

**SHORTHAIRED CAT SOCIETY  
CHAMPIONSHIP SHOW 2015**

Congratulations to Lynda and Jean on a very successful day. I had a most enjoyable time with Jo Seggie, our first outing together and hopefully not our last. I had some lovely cats and my thanks go to their owners for presenting them so well.

**A.V. ORIENTAL GRAND CHAMPION MALE**

**1<sup>st</sup>. IMP GCC TASKER'S GC LORICHA BUNDOOK BOY (OLH ns 11) (dob 29/12/09)** This boy really did himself no favours today, he was extremely nervous and fearful especially whilst away from the safety of his pen. I could not get him to relax or unwind from the tight ball he insisted on presenting himself in. He could be really stunning if only he would relax and enjoy himself a little more.

Even medium wedge, I would have preferred his ears to be a little larger, but they were well set. His eyes were of a very nice clear deep green colour in an Oriental setting. The profile is almost straight narrowing to a slightly fine muzzle, level bite and firm, deep chin. He has a long, firm, muscular body and long slender limbs, oval paws. His tail balances and he has a nice, full plume. The coat is silky and fine in texture, very well prepared and is of a good length. The colour is dense black and pale silver, with shading well down the hair shaft, silver under coat is in evidence. He has tufting around the ears, and between the toes. There is some barring on the legs and rather heavy tarnishing around muzzle, legs and feet which spoil his appearance somewhat.

**BRITISH BLUE-CREAM, LILAC TORTIE OR FAWN TORTIE ADULT**

**1<sup>st</sup>. CC BOB MURPHY'S BEAUBRITS WHATAPURRLAVA (BRI g)** A well grown girl at just over 10 months, nicely rounded head and tiny well set ears. Round orange eyes, well developed cheeks, deep nose break, level bite and firm deep chin. Cobby body of good weight, short, sturdy limbs and round paws. Dense, short coat with excellent mingling of pale cream and medium blue without any patches. Medium length tail.

**BRITISH BROWN SPOTTED KITTEN**

**1<sup>st</sup>. WITHHELD, 2<sup>nd</sup>. MARTIN'S WELLMAR WILL-O-THEWISP** What a character! Enjoying himself immensely and flirting with anyone who cared to look at him. Excellent conformation and very well grown. Round head and medium ears set well apart. Round copper eyes, well developed cheeks, short nose, sadly has an undershot bite, my reason for withholding, strong, deep chin. Cobby body and excellent bone, short dense coat with excellent spotting, well broken spine line. What a pity about his bite, but I am sure he will make a superb pet.

**ORIENTAL BLACK ADULT FEMALE**

**1<sup>st</sup>. CC BOB FREEMAN'S MESBELLES BLACK PEARL** Stylish, elegant girl, with long wedge and well set, large flared ears. Oriental eyes of clear green, almost straight profile, level bite and firm, deep chin. Long elegant neck, and well muscled svelte body, long slender limbs and oval paws. Very short, fine dense black coat, sound to the roots and with lovely glossy surface, long whip tail.

**2<sup>nd</sup>. TONKINSON'S TENAJ CLEOPATRA** Medium wedge and well set, large ears. Medium clear green eyes in Oriental setting, slight dip in profile, level bite and firm chin. Body is a little on the heavy side, long legs and oval paws. Short, close lying coat, well prepared and sound to roots. Tail balances well.

**HAVANA ADULT MALE**

**Considered for and awarded BOB to HIRST'S CH. TOGHER YANKEE DOODLE DANDY** Lovely boy, elegant and well prepared in excellent condition

**ORIENTAL TORTOISESHELL ADULT**

**CC WITHHELD 1<sup>st</sup>. FREEMAN'S MESBELLES LILAC TREASURE** Elegant girl of 10 months, medium wedge and large, flared ears. Oriental eyes, alas they are amber in colour, the reason for my placing. Straight profile, level bite and firm chin. Long, well muscled body and long tail. Short, fine well mingled coat of good texture. Such a pity about her eye colour.
