Devon Rex Adult Male;

CC Brynes' ADELFSH LORD FLASHHEART (DRX ds), M, 13.06.2011

Very nervous Black Smoke Devon Rex with a broad wedge head, high cheekbones and a medium length muzzle which I would have preferred to be a fraction broader; he has a fair chin, level bite and some stop. His tufted ears are large and set at a good angle, and his eyes are large and oval when he is relaxed. He has a firm body, slim legs and long tapering tail and is covered with a soft soft with waves on his body and rexing on his legs and tail.

Devon Rex Adult Female;

BOB Neale's CH JONSCOTT RUMOUR HAS IT (DRX f 03), F, 12.02.2013

Tortie & White Devon Rex with a broad wedge head, high cheekbones and a short broad muzzle with curved whiskers, fair china and level bite, and with a fair stop in profile. Her ears are large with tufts and jug handles and are set well on the head, and she has large oval eyes, and with a good overall Devon look. She has a long neck, slim body, long legs, neat oval paws and a long tail, though I would have preferred this to taper a little more. She is covered with a soft coat which is rexed on the body, legs and tail, though the coat does lack density somewhat, especially on the neck.

Sphynx Kitten Male;

1 Brynes' ONATUREL LITTLE BLUE BOY (SPH a), M, 19.05.2015

Blue Sphynx with a modified wedge head that has rounded contours, prominent cheek bones and a strong rounded muzzle which is a fraction longer than I would prefer; whisker pads are developing, he has a fair chin and level bite, and a slight break to the profile. His ears are large with jug handles and are set well at a slight angle to the head, and he has medium sized lemon shaped eyes. He has a slim firm body, long legs, oval well-padded paws and a long tapering tail. He is covered with a down that has a chamois leather feel, with slightly heavier down on nose. A lovely very friendly young chap with lots of purrs.

2 Grigg's MAURICO PERSONA GRATO (SPH a 03), M, 16.04.2015

Blue & White Sphynx with a modified wedge head that has rounded contours, prominent cheek bones and a rounded muzzle with some whisker pad, fair chin and level bite, and in profile he has a slight break in the nose line. His ears are medium sized and I would have preferred them set a fraction higher, and he has medium sized lemon shaped eyes. He has a thick neck, slim body, long legs, well-padded paws and a long tapering tail, and is covered with a peach fuzz with heavier down on his nose and tail.
