

WILTSHIRE & DISTRICT CC CH SHOW. 020716.
BETTY SHINGLETON.

My thanks to Jackie and Elaine, the Committee and whole team for my invitation to judge, the very kind hospitality and a generally very good day. To my steward Fiona Herman many thanks for all your help, I thoroughly enjoyed my day with you.

GRAND CLASS – AC NON-SELF PERSIAN CHAMPION ADULT MALE.

1ST. CERT. W/H. THOMAS'S CH TALSHIAR FIRST IN LINE. PER n 03. 310715. Just eleven months old and showing excellent maturity. Strong broad head, sadly a depression of the skull, hopefully as he matures and the skull finishes its development this will improve – my reason for not awarding the certificate. Very short broad nose accentuated break, large nostrils and reasonable nose leather, cheeks developing, strong rounded muzzle, ears held a little on top of head, large expressive eyes showing good colour. Cobby body, short strong boned legs and short balanced tail. Overall coat presentation very good, just a little untidy around his legs, showing maximum colour – jet black and glossy, sparkling white to inverted “V” on face, white collar and some white on legs. Very sweet temperament.

GRAND CLASS- AC NON-SELF PERSIAN CHAMPION ADULT FEMALE.

1ST. CERT. W/H. FAIRS CH FILOSELLE REBELHEART. PER gs. 260215. Another youngster very well grown in lovey condition, still needing time to fully develop. Strong rounded skull, ears neatly placed, short broad nose good break, large nostrils and nose leather, cheeks developing, strong muzzle, sadly undershot jaw and marginally off set, just too much for me today, my reason for not awarding the certificate, again hopefully when she fully develops this will improve and settle down. Ears very well set just a little open at base, expressive eyes of good shape and colour. Cobby body in good condition, short strong boned legs, balanced tail. Coat beautifully presented, soft intermingling of pastel blue and cream, broken colouring to face and feet – very attractive, showing light undercoat, ear tufts silver.

No award. SMITH'S CH MARMELSTEIN FUDILUVFLOSSY . PER d 03. 230615. A very young girl – just over a year old. Overall small and lightweight – just needing time to fully mature. Top of head a little

narrow with ears still quite large and open at base, skull depression and undershot jaw, cheeks developing, firm chin, expressive eyes showing good colour. Coat very well presented silky texture, showing rich red and sparkling white, equally proportioned. Very sweet temperament.

GRAND CLASS – AC NON-SELF PERSIAN PREMIER NEUTER MALE.

GRAND PREM.CERT. PERKINS PR TYTHERTON PRINCE CHARMING. PER n 03. 200415. A young neuter boy showing very good maturity. Balance head with strong broad rounded skull, ears well placed still just a little large, short broad nose good break, large nostrils and nose leather, cheeks very well developed, rounded muzzle, expressive eyes colour still to fully develop. Very well grown, good weight, short strong boned legs and balanced tail. Coat silky texture and very well presented, perhaps just a little untidy under his arms! Colouring almost equally proportioned, face showing sparkling white and black, white to his legs and tummy, patches of white and jet black. A very happy youngster.

GOLDEN PERSIAN ADULT FEMALE.

1ST. CC W/H. FORD'S KINDRED PANDORA. PER ny 12 64. A very shy young girl, overwhelmed by her surroundings. Rounded skull, ears a little large and pointed at present, large expressive eyes with black eye liner, colour needing time to develop, nose slightly long showing break, large nostrils and nose leather, cheeks and muzzle a little weak. Overall good body size, just lacking the weight and condition at this very difficult adolescent stage, strong bone, balanced tail. Coat presentation not at its best, colouring needing time to develop, some black tipping showing, the general effect just very pale.

TABBY /TORTIE-TABBY POINT BIRMAN ADULT MALE.

1ST. CC W/H. FROST'S SHALFOI OZZI OSWALD. SBI a 21. 200715. I liked this young boy very much, nicely balanced head, skull strong and rounded, ears just a little large – needing time to grow into them, medium nose slight dip in profile, rounded cheeks, tapering to firm muzzle and chin, expressive eyes showing good colour. Good conformation and condition, strong bone, balanced tail. Today the sternum felt to be extending longer than I would like, not having a gentle convex curve as is usually the case, my reason for w/h the

certificate. I hope as he fully matures this will improve and not be a problem. Very good coat texture and presentation, points showing blue markings on a pale agouti ground colour. Good gloves and gauntlets.

SIBERIAN NEUTER MALE.

BOB. DAWES PR ALCHEMIST LITTLEBOY BLUE. SIB a 03 21. 180814
A young boy very much at the adolescent stage just needing time to fully develop, much more relaxed out of the pen and very happy to be judged. Short broad wedge with rounded contours, slightly rounded muzzle and chin, good bite, nose of uniform with slight concave curve at the bridge of the nose, cheekbones set low very broad and connected by a gentle rounded line to the whisker pads and chin. Very good width between ears of medium size, rounded at the tips, large eyes slightly oval shaped. Large strong body in lovely condition, broad chest short strong neck, medium length legs substantial bone, balanced tail. Coat very well presented, not at its winter density at present.

SIBERIAN NEUTER FEMALE.

1ST. PC. DAWES ALCHEMIST BOPEEP. SIB a 03 21. 180814. Litter sister to my boy, very feminine and as such not carrying the substance and development. Head needing time to broaden, ears quite large and held a little close together, expressive eyes good shape and size, profile showing slight concave curve at the bridge of the nose, nose uniform width, muzzle fairly broad, shallow chin, Low set cheeks bones connected by gentle rounded line to the whisker pads. Very good condition and conformation medium legs with substantial bone, balanced tail. Coat reasonably dense some undercoat, not at its full winter density, a little untidy. A lovely temperament.

2ND. JAMES ESAYA WYTCHCAT. SIB n 22. 050815. A very young girl, just short of eleven months old, very much a "Kitten Cat" and needing time to develop. Large ears a little close together, large expressive eyes, cheeks and muzzle just not fully developed, nose a little narrow. Very good strong substantial bone and in very good condition. Coat quite short, very well presented, really springy texture and feel. Sweet youngster.

OCICAT ADULT MALE.

BOB.CAUNTER'S G CH THICKTHORN BALTI. OCI b. 100415. Such a sweet youngster although just a little overwhelmed by his surroundings. Overall well balanced head, modified wedge, slight dip to profile, well defined muzzle definite suggestion of squariness, firm chin broad level bite, slight whisker break. Alert ears quite large and well set, large expressive almond shaped eyes. Good conformation and condition for age, legs of good substance and balanced tail. Coat short, satiny and well presented, clearly defined facial markings, well defined chocolate coloured spotting on pale copper agouti ground colour, showing "bulls-eye" pattern. A pleasure to judge.
