

LANCS CAT CLUB SHOW - 8.3.14

Mrs Sally Tokens

I would like to say a huge thank you to Chris and her hard working team for their kind invitation and excellent hospitality. It was a busy day with some very nice cats.

OLYMPIAN ADULT FEMALE; OLY GR CC; Brock UK IGR CH KARAMUSHI TUTUFRUITY seal tortie Siamese. A lovely medium sized female of six and a half years old. Long body which is quite svelte the tummy is just a touch rounded. Nicely balanced body, legs and feet. Small paws which are oval in shape. Tail is long and tapering to the tip. Head is nicely balanced with good width between the ears which are large in size and wide at the base, following the lines of the wedge. Straight profile. Fine muzzle. Fairly good chin. Bite is level although she has some teeth missing. Eyes slanting towards the nose and a brilliant intense blue which I thought had kept its depth of colour considering her age. A short coat which is fine in texture, some gloss present and close lying. Points are showing seal brown with shades of red, some shading to the body coat which is in tone with the points and still affording to a contrast.

RES OLY GR CC; Stewart IMP GR CH BARLEYFIELDS SNOW-FAIRY orange eyed white Persian. Not yet three years old and nicely developed with a short cobby body set low on the legs. Small ears which are well placed. Skull is nicely formed. Cheeks full and round. Level bite. Large rounded eyes of a very good orange colour. Lovely width to the cheeks and the muzzle is very nicely rounded. Almost round eyes showing a nice blue colour.
