Long even wedge, straight profile, good bite & chin. Large well-set ears. Expressive bright blue oriental eyes of good set. Good plumed tail.

1ST & PR RYANS, RIDESTAR CLAUDIUS-MAXIMUS. Young lad just turned 18 months with good overall type & balance. Balanced head of good length, slight bump on otherwise straight profile, perfect bite & firm chin, gums rather red & sore looking today. Expressive eyes of good shape, set & colour. Large well-set ears. Very good coat length & texture, well contrasted to points with looked rather muted today lacking the vibrancy of a red, I question if he is in fact Apricot. The hall lighting not being perfect so I gave him the benefit of the doubt. Good plumed tail.
