

GCCF REGISTRATION POLICY FOR BRITISH SHORTHAIRED CATS

Agreed 21 June 2006 / effective 1 October 2006

GENERAL POLICY

Full Register (CS)

British Shorthairs with Full or Provisional status which have within the preceding 3 generations only BSH of the groups listed for registration on the Full Register for that colour/pattern, excluding cats whose pedigrees include within three generations a cat registered on the Reference Register.

Supplementary Register (CSSR)

British Shorthairs with Full or Provisional status which have within the preceding 3 generations only BSH, British Variants or Persians of the groups listed for registration on the Supplementary Register for that colour/pattern.

Experimental Register (CSEXP)

British Shorthairs with Preliminary status which have within the preceding 3 generations only BSH of the groups listed for registration on the Experimental Register for that colour/pattern.

Reference Register (CSREF)

- a. British Shorthairs where one parent or both parents is/are a BSH or British Variant allowed for registration on the Reference Register for that colour/pattern.
- b. British Variants - the longhaired progeny of two BSH parents.
- c. Cinnamon Self, Fawn Self, Cinnamon Colourpointed and Fawn Colourpointed British Shorthairs which have an Oriental Cinnamon or Fawn (which is not over stamped as carrying the recessive white gene) within three generations.
- d. Blue-eyed/Odd-eyed and All White Patched BSH or Variants without progression.
- e. Cats of BSH appearance which do not conform to this policy shall be registered on the Reference Register as "no recognised breed". (A proposed breeding programme may be submitted to the BSGC if recognition is desired).

General Colour Registration Restrictions

Note 1. No cat without an agouti parent (Tabby, Spotted, Tabby Colourpointed or Tipped) may be registered on any Register as a Tabby, Spotted, Tabby Colourpointed or Tipped BSH or BSH Variant.

Note 2. Any red or cream BSH or BSH Variant (including Colourpointed) with an agouti parent (Tabby, Spotted, Tabby Colourpointed or Tipped) must be registered as Tabby, Spotted, Tabby Colourpointed or Tipped on the relevant Register until proved otherwise by test mating or DNA testing.

Note 3. When a BSH is outcrossed to a Persian, an FAB/PKD certificate of freedom from PKD must be provided for both parents before the resulting offspring can be registered as BSH or BSH Variant on the relevant register.

Note 4. A certificate of hearing must be provided for any Self White male (14, 14a, 14b) before its offspring can be registered as BSH or BSH variant on the relevant register.

Note 5. Blue-eyed/Odd-eyed and All White Van BSH or Variants are not acceptable as parents for any colour/pattern of BSH

Note 6. Existing Cinnamon SH Variants are acceptable as parents only for Cinnamon or Fawn series cats.

Note 7. Any non-pointed offspring with a Colourpointed BSH parent shall be over stamped "carries Colourpointed". Its offspring shall be over stamped "may carry Colourpointed" unless cleared by test matings or DNA testing.

Note 8. Any Self BSH with a Colourpointed or Silver BSH parent will be registered on the Reference Register unless a request to register on the Supplementary and Non-Active Registers accompanies the registration application.
