

SHORT HAired CAT SOCIETY SHOW - 12.4.15

Mrs Sally Tokens

Thank you to Lynda and her team for their invitation to judge. I had a superb day with some lovely exhibits.

EXOTIC SH CHAMPION MALE; GR CC; Chesterman CH SIMCRIS HONEY BEAR cram lad of fourteen months old. Well boned lad with adequate weight and set fairly low on the legs. Ears are nicely positioned just a little open at the base. Skull is well rounded. Cheeks are full and round. Short broad nose and a level bite. Large round eyes of a very good copper. Moulting quite a bit today with the coat open to his flanks. In need of a little more undercoat but soft in texture and just standing away from the body. Lovely length to the coat and almost sound in colour to the roots, pale to medium cream. Short tail which is well furnished.

AC BREEDERS EXOTIC SH ADULT; 1 Harrop GR CH SHAKIRAH NIGELLA CLAWSON tortie spotted tabby coming up to two years old. Short cobby body, wonderful warmth of red to the coat. Tabby markings to her sides and face. Superb undercoat.

ORIENTAL SENIOR ADULT; Tasker GR CH LORICHA BUNDOOK BOY OLH ns 11 Black silver shaded lad just over five years old. Medium in size with the body, legs and feet all in proportion. Long body which is svelte, I would have just liked a little more weight along his spine. Small oval shaped paws. Tail medium in length and is tapering to the tip. Head is nicely balanced with a good width between the ears. Fine muzzle. Very slight dip in the profile. Chin almost in a vertical line with the nose. Elegant neck. Level bite. Ears are quite large and showing a nice width at the base and set as to follow the lines of the wedge. Oriental shaped eyes which are a nice green colour. Coat is of a fine and silky texture and close lying along his back. The tail is showing a small plume. Lovely frill around the neck and to his undersides. The black shading to the coat is approximately one third of the way down the hair shaft and a medium black in colour. Silver to the undercoat. He is showing some tarnishing to his back today.

AC SIAMESE DEBUTANTE KITTEN: 1 Tasker JONALEXI SELASIE SERENADE cinnamon five months old with a wonderful cinnamon colour to the points still coming through. Large ears which have a good width at the base. Coat just a touch long at present.
