

Many thanks to Sarah-Ruth Lee for her excellent stewarding and company on a busy day. I shall look forward to the next time. Quite a few of the exhibits were upset and unnerved by a lot of 'catawauling' during the morning, this made difficulties with the handling and judging of some cats and kittens.

1st. IMP. With held. Stark's GR.CH. DUSHENKA ORPHIEL, RUS a)

Very adolescent looking boy. The head is of medium length and showing prominent whisker pads. The ears are of good size and in a vertical setting. The profile shows a flat top, with a good angle and nose, the chin has good depth with a level bite. The eyes are almond in shape, green in colour, but still showing a hint of yellow at the outer rim. The coat is mid blue in colour, but lying rather flat on the body. Elegant proportions to the body and limbs, the tail tapers and is of good length. I would prefer a little more maturity before awarding an Imperial Certificate.
