

LANCASHIRE 2013 MRS JOAN SMITH

My thanks to Chris and her team for the kind invitation. My steward Daniel worked very well and travelled a fair distance just to steward, thank you so much . He handles the cats with great care and keeps me in order too.

PERSIAN

TORTIE & WHITE ADULT

1ST CC BOB MANNINGS GIVE ME A KISS KOCILLA

A very pretty tortie and white just 9 months old. She was far happier in her pen where she looked far more relaxed. Round head with well positioned neat ears, lovely deep copper eyes, short nose, quite small nostrils , firm chin, bite just about acceptable wouldn't like it to go more under. Well patched coat , one white ear and one black and an attractive beauty spot to face. Black needs to be denser but she is only young so time on her side, it was broken with rich red and sparkling white. Compact shape, well presented.

BICOLOURED KITTEN

1ST BOB GLEDHILL CLOVERHILL SWEET VIOLET

A very bonny red and white kitten 6 months old. Lovely head shape, width between small ears, round large expressive copper eyes. Level bite, fat cheeks and firm chin. White moustache to face ,white to tummy, chest and all legs with the rest of her coat quite pale but sound red. Full coat excellent presentation , well grown with a very sweet temperament.

2ND MANNINGS ALGERNON WHOLE LOTTAROSIE

Another very attractive red and white just a couple of months older. Wide top of head, just slightly uneven. Well set neat ears, round large orange eyes, very slight gutters, short nose, cheeks just starting to filling out, acceptable bite and ample chin. Attractive white tipping to ears, rich red to face with a red patch on back , full red tail with the rest of her coat sparkling white. Cobby build, good weight ,well presented and handled well.

AC PERSIAN NOVICE

1ST SIMPSON MAGINOIRE HOT ROD

Very handsome red silver tabby exotic, only young not yet a year old.

2ND HARROP HADFIELDS KING OFHEARTS

Another handsome exotic a blue tabby coming up to 5 years old.

3RD JAYJON SOMETHINGSPECIAL

A young black male good black coat .

AC PERSIAN NON SELF NEUTER

1ST CASE CH & I GRPR GEMKIN JAZZY JASPER

A really handsome red and white male good head type and groomed to the last hair a pleasure to judge.

2ND WILKINSON GRPR TAMOSAH INFERNO

Handsome chap but not a black shaded cameo, but a very good black smoke.

SIAMESE

TORTIE POINT SIAMESE KITTEN

1ST BROWN BURNTHWAITES MAYFLOWER 321 25.06.12

Dainty chocolate tortie point kitten, nearly an adult but still very much a kitten. Small feminine head, short even wedge, slight dip to profile and forehead a touch flat with a slight bump at back of head. Good top of head with width between generous, wide based flared ears., Initially she was reluctant to open her eyes so difficult to assess colour but gradually we gained her trust and she fully opened them to reveal bright deep blue . Level bite chin falls away slightly .Dark chocolate points showing some warmth, broken with varying shades of red. Mask only just broken, ears were very well mingled with rich red , pity the red on her other points wasn't as rich . Short ivory fine textured coat showing some toning shading. Small frame , length to lean body, supported on long legs with small neat paws and a long whip tail to balance. Well shown and in good condition, just needs to mature a little more.

AC ORIENTAL ADULT

1ST BROWNRIGG GRCH HEMLOCK BOBBI DAZZLER 37d 23.07.11

A very attractive red oriental female 20 months old. Stylish regal head carried on graceful neck. Strong even wedge , almost straight profile, large wide based ears complimenting her wedge. Lovely alert oriental set and shaped eyes of bright green. Acceptable scissor bite and firm chin. Short glossy coat lying close to body, quite sound throughout , a deep rich red showing an acceptable amount of tabby pattern. Good weight, long muscular body supported on slim legs and a long tapering tail. A beautiful female a joy to judge and handle.

AC ORIENTAL MAIDEN ADULT

1ST BROWRIGG ENZO FERRARI DE ORO 4102.05.12

A very imposing chap, a 10 month old wonderful brown tabby oriental. Strong long even wedge, almost straight profile. Generously large, wide based ears balancing his wedge. Bright alert green oriental eyes well set. Correct bite and fair strength to chin. Very well marked classic pattern, M to forehead with clear scarab between his ears. Cheek ribbons, whisker spots and thumb prints to ears. Unbroken necklaces, clear butterfly, spine lines broken. Large matching oysters on flanks, pale tummy spots, bracelets to all legs and a well ringed tail. Dense glossy black markings , ground colour a cool dark bronze ,for perfection would have liked this paler and warmer , but the perfect cat has not been bred as yet. Muscular frame with lean long body, elegant neck, slim long legs finished with a long whip tail. So easy to handle and I thank the owner for showing him under me and in such lovely condition.

2ND HELM VELVETENA FAWNYKACHON 37r 31.05.12

An attractive fawn female again very similar in age. Short wedge showing pronounced pinch to muzzle. Fairly large flared ears which could have been better set. Bright green eyes which she did hold a little full and were a little straight set. Correct bite, chin does fall away slightly. Quite short coat of fine texture ,it was an even mushroom colour with cool tones, sound on head and spine just very slightly paler at roots on flanks. Good weight to body, lean and strong legs with neat small paws, and a moderately long tail. Shown in good condition and sweet tempered.

AC ORIENTAL MAIDEN NEUTER

1ST HARDY PIPPASTRO RED JAZZPURR 6220d 24.02.12

A large well built red tabby LH oriental male just over a year old. Rather nervous so didn't show himself off to his full advantage. Moderately large head, even wedge, almost straight profile, quite large well furnished flared ears which balanced his wedge. Oriental bright green eyes, showing a rather worried look today due to nerves. Correct bite and fair chin. Tabby pattern clear on head a little diffused on body, faint rings just visible on tail. Coat a rich sound red, with a little length, tufts behind ears and to feet with a nicely plumed tapering tail. Long strong body, fairly long neck, long legs and paws in proportion. Hope to see this chap again when he has overcome his nerves.

ORIENTAL JOINT BAC LANCS MRS JOAN SMITH PAGE 2

2RD DRAPER TOGAR SONG SUNG BLUE 37a 08.03.12

Handsome blue male just a year old. Moderately long wedge a trifle narrow, almost straight profile, fair width to top of head which was a little flat. Large flared ears, which he had a tendency to hold a little upright. Bright green eyes set a little deep, good shape sloping towards broad nose, level bite, a little more strength needed to chin. Sound coat reasonably short rather cold dark blue lying close to body, in good condition with a healthy gloss. Lean body, good neck carriage, slim legs tapering tail which just needs another inch for balance. He was a little unsure today so didn't show himself off too well, just needs a little more confidence.

AC ORIENTAL VISITORS NEUTER

1ST NELSON'S GR PR TIDDLYPOO JUSTIN TYME 38d 25.02.06

Mature spotted red tabby male 7 years old and shown in lovely condition. Moderate wedge with slight dip to profile, narrow muzzle, quite large flared ears with fair width to top of head which was slightly flat. Level bite chin falls away. Alert bright pale green oriental shaped eyes a touch deep set. Attractive freckles to nose and lips. Clear tabby pattern to head, M to forehead, eye lines, whisker spots and thumb prints to ears. Body coat showed very faint markings one broken necklace, spine line just about broken, faint spots to tummy, bracelets to legs, rings to tail, spots were rather diffused and quite a lot of linkage. Mid red, short close lying coat, sound to roots and showing a healthy shine. His pattern was very faint. It wasn't helped panned next to a red cat showing a very definite spotted pattern and he was a self. Large strong male good length body supported on slim legs, quite long tail just a tiny pip at tip. Handled very well, and in excellent condition.

AC SIAMESE/BALINESE ARISTOCAT ADULT

1ST MOORE ADZWOAM DANCER 32 8 15.12.11

A young small caramel tabby female 1.3 years old. Small head, short wedge with quite a good profile much better than face on, needing more width between her ears which could

have been lower and have a wider base. Level bite , chin does fall away . Mid blue eyes, rather full and straight set. Sludgy brown tabby pattern, M to fore head, eye ribbons spotty whisker pads, clear thumb prints to ears. Bracelets to legs and well ringed tail. Coat was a touch long ,it did lie close to body, some shading to off white body but there was contrast. Well shown and very friendly.

AC SIAMESE/BALINESE TITLED ADULT

1ST MORGAN CH ASTRALBLAESE PEGASUS 24c 28.05.2006

Mature lilac male just coming up to 7 years old. Moderately long wedge, broad nose, muzzle a little blunt. Ears were positioned quite well but needed to be larger to balance wedge. Oriental shaped eyes a little deep set, bright blue with an intermittent squint. Level bite, chin falls away slightly. Lilac points are a flat colour and needed more pink tones, virtually clear magnolia coat , reasonably short ,it was quite thick so didn't lie as close as it should. This could have been due to the very cold weather ,a stud cat and living outside. . Good elegant shape, he was a good weight but his back bone was quite prominent , slim legs and quite long tapering tail

CINNAMON/CARAMEL SIAMESE ADULT

1st MORGAN IGRCH ASTRALBLAESE ANDROMEDA 24 n 21. 11. 2004

Mature lilac based caramel female in her 9th year. Moderately long wedge , almost straight profile, large flared ears which balanced her wedge. Oriental mid blue eyes slightly full today and they could have been a deeper shade of blue. Incisors missing but bite did look correct with depth to chin.. Looking good for her age today ,she still has elegance, lean body with slim legs and oval feet, long tapering tail. Coat was a good texture but a little long, it did lie close to body. There was a little shading which did tone with her brownish grey well matched caramel points.

AC SIAMESE/BALINESE LIMIT KITTEN

1ST WEBB PIPASTRO LUKESTAR 61b 21.07.12

Chocolate point Balinese male kitten 7 months old. Handsome boy with some style, even wedge , looked far better in profile than straight on. Almost straight profile, wide based ears balancing wedge. They were well furnished with tips. Oriental light blue eyes which he had a tendency to hold slightly full. They did look better when he relaxed ,but would have liked them with more depth of colour. Acceptable scissor bite chin falls away slightly. Incomplete mask showing brindling around eyes looking like a pair of glasses this didn't help the eye shape. Dark chocolate points with a little warmth. Cream coat lay close over body just starting to flow, it did have a little toning shading. Fringing starting to develop at base of ears and around neck. Good weight , well toned body , lean long legs with tufted paws and a moderately long plumed tail.

2ND RYAN RIDESTAR SEVERN SUNRISE 61dt 20.06.12

A very well built red tabby male just short of being an adult. Quite a long wedge, ears needed to be wider set and larger to balance wedge. Almost straight profile, broad nose, slight pinch. Mid bright blue eyes which were a little full and slightly straight set. Correct bite chin did fall away slightly. Rich red tabby points, M to forehead, eye ribbons, whisker spots, and clear thumb prints to ears. Bracelets to legs and plume did show some rings. Unfortunately he had some stud tail so plume didn't seem as full as it really was, I did take time to speak to the owner so she could remedy this in the future.

Virtually clear warm white body coat lying close across body just starting to develop some fringing. Excellent boning would pass easily for an adult, long strong body carried on lean long legs with tufted paws and a tapering long tail. Lovely temperament hopefully he will be better presented next time.

If he had been better prepared I would have been happy to award him a first prize as a kitten.

SEAL.BLUE/CHOC SIAMESE/BALINESE NEUTER

1ST CALLOWAY GRPR DRESTOTHRIL DAQUARI 24b 24.10.10

A stylish chocolate point male 2 years old. Long even wedge ,almost straight profile just a tiny dip. Forehead was a little flat and there was a visible bump to back of head. Large flared wide based ears completing the wedge, so he was far better viewed face on. Only a few teeth remaining but bite did look level with chin a little weak. Bright mid blue eyes, good shape just a little deep set. Some warmth to dark chocolate points, some brindling around eyes on mask, legs even and dark chocolate tail. Some toning shading to ivory body coat but there was contrast. Strong lean frame, slim long legs, with small paws and a moderately long whip tail. Well shown and a very friendly chap.
