

CAMBRIDGE CAT CLUB SHOW 28/03/2009 MRS JOAN SMITH

My Thanks to Sally and her team for the kind invitation. It was good to see Sally back on her feet. I was fortunate to have Julie Wilkinson helping me with the exhibits, she handled them with great care, hope we can work together again before long.

AC PERSIAN NON SELF CHAMPION MALE

GRCC POTTER'S CH PRIMISSON BEGUILLED

A very handsome cream and white bi colour male not quite 2 years old. Round smooth head with good width between neat ears, round copper eyes, short nose with full leather, fat cheeks level bite with ample chin giving facial balance. Full coat ,mid cream against sparkling white. A mainly cream face with a lightening flash of white to his forehead, with white lines running down from his eyes. Patches of white to body, white to all limbs ,tummy and chest, full cream tail. Substantial build with good bone, thick short legs and deep chest.

RED SELF ADULT

1<sup>ST</sup> CC BOB ROGERS ANSTEYN SUNBURST

Handsome young red male , just old enough 9m 2 weeks. Excellent build and substance a very mature looking young chap considering his young age. Broad head with nicely positioned ears, large orange eyes, short nose which I would like it positioned a little more central. Fat cheeks level bite and ample chin. Strong bone , deep chest ,thick low legs with large paws and a full short tail.Full coat a mid shade of red , still has a few ghost tabby markings which I would expect at his tender age. Easy to handle.

BI COLOURED NEUTER

1<sup>ST</sup> PC BOB WILLIAMS PR RIASCATZ SIMPLE RED

Lovely red and white bi colour male days off his third birthday. Round broad head with good width between neat ears, round orange eyes, short nose acceptable bite ,fat cheeks and ample chin. White chevron and cheeks to face, a spot of red to corner of eye, mid red to head, a patch of red to body and a full red tail , the rest was sparkling white.

BLACK CHOC/RED ECT SHADED & TIPPED CAMEO

BOB NICHOLLS CH GR PR YOONEEK SHEER MAGIC

A lovely mature shaded cameo , very hard to believe she was nearly 11 years old. Shown in wonderful condition.

AC DEBUTANTE ADULT

1<sup>ST</sup> EDIKER PRETTYPAWS BLACK MAGIC

A very young black male just 9 months old. Very pretty at the moment , still looking like a kitten. Well prepared coat which still showed kitten grey which is acceptable at such a young age. Well grown and good weight.

AC NON SELF BREEDERS KITTEN

1<sup>ST</sup> ROGERS PICWICK TINKERBELLE

Very pretty silver tabby female coming up to nine months old. Lovely facial expression and good head type, broad top of head with nicely positioned ears, round orange eyes, short nose, acceptable bite ,fat cheeks and ample chin. Full coat well prepared , tabby pattern to head, and legs but body was quite diffused , lacking spine lines at present.

**2<sup>ND</sup> BROWNS ACRESWAY GUCCI**

Pretty lilac colour pointed exotic 7 months old. Looked far better in pen when she was more relaxed. Pleasing head type , lilac points which I would have liked a warmer shade, white body coat which was free from shading. Plush textured coat standing well.

**AC ADOLESCENT NEUTER**

**1<sup>ST</sup> DANIELS MOONWALKERS THE PURRMINATOR**

Handsome black smoke and white exotic male just over 10 months old. White chevron to face and a good clear ash white contrast showing when the top coat was moved. He had lots of stray white hairs in his coat which did spoil the overall picture.
