

LANCASHIRE CAT CLUB SHOW - 9 MARCH 2013

JUDGES REPORT - MRS CELIA DE MARTINO

My thanks to Chris, Janet and the committee for their kind invitation to judge here. I had a lovely day, some gorgeous cats and an able steward Terry White. Many thanks Terry for your help, company and expertise in handling the cats.

AC EXOTIC CHAMPION (GR CH) MALE

GCC WALLACE'S VIVALDI BUGATTI BABY A gorgeous black shaded silver exotic lad with lovely round head, well placed furnished ears with good width between them, short nose with stop, brick nose leather outlined, bold green eyes well defined in black, full cheeks, good bite and firm chin. Cobby rounded weighty frame with short strong legs and thick tail in proportion to body. Well prepared soft silky dense coat, sparkling white lightly and fairly evenly tipped with black. Excellent temperament and condition.

AC EXOTIC CHAMPION (GR CH) FEMALE

GCC WALLACE'S VIVALDI WHITEVELVET An orange eyed white exotic girl with well prepared soft silky dense plush stand away sparkling white coat. Lovely round head with good width between well placed furnished ears, short nose with stop, full cheeks, good bite and firm chin. Fairly bold round orange eyes. Cobby round frame with short sturdy legs and thick tail of medium length in proportion to body. Excellent temperament and condition.

RES GCC MACKERETH'S CH HEATHROSE LIBERTANGO A tortie girl showing and excellent distribution of tortie colours, glossy black and shades of red. Coat well prepared, fairly dense, glossy and still stands away. Round head with well placed furnished ears, short nose with stop, full cheeks, good bite and firm chin. Round well placed orange eyes, could be bolder. Head slightly bumpy. Cobby rounded frame, short sturdy legs and a thick tail of medium length and in proportion to body. Excellent temperament and condition.

AC PERSIAN GRAND PREMIER (IMP GR PR)

IMP & RES IMP WITHHELD

1 WILKINSON'S GR TAMOSAH INFERNO A black shaded cameo not in show condition today, would not have awarded a pc let alone an Imperial. Coat needed much more show preparation, there were knots which could have easily been teased out. Glossy black top coat with some silvery white undercoat evident. Would prefer less colour on face for a shaded. Well placed furnished ears with good width between, short nose with stop, full cheeks, good bite and firm chin. Excellent deep set bright orange eyes. Cobby rounded weighty frame with sturdy legs and tail of medium length in proportion to body. Excellent temperament.

2 WILKINSON'S GR PR TAMOSAH ICARUS A pewter lad who was very feisty today, did come on the table for me to have a quick look, but was mainly visually judged in his

pen. Good top of head with well placed furnished ears, held a touch proud and open at base. Nose of medium length with stop, full cheeks, round orange eyes fairly bold. Cobby frame, short legs and tail in proportion. Looks as though there are silvery white contrasts there with a darker mantle. Slight tarnishing around whisker pads.

NORWEGIAN FOREST KITTEN

1 & BOB EMERY'S NOYNARCOK JASPER SKOGVENNS A gorgeous 8 month old brown tabby lad. Triangular shaped head with well placed large furnished and tufted ears, straight nose, green well placed eyes, slightly oblique in shape and set, good bite and firm chin. Lovely Norwegian look. Muscular body of good size weight and bone for age, strong legs showing tabby bars, back legs higher than the front with knickerbockers, long ringed tail. Well prepared kitten coat with some woolly undercoat. Black tabby markings on a warm brown background. M to forehead, spectacles around eyes, facial lines, butterfly and oysters. Excellent temperament and condition.

2 EMERY'S NOYNAROCK JOSHUA SKOGVENNS I suspect litter brother to winner, same date of birth. Two lovely brown tabby lads, hard to chose. Bigger than winner but not such a good Norwegian look. Triangular shaped head with well placed furnished and tufted ears, straight nose which I would prefer longer, hazel eyes, oblique in shape but could be slightly more oblique in set to give a better look. Bite good and firm chin. Good sized muscular body of good weight and bone, strong legs, back legs higher than the front and having knickerbockers. Well prepared coat showing well defined black tabby marking on a warm brown background. Still soft kitten coat, guard hairs and some woolly undercoat. Excellent temperament and condition.
