

Cambridgeshire CC
28th April 2009
Mrs J Wilkinson

Many thanks to Sally and the committee for their kind invitation to judge and their hospitality at this well run show.

A.C. NON SELF BREEDER ADULT

1ST POTTER'S CH PRIMISSON BEGUILLED (1207) m 3.5.07

Well grown boy approaching his second birthday. Smooth rounded skull, width to top with small well set and well furnished ears. Bold round eyes of excellent copper colour. Short broad nose with fully formed pink leather. Fat cheeks, wide muzzle, level bite and firm chin. His face is cream with white to forehead, under both eyes and a broken chevron. Cream to chin. He has predominantly warm cream body which is sound and even in colour. Half white collar, tow white patches to back. Fully coloured cream tail. White underbelly and to all four legs. He is muscular and well covered with a wide chest and large rump supported on short thick legs with well furnished paws. He has a soft fine textured and well prepared flowing coat with every hair separated. Today he showed a little discolouration to his chest frill. Very easy to handle.

2ND BRAY'S GR CH LORINA GOLD 'N' DELICIOUS (54) M 11.8.06

A golden male aged two and a half years. Well rounded broad skull with good width to top of head. Small well set ears, fully furnished with pale apricot feathering. A little heavy browed with bold round expressive green eyes outlined in seal. Full apple cheeks, good width to muzzle. Snub nose and large brick red nose leather, again with seal outline. Level bite. Pale apricot chin that could be stronger for balance. Excellent size and conformation. Stocky cobby body with lovely boning and weight. Short thick legs showing even seal tipping. Short wide and fully furnished tail that is a little more lightly furnished at its seal coloured end. He has a light apricot underbelly, chest and frill. His top coat is warm gold to the face, head and shoulders but a much paler gold tone along his spine, sides and flanks. He shows a little greying to the base of his undercoat. His seal tipping is very evenly distributed just a little darker towards the end of his tail. Seal hocks and paw pads. His coat is a little coarse to touch but expertly prepared and presented with every hair separated and full of body. Not in the best of moods.

A.C. JUNIOR ADULT MALE OR FEMALE

1ST OWEN'S CH BESSJET ROCAWENPRIVATEJET (1) M

Super looking black boy of almost two years. Very masculine, mature and well developed in appearance. Extremely broad, well rounded smooth skull. Excellent width between the tiniest of fully furnished ears set very wide and low. Huge, expressive round deep copper eyes. Very short broad nose with deep break and having a fully formed black leather with large open nostrils. Excellent width to full cheeks and wide muzzle. Near level bite. Deep chin to balance. His face is framed with a full ruff and a deep frill to his broad chest. Well developed muscular body of medium length covered with a thick, soft ebony black glossy coat that is groomed to perfection. Very slight greying to the insides of his back legs. He has excellent boning and is supported on thick 'tree trunk' legs with massive rounded well tufted paws. Paw pads black. Short wide fully furnished tail to balance. No evidence of stray white

hairs anywhere. This boy is a real 'show stopper' with a wonderful temperament to match his looks.

2ND WALL'S GR CH SHEERBLISS EBRICO (7031A) M

Almost two years of age, this blue and white exotic is very masculine and mature in appearance. Very broad top of head with tiny rounded ears set low and very wide. Bold round deep orange eyes. Very short nose with accentuated break, small blue leather with narrow nostrils. Fat cheeks and excellent width to muzzle. Near level bite firm chin of good depth to balance. Thick coat standing away well from his body and of an excellent plush texture. Blue body, which today appeared a dark steel colour. Half white collar. White chest and underbelly and flanks. White chevron to lower face, spots of colour to front legs. Today his white did not sparkle and he appeared to have yellowing to both hocks. Massive but cobby body with excellent bone and standing low on thick legs. Thick, short well rounded blue tail. Very mellow attitude and a pleasure to handle.

3RD POTTER'S CH PRISSION BEGUILLED (12a7) M

A.C. NON-SELF NON-BREEDERS KITTEN

1ST LEE'S SHEERBLISS GIFTWRAPPED (70 30s) M

Outgoing baby of almost five months and a real livewire. Rounded skull with a slight bump to forehead at present. Ears a little large and needing to settle as they give him a top of head that is a little narrow. Very attractive facial expression. Bold round deep copper eyes. Full brick leather and wide nostrils with good definition to break. Full cheeks, wide muzzle. Level bite. Short cobby body weight. Coat full of life and standing away from his body. Very pale clear silver ground colour with dense black spotted pattern. Currently having linked spots to his left flank and right shoulder but he is a very young baby. Broken spine lines. Short thick well ringed tail. Black feet and paw pads. A real purr pot with a wonderful temperament.

A.C KITTEN

1ST LEE'S SHEERBLISS GIFTWRAPPED (70 30s) M

NOVICE NEUTER

1ST DANIELS'S MOONWALKER THE PURRMINATOR (7012als) MN

A black smoke and white exotic of just over ten months. Well rounded top of head with slight bump to forehead. Medium sized rounded ears set wide. Bold round orange eyes with gutters to face. Fully formed pink nose leather with open nostrils. Level bite with narrow bottom jaw causing canines to rub but enabling mouth to close. Full cheeks but a little narrower at muzzle. Very adolescent in appearance at present. White chevron to face, white chest and under belly. White and colour to all limbs fully coloured tail. Top coat intense black showing sharp contrast when parted showing stray white hairs to face, body and back legs. Very good natured boy who has plenty of time to mature.

GOLDEN NEUTER – CHINCHILLA, SILVER TABBY AND SMOKE CC

1ST PEACHEY'S IGR PR CASHEL HEADBOY (54) MN

Five and a half year old Golden male neuter. Broad rounded skull. Excellent width between ears well set small ears with apricot furnishings. Broad snub nose of pale brick colouring outlined in black. Large sized nose leather and wide open nostrils. Very large round emerald green eyes. Paler in colour at outer edge and clearly outlined in black. Full cheeks and muzzle. Chin a little shallow. Bite appears level but

no top incisors. Pale apricot chin, frill and stomach. Top coat rich apricot deepening to gold. Sound to the roots and evenly tipped in black. Black shading to hocks and paw pads with tufted feet. Coat is full and well prepared. Cobby body standing on short thick legs with well rounded paws. Short fully furnished tail to balance.

AC.ASS BREEDS NEUTER – UNITED CHINCHILLA ASS.

1ST MEADOWS'S CH & PR YOONEEK WISHUPONA STAR (6) MN

Two and a half year old black smoke boy with broad head and rounded skull showing good width between medium sized ears with silver ear furnishings. Excellent bold round orange eyes. Broad open type having a wide nose with fully formed black leather and good break. Full cheeks wide muzzle, firm deep chin. Full black mask showing faint tabby marks to brow. Of excellent size, shape and weight standing on short thick legs with tufted paws. His legs are black and showing ash white contrasts of 50% white to colour. Short full tail to balance diffused contrasts of grey white along spine line. Sides and flanks and showing new season coat growth at roots. Top coat is a good shade of black and his contrasts are approximately 2/3rd colour to ash white. Very well presented despite just holding on to his coat. Gentle nature.
