Ian Macro

Cornish Rex Kitten;

1 Lowell's JODUNO LULU (CRX n 03) F 15.10.2014

Black & White Cornish Rex with a medium wedge head, high cheekbones and a rounded muzzle with long crinkled whiskers, level bite and a chin that slopes away somewhat; in profile she has a slight dip in the nose line and a slight bump on the nose. She has mussel shell shaped ears that are set well, with a slightly rounded skull between them at present; the ears are wide at the base but I would have preferred them a fraction taller. Her eyes are large and oval with a good Cornish look. She has a slim neck, medium sized slim body, long elegant legs, small oval paws and a long tapering tail, and she is covered with a soft coat showing good density with neat waves starting to develop along the back and tail, though no rexing yet developed on the sides and legs. She is shown in excellent condition and has a lovely purr and temperament.

Devon Rex Adult;

CC Wilson's NIDORAN NIMUE (DRX as) F 20.01.2014

Blue smoke Devon Rex with a modified wedge head with high cheekbones and a strong rounded muzzle with short curved whiskers, level bite and a fair chin; in profile she has a fair stop. She has large ears with tufts and muffs that are wide at the base and set wide apart, and large oval eyes. She has a long slim neck, firm body, long slim legs, neat oval paws and long tapering tail and is covered with a short coat that is soft except for a little harshness along the top of the tail, and is somewhat lacking in density, especially on the sides. She has neat waves on her body and rexing on her legs and tail.

2 Linton-Sinclair's SIARUNG SHAKIRA (FIFE ICH) (DRX fs 03 21 33) F 06.03.2013

Another cat of lovely type, who ran the winner close. Modified wedge head with high cheekbones and strong rounded muzzle with short curved whiskers and fair chin, and with a fair stop in profile. Large ears of excellent size and set, and large oval blue eyes. Firm body, slim legs and a long tapering tail and she is covered with a soft coat that is just a little harsher along the top of the tail, and lacks density on her sides, with down on her neck; she has rexing on her body legs and tail; shown in excellent condition.

3 Aroha's NIDORAN MORNING GLORY (DRX g) F 21.12.2013

Blue tortie Devon Rex with a modified wedge head with high cheekbones and a short muzzle with stubby whiskers, fair chin and level bite, and she has a fair stop in profile. Large ears with tufts that are set well, and with large oval eyes. Firm body, long slim legs and long tapering tail and covered with a short coat that generally lacks density and is a little harsh along the spine line and the top of the tail, showing rexing on the body legs and tail.

BOB Linton-Sinclair's CH SIARUNG SYNERGY (FIFE ICH) (DRX fs 24) F 23.03.2013

Devon Rex Neuter;

PC Aroha's CH NIDORAN THE SECRET OF NIMH (DRX cs) MN 01.03.2013

Very nervous Blue smoke Devon Rex who likes his dinner, modified wedge head with high cheekbones and short broad muzzle with short whiskers and level bite; in profile he has some stop. He has large ears of good size and shape, though I would have preferred them a little lower set, and he has large oval eyes. Firm body, slim legs and a medium length tapering tail and he is covered with a short coat with good density that had neat waves on his body, and is fairly soft except along the top of his tail.

AV Foreign Adult, Male;

1 Jones' LEOPARDSVIEW LONE RANGER (BEN n 24) M 18.07.2013

AV Foreign Adult, Female;

1 Lincoln's GR CH LINCZOZO CAT'S PAJAMAS (ABY n) F 28.09.2012

2 Linton-Sinclair's SIARUNG SHAKIRA (FIFE ICH) (DRX fs 03 21 33) F 06.03.2013

See above.

Nichols' QUINCUNX RUBYFRUITCAKE (LPS f) F 01.07.2014

Young Tortie LaPerm with a modified wedge head with slightly rounded contours and a medium length muzzle with long whiskers, fair chin, level bite and some whisker break and signs of whisker pads developing, though I felt the muzzle was somewhat fine. She has large ears without muffs or tufts, but with some furnishings, and she has medium sized expressive eyes. She has a firm medium sized body, slim legs, rounded feet and a medium length tail, and she is covered with a medium length wavy coat that has a resilient texture.

AV Foreign Breeders Kitten, Male;

1 Wilson's NIDORAN COOPER (DRX as) M 04.01.2015

Just a tiny babe, Blue smoke Devon Rex with a modified wedge head with high cheekbones and a short rounded muzzle with a chin that slopes away; in profile he has a slight stop. Large ears with tufts and handles that are set well apart and fairly low, with a rounded top of head at the moment. Large oval eyes adding up to a good Devon look. Little firm body, long slim legs, neat oval paws and a long tapering tail – at the moment he is in the suede stage and the fur along his back is a little harsh. Sweet little chap.

AV Foreign Breeders Kitten, Female;

1 Wilson's NIDORAN KUMORI YOSEI (DRX ns) F 04.01.2015

Black smoke Devon Rex with a good 'Devon' look, litter mate to the boy, but showing better type at the moment. Large low set ears with tufts and muffs, fair stop and short muzzle but her chin slopes away somewhat. She is currently covered with very short fur but I think she has lots of potential.

2 Goodger's SOOSTEE GAUDETE (BEN n 22 33) F 06.08.2014

3 Lockwood's KHUPHERA ELEXIS (ANY a) F 24.07.2014

AV Foreign Senior Neuter;

1 Bates' UK IMP GR PR TEIGNAGE SIR POUNCEALOT (ALH n 25) MN 06.04.2011

2 Phillips' CH & PR LILYPUT DUCHESS KATE (TOS c 32) FN 31.05.2012

3 Nichols' QUINCUNX FLIBBERTYGIBBET (LPL h 03) FN 06.08.2006

Chocolate tortie & white LaPerm who was in a very bad mood today and was difficult to judge; modified wedge head with slightly rounded contours and a medium length broad rounded muzzle with prominent whisker pads, long curved whiskers and firm chin. She has large ears with furnishings that are set well, and large striking green eyes that were somewhat rounded. She has a firm medium sized body, slim legs, rounded paws and a medium length fully plumed tail and is covered with a medium length wavy coat with a springy texture.

Rex Cat Club: Cornish Rex Adult, Kitten or Neuter

1 Hills' MEGGYMOO TATIANNAH (CRS es 21 33) F 17.03.2012

Cream Silver Tabby Pointed Cornish Rex with a medium wedge head, high cheekbones and rounded muzzle with a fair chin and level bite, though I would have preferred the muzzle to be slightly longer to balance; in profile she has a slight curve to the nose line. She has large mussel shell shaped ears which are set well, and large oval eyes with a good Cornish look. She has a long slim neck, medium sized slim body, long legs, rounded paws and a medium length tapering tail; overall I felt she was a little on the small side. She is covered with a soft coat of good density that shows neat waves on her body and legs and rexing on the tail.

Any Colour Male Cat or Kitten;

Difficult choice between two excellent cats

1 Hart's WINTER STAR (White Semilonghair) MN 11 months

Excellent preparation, not a tangle anywhere; I loved his expressive eyes and long white whiskers. He has a round face with pink nose and large ears with tufts & furnishings, big hairy paws and a very soft coat with well plumed tail.

2 Lee's IMP GMC BILLY BOO (Red Shorthair) MN 1 year 7 months

Very friendly cat with a cobby body and a broad face with small ears and plush thick coat, a real licker and padder.

Any Colour Female Cat or Kitten

1 Creaton & Walkers' UK & OG IMP GMC RAINBOWDREAMCATCHER (Tortie & White Shorthair) FN 9 yrs 11 months

Always a pleasure to see her again, striking pattern to her shiny coat and always in excellent condition, and with a lovely temperament.
