

Class 401- Chocolate Burmese Kitten - 1st & BOB – WILLIAMS STARRYCHATS PHOENIX (27b) – 17.07.08 – a chocolate kitten just short of adulthood. A short wedge, with good width at cheek bones tapering down to the blunt muzzle. Gentle rounding, to top of head between the ears which are set wide apart. The ears are broad at the base and have rounded tips, but are slightly large. Eyes are of the correct shape with a rounded bottom line and a slightly flatter top line slanting to the nose. The eye colour is yellow chartreuse. In profile the head is a good depth. There is a gently rounded brow, good depth of head, and ears have the correct slight forward tilt. The nose break could be more distinct and the chin is slightly shallow and recedes slightly. The bite is level, but some of her incisors have not erupted. The body is of a good weight and well muscled, with slender legs and neat oval paws. The tail is a good length to balance and tapers gently to the tip. Coat is close lying but a little coarse in texture in places and slightly long on the back. It is a cool tone of chocolate, which is a little patchy in places and there is faint barring on her rear legs at knee height. A very friendly kitten.

Class 406 – AOC Tortoiseshell Burmese Kitten – BOSWORTH’S SHIVAYA LUVINAMIST (27j) – 14.12.08 - 1st & BOB - An appealing baby with a short wedge, good width at the cheek bones tapering down to the blunt muzzle. There is gentle rounding to the top of head between the ears which are set wide apart. The ears are broad at the base and have rounded tips. Eyes have the correct shape with a rounded bottom line and a slightly flatter top line slanting to the nose. The eyes are pale yellow chartreuse in the hall light and have a good Burmese expression. In profile there is good depth to the head and a gently rounded brow, ears have the correct slight forward tilt. Nose break could be a little more distinct, chin is level, but would prefer a little more depth for perfection. She has a good stance with the hind legs slightly longer than the front legs. She is a very good weight for such a young kitten; she has slender legs and neat oval paws. The tail is a good length to balance and tapers gently to the tip. Coat is slightly long, but is close lying and in excellent condition with warm tones of lilac and cream. A promising girl, who was Best Burmese Kitten.

2 – PALLISTER’S PENWYNKATZ GOINGFORGOLD – (27j) 24.08.08 – 2ND – An older kitten with a short wedge which tapers to the blunt muzzle. Gently rounded top of head between the ears, which are set wide on the wedge. The ears are broad at the base, and have rounded tips. Eyes have the correct shape with a rounded bottom line and a slightly flatter top line slanting to the nose. However they are slightly deep set and are pale yellow in colour. In profile there is good depth to the head and a gently rounded brow, ears have the correct slight forward tilt. I would prefer to see a nose break that is distinct. The chin is not level and very shallow, bite is level. A good size for her age with a firm and well muscled body, with slender legs and neat oval paws. Tail is a good length to balance and tapers gently to the tip. Close lying coat with warm tones of lilac and cream, which is a little long over the back.

Class 685 AC Novice Adult – 1 FORTESCUE BLOOMERS BELCHAMP’S BARON (27d) – 09.04.08 – A very handsome red boy, with a short wedge tapering down to the blunt muzzle. Good width at cheek bones. Gentle rounding to the top of head between the ears, which are set wide apart. The ears are broad at the base and have rounded tips. Eyes have the correct shape with a rounded bottom line and a slightly flatter top line slanting to the nose. Eye colour is deep yellow and he has a super Burmese expression. In profile there is good depth to the head and a gently rounded brow. Ears have the correct slight forward tilt. Distinct nose break, a straight nose and level chin of good depth. A very well developed and muscular boy, with slender legs and neat oval paws. Tail is of good length to balance and tapers very gently to the tip. Good stance with the hind legs slightly higher than the front ones. Coat is short and close lying, and is the texture of satin, with a vibrant tone of tangerine on the head, back and tail; with a paler tone on the underside of the body. He is a lovely boy and has a super temperament.

2 – KENNARD’S CLARKESFIELD UPTOWN GIRL – (27b) F – 30.05.08 – pretty girl with a short wedge with good width at the cheek bones and tapering down to the muzzle. Rounded top between the ears, which are set well apart. The ears are broad at the base and have rounded tips. Eyes have the correct shape with a rounded bottom line and a slightly flatter top line slanting to the nose. Eye colour is pale yellow and have an excellent Burmese expression. In profile there is good depth to the head and a gently rounded brow. A distinct nose break, chin recedes slightly and I would prefer to see more depth. Bite is level. Well developed and muscular young lady with slender legs and neat oval paws. Tail is short to balance and is thick at the base and abruptly becomes slender towards the end. Coat is short and close lying, and is a cool tone of chocolate with a darker tone on the face ears back and a paler tone on the underside of the body.

Class 689 AC Junior Adult - 1 DELL’S KUPRO CREAM SALIX – (27f) - 10.05.08 – A substantial boy with a short wide wedge, which tapers down to the blunt muzzle. There is a gently rounded top of head between the ears, which are set wide apart. Ears are broad at the base and have rounded tips. Eyes have the correct shape with a rounded bottom line and a slighter flatter top line slanting to the nose. Eye colour is pale yellow and he has a good Burmese expression. In profile there is good depth to the head and a gently rounded brow. A distinct nose break, level chin of good depth. Chest is rounded, the back is straight and he has a good stance with the hind legs slightly higher than the front legs. Very weighty boy, well muscled with firm body, slender legs and neat oval paws. Tail is a good length to balance and tapers gently to the tip. Coat is short and close lying with the texture of satin, and is even cream all over with bloom on the top of the head and ears. A very gentle and happy boy, who was a joy to handle.

2 – CHASE’S STARRYCHATS TOTAL ECLIPSE – (27e) F - 23.02.08 – Young adult with a short wedge tapering down to the blunt muzzle. There is a rounded top of head between the ears, which are set wide apart. Ears are broad at the base and have rounded tips. The shape of the eyes is correct with a rounded bottom line and a slighter flatter top line slanting to the nose. Eyes are a pale yellow with a lovely expression. In profile, good depth to the head, would like to see a little more rounding to the brow. I would prefer a more distinct nose break, slightly shallow but level chin. Rounded chest, good stance with the hind legs slightly higher than the front legs. Firm and well muscled girl, with slender legs and neat oval paws. Tail is a good length to balance and tapers gently to the tip. Coat is close lying, with a smooth texture consisting of shades of brown and red. A friendly girl.

Class 697 – 1 – 213 Williams Starrychats Phoenix

2 – Palister’s Penwynkatz Goingforgold

Class 707 – 1 RAE’S CH REABURASI SUGABABE – (27b) FN 04.05.05 – an attractive girl, with a short wedge which tapers down to the blunt muzzle. There is a rounded top of head between the ears, which are set wide apart. Ears are broad at the base and have rounded tips. Eyes of the correct shape have a rounded bottom line and a slighter flatter top line slanting to the nose. The eye colour is pale yellow and they have a good Burmese expression. In profile there is good depth to the head, a gently rounded brow and the ears tilt slightly forward. Nose break could be more distinct. Chin has good depth and is level. Rounded chest. Firm and well muscled girl with slender legs and neat oval paws. Tail is a good length to balance and tapers gently to the tip. Coat is short in length, close lying with a satin texture. The colour is a warm toned chocolate, with darker face and ears. The coat is patchy in colour over the flanks. An extremely friendly girl.

Not Placed – GRIMES’ MYTHIAN MEKERIA – (27a) MN 29.12.07 - Unfortunately, after several attempts by my steward and myself, we could not get him out of the pen. He was extremely aggressive, trying to bite both of

us and his hackles were up. We even went back to him later, but he was still aggressive. In the event, he was not judged. I did explain this to the exhibitor after I had finished judging.

CLASS 866 AC BURMESE NEUTER – 1 TEGG’S GR CH & PR MINOTOSA PANDORA (27e) FN 17.07.03 – an attractive girl with a short, wide wedge, which tapers down to the blunt muzzle. Gently rounded top of head between the ears, which are set wide apart. The ears are broad at the base and have rounded tips. Eyes are of the correct shape with a rounded bottom line and a slightly flatter top line slanting to the nose. The colour of the eyes is pale yellow and she has a good Burmese expression. In profile there is good depth to the head, a gently rounded brow, and ears have the correct forward tilt. Well defined nose break, level and deep chin. Extremely well built girl with slender legs and neat oval paws. Tail is good shape and tapers gently to the tip, but is a little short to balance. Coat is close lying and short, with the texture of satin; colour consists of a range of brown and red tones. A happy girl who was shown in excellent condition.

Class 782 AC BURMESE ADULT – 1 DELL’S KUPRO RED SASSAFRAS – (27d) f 10.05.08 – another attractive girl with a short wedge, tapering down to the blunt muzzle. Gently rounded top of head between ears which are set wide apart. The ears are broad at the base and have rounded tips. Eyes are of the correct shape with a rounded bottom line and a slightly flatter top line slanting to the nose. Eyes are yellow chartreuse and she has a good Burmese expression. In profile good depth to the head, gently rounded brow and the ears have the correct forward tilt. Well defined nose break, level and deep chin. Body is still developing, but is well muscled and firm, she has slender legs and neat oval paws. Tail is just a fraction short, but does taper gently to the tip. The coat is close lying and has the texture of satin, is short in length, is very pale in colour, with some tangerine markings on the face and ears. She is extremely well behaved, friendly and was shown in excellent condition.
