 Wulund's QUINCUNX HONORIA (LPS a 03) FN 01.04.2014**

Blue bi-colour LaPerm with a modified wedge head with rounded contours and a broad medium length muzzle with crinkled whiskers, some whisker pad developing, level bite and fair chin. She has large untufted ears with rounded tips that have muffs & furnishings and are set well, and expressive almond shaped eyes. She has a medium sized well grown body, and medium length tail, and is covered with a short wavy coat with a springy texture.

**4 Wulund's QUINCUNX MINA HARKERL (LPL a) FN 01.07.2014**

Litter sister to the previous cat, but not in a good mood today; modified wedge head with rounded contours and a broad medium length muzzle with long crinkled whiskers, whisker pads developing, level bite and fair chin. She has large untufted ears with rounded tips that have muffs & furnishings and are set well, and expressive almond shaped eyes. She has a medium sized well grown body, and medium length tail, and is covered with a medium length wavy coat with a springy texture, and with some plume developing on the tail.
