

GCCF REGISTRATION POLICY FOR EGYPTIAN MAU CATS

Agreed/effective February 2007

BREEDS PERMITTED IN THE PEDIGREES OF EGYPTIAN MAUS:

A. Egyptian Maus of recognised colours

- Bronze - brown (black) spotted
- Silver - black silver spotted
- Smoke - black smoke showing underlying spotted tabby pattern

B. Egyptian Maus of unrecognised colours Black self

- Blue spotted
- Blue silver spotted
- Blue smoke showing underlying spotted pattern Blue Self

1. FULL REGISTER

Egyptian Maus as listed in A above, with Full or Provisional recognition, which have in their pedigrees within three generations only Egyptian Maus as listed in A above, shall be registered on the Full Register, with the exception of those cats whose pedigrees include within three generations a cat registered on the Experimental or Reference Register.

2. SUPPLEMENTARY REGISTER

Egyptian Maus as listed in A above, with Full or Provisional recognition, which have in their pedigrees within three generations only Egyptian Maus as listed in A or B above shall be registered on the Supplementary Register.

3. EXPERIMENTAL REGISTER

Egyptian Maus as listed in A above, with Preliminary recognition, which have in their pedigrees within three generations only Egyptian Maus as listed in A or B above, shall be registered on the Experimental Register.

4. REFERENCE REGISTER - I

Egyptian Maus listed in B above, which do not yet have Preliminary recognition, but which have in their pedigrees within three generations only Egyptian Maus as listed in A or B above, shall be registered on the Reference Register, but shall be eligible to be considered as registered on the Experimental Register in the event of Preliminary recognition of their breed.

5. REFERENCE REGISTER - II

(i) Cats of Egyptian Mau parentage but of colours or patterns other than those listed in A and B above shall be registered on the Reference Register. They shall not be registered as Egyptian Maus and their progeny shall not be eligible to progress.

(ii) Cats of Egyptian Mau appearance produced from matings to other recognised breeds whose Registration Policies permit Egyptian Maus as an outcross breed shall be registered as directed by the Registration Policy for the other breed, but with no reference to Egyptian Mau type, and shall not be permitted in the pedigrees of Egyptian Maus.

All other cats of Egyptian Mau appearance which have in their pedigrees within the preceding three generations any cats other than those listed in A and B above shall be registered on the Reference Register as 'no recognised breed' and with no progression.

Note: Offspring from blue Egyptian Maus shall be over stamped "Carries the dilution gene", and subsequent generations shall be over stamped "May carry the dilution gene". Additionally, non-blue parents of blue Egyptian Maus shall be over stamped "Carries the dilution gene", and subsequent generations shall be over stamped "May carry the dilution gene".
