

**I would like to thank Lynda for inviting me to this wonderful show. I had some fabulous cats and a really good day. Thank you to Alison Cottle for stewarding for me and keeping me company throughout a busy day – looking forward to next time!**

**AC Asian Smoke or Burmilla Kitten 1<sup>st</sup> and BOB Matthews Katchyn Moody Blue ASH as 11 F 24/11/2014 Blue Silver Burmilla FE** Oh my what a little cutie! This little lady is just adorable and was enjoying her day out! She is a very good size and weight for her age of just over four months and has a firm and weighty body of medium length with a level straight back, gently rounded chest and slender legs that end in neat oval paws. She is nicely balanced with a short wedge that has good width at the cheekbones and tapers to a blunt muzzle. Gentle rounding to her top of head with good width between large ears that are broad at the base with rounded tips and show slight forward tilt. Her eye colour is developing nicely and is at present a muddy yellow. Her eyes are set wide apart and are of a good size. They show a slant towards the nose with a fuller more rounded lower line. She has gentle rounding to her brow leading to a good break to her straight nose that is level with her chin which for me could have more depth to it. Her coat is a little kittenish but in good condition. Medium to dark blue colour to her shading over a very good silver base colour for her age, just a little tarnishing to her muzzle. She has one broken necklace and a few smudges on her legs. M on her forehead and cute tabby markings to her face. Her tail balances the body and tapers to a rounded tip. Lovely kitten, easy to handle and well presented.

**Olympian Class Any IGMC, Female 1<sup>st</sup> & Olympian Lowell's IMP GC Hells Bells (15 years, Blue Smoke, Tortie SH)** This beautiful girl has the sweetest temperament. Looking fabulous for her 15 years of age, she has a slender firm body with slender legs and neat paws. She has a fine down on her back and tummy with more fur on her legs and tail. Lovely tortie markings. Gorgeous girl who has style.

**AC Asian or Tonkinese Adult 1<sup>st</sup> Cagaran Julie -Jo ASH hs 12 31 F 03/07/2014 Chocolate Tortie Silver Burmilla BCR.** This cat was in my book as a 12 – tipped it should have been 11 – shaded. Sweet girl, only just an adult! She has a firm and muscular body that is a little small for her age. She has a straight back, rounded chest and slender legs that end in neat oval paws. Her short wide wedge tapers to a lovely blunt muzzle. Her top of head is nicely rounded with good width between medium ears that are broad at the base with rounded tips and show slight forward tilt. Her green chartreuse eyes are large and lustrous. They are set wide apart and slant towards the nose with a fuller more rounded lower line. She has gentle rounding to her brow leading to a good break to her straight nose that is level with her firm chin. Her coat is a little longer that I would prefer and has a plush feel to it. Light shading to her warm chocolate colour that is mingled with varying shades of tangerine. Lovely silver base colour. She has one broken necklace, a few smudges on her legs and rings on her tail. M on her forehead and tabby markings to her face. Her tail balances the body and tapers to a rounded tip. Calm girl enjoying her day out. **2<sup>nd</sup> Phillips Lilyput Parma Violets (TOS j 33) F 26/05/2014 Colourpointed Lilac Tortie** Very sweet natured girl of overall good type. She is nicely balanced and has a medium sized body feeling firm and muscular with a rounded chest and level flanks. Her legs are slender and well-muscled and her feet are neat and oval. Her tail is tapering and of medium length. She has a moderately proportioned wedge that is neither pointed or square with a slight whisker pinch. Her top of head is gently rounded with good width between her medium sized ears that are pricked forward, broad at the base and have rounded tips. In profile I would prefer a little more of a break to her straight nose. Firm chin of medium depth and level bite. She has beautiful blue expressive almond shaped eyes that are set well apart. Super condition to her short and close lying coat that has a soft feel to it and a lovely sheen. Her body colour is a shade of off white with a pinkish grey on her ears, mask, legs, feet and tail showing a clearly defined contrast. Sweet girl well presented.

**AC Burmese Premier or Aristocrat Neuter 1<sup>st</sup> Marshall's IMP GR CH & PR Millgill Theatrics (BUR j) 14/03/2006 FN Lilac Tortie** Lovely girl of overall good type looking fabulous for her nine years of age. Her head is carried on a medium neck and in proportion to her body. She has a short wedge that is wide at the cheekbones and tapers to a blunt finish at the muzzle. Her top of head is slightly rounded with medium ears are set well apart and of good shape being broad at the base with rounded tips and a slight forward tilt. In profile she has good depth of skull and her brow is gently rounded leading to a good break to her straight nose that is level with a firm chin. Her chartreuse eyes are large and lustrous and set well apart and of good shape with the top line slanting towards the nose and the lower line being rounded. She has a strong muscular body of medium

length with a straight back and strong rounded chest. Her slender legs are in proportion to her body and end in neat oval paws. Good length to her tail which is of medium thickness at the base and tapers to a rounded tip. Her dove grey coat is mingled with varying shades of cream and is short close lying and has a satin like texture with a glossy sheen. Lovely girl.

**AC Burmese Novice Neuter 1<sup>st</sup> Yardley's Imp Gr Ch Papagena Carys (BUR j) F 30/9/11 lilac tortie.** This girl was not in the best of moods! She is nicely balanced with a short wide wedge tapering to a blunt muzzle. Her top of head is gently rounded and her medium ears are set well apart. They are of good shape being broad at the base with rounded tips and showing a slight forward tilt. In profile she has a gently rounded brow with a good break to her straight nose that is level with a chin which for me could have a touch more depth to it. Large lustrous chartreuse eyes that are set well apart with the top line slanting towards the nose and the lower line fuller and more rounded. She has a firm but slender body of good weight with a straight back and rounded chest. Her slender legs are in proportion to her body and end in neat oval paws. Her tail balances and tapers to a rounded tip. Satin like feel to her close lying coat that is a darker lilac with a mingling of a somewhat hotter and darker cream than I would prefer. Well presented and in good condition.

#### **AC Burmese Senior Neuter 4 entered 1 absent**

**1<sup>st</sup> Gray's Ch & Gr PR Kelougray Mel-Rong (BUR c) FN 31/05/2009 Lilac** Friendly girl of very good type with a fabulous Burmese expression. Her head is carried on a medium neck and nicely balanced. She has a short wedge with good width at the cheekbones and tapering to a blunt finish at the muzzle. Her top of head is gently rounded with good width between her medium ears that are set well apart and of good shape being broad at the base with rounded tips and a slight forward tilt. In profile she has good depth of skull. Her gently rounded brow leads to a good break to her straight nose that is level with her firm chin. Her yellow eyes are large and lustrous and set well apart. They are of good shape with the top line slanting towards the nose and the lower line being rounded. She has a firm muscular body of medium length with a straight back and strong rounded chest. Her slender legs are in proportion to her body and end in neat oval paws. Good length to her tail which is of medium thickness at the base and tapers to a rounded tip. Her coat is short, close lying and in and a lovely pale dove grey colour. Nice girl well presented. **2<sup>nd</sup> Simpson's UK OB Imp Gr Pr Papagena Nadina (27h) FN 23/07/98. Chocolate Tortie.** A favourite of mine and so good to see her again. She is such a lovely girl and she looking good for her 16 years of age! Her head is carried on a medium neck and in proportion to her body. She has a lovely short wide wedge which tapers to a blunt finish at the muzzle. Her top of head shows gentle rounding with good width between her medium sized ears are broad at the base with rounded tips and tilted slightly forward. She has good depth of skull and a very good break to her short straight nose that is level with her chin. Her large lustrous chartreuse eyes are set well apart and of good shape with the top line slanting towards the nose and the lower line fuller and more rounded. Her body is slender with a firm muscular feel and she stands on slender legs that end with neat oval paws. Tail of good length that balances the body well and is of medium thickness tapering to a rounded tip. Her coat looked a little open today but still had satin like texture to it. Beautiful tortie markings of chocolate mingled with varying shades of red. Lovely mature girl who was well presented! **3<sup>rd</sup> Thompson's Gr Pr Mayrling Kia Ora BUR n 21/03/2009** Grumpy girl who was hissing and growling and just did not want to be out of her pen at all. Her head is carried on a medium neck and in proportion to her body. I would prefer her wedge to be a little shorter with a touch more width at the cheekbones. Her top of head is slightly flattened with good width between medium sized ears that are set well apart so that the outer line continues the shape of the upper part of the face and are broad at the base with rounded tips and show and slight forward tilt in profile. For me she needs more depth between the top of her head and her lower jaw. Her brow is slightly rounded leading to a good break to her nose that has a small bump and is not quite level with her shallow chin. Her large lustrous eyes are a green chartreuse colour and are set wide apart and of good shape with the top line slanted towards the nose and the lower line more rounded. Her body is firm and of good weight with a straight back and strong rounded chest. She stands on slender legs with neat oval paws. Her tail is balanced and of medium thickness tapering to a rounded tip. Her coat is a rich warm brown colour just a little patchy in places. It lies close to her body and has a glossy sheen. Shown in lovely condition just a shame she was in such a bad mood!
