

JUDGE MRS P BEARD SMITH

Thank you to Janet for her invitation to judge at the Shropshire which this year doubled up with the Gwynedd. I had some lovely cats, two especially I want to mention a chocolate adult and a very attractive cinnamon silver ticked tabby kitten. I was accompanied today by my daughter Alice.

**IMPERIAL CLASS AC BRITISH GR CH ADULT MALE**

**IMP GR Potts' GR CH Surreptitious Georgio [BRI ns24]**

Mature substantial male. Lovely shape to his broad head. Well set ears good width apart. Large expressive emerald green eyes. Short broad nose. His cheeks are full and round leading to his broad muzzle. Level bite fair chin. His body is well boned and stands square and low on short well boned legs and firm paws. Tail balances with body. His coat is short thick and dense with a lovely pattern. The spots are a lovely shape and jet black in colour showing good contrast with his pale silver ground colour.

**RES IMP GR Green's GR CH Suncats Lovetoburn of Kaleido [IMP] [BRI d 03]**

I really love this boy but today he was not very happy and did not show himself to his best advantage. Large broad head with excellent type. Neat well set ears good width apart. Superb deep orange eyes which are well opened, large and round. Short broad nose. Mature muzzle and well rounded cheeks. His body is well boned but not as weighty as it has been. He stands on strong legs and firm paws. Thick balanced tail. His coat is short but today is soft and lacks density. Vibrant red free of tabby markings and sound to the root. His white is pristine and covers one third of his body.

**IMPERIAL CLASS AC BRITISH GR CH ADULT FEMALE**

**IMP GR Bujalska-Axon's GR CH Delphinium Sweet Pea [BRI n24]**

Beautiful brown spotted female with a lovely disposition just like her brother. Apple shaped head with excellent type and an open expression. Her ears are neat and set far apart in the rounded contours of her forehead. Large round eyes orange in colour. Short nose. Level bite good chin. Her cheeks are full and round and her muzzle broad. Her body is well boned and cobby and stands square and low on short strong legs and firm paws. Balanced thick tail. Short thick coat displaying her beautiful pattern. Her spots are uniform and show good contrast with her warm ground colour.

**RES IMP Walsh's GR CH Lourewz Miss Gucci [BRI ns24]**

Cobby compact female. Nicely rounded head. Well set ears good width apart. Round eyes green in colour. Short nose. Her cheeks are round and full leading to her broad muzzle. Her bite is just acceptable. Well boned body standing on sturdy legs and round paws. Balanced tail with rounded tip. Her coat is a little soft but a nice length. Her spots are well defined and show a good contrast with her silver ground colour.

**CHOCOLATE ADULT**

**1<sup>ST</sup> CC & BOB Fisher's Lottina Bilbo Baggins [BRI b] Male 16/04/14**

This boy is one of the best chocolate selfs I have seen and he is only just nine months. Apple shaped broad head showing excellent British type. His neat ears are set well apart and fit nicely into his rounded contours. His eyes are round and large, gold in colour. His cheeks are well developed and full and his muzzle shows good width. Level bite deep strong chin. His large frame is well boned and when he fills out will be very substantial indeed. Strong short legs and large firm paws. Thick

JUDGE MRS P BEARD SMITH

balanced tail. Superb short thick coat which is a medium chocolate colour from the tip to the root. I have never seen a chocolate coat with this degree of soundness. He had a lovely nature and was a pleasure to handle. I have no doubt he will have a very successful show career.

**CINNAMON/FAWN SELF ADULT**

**1<sup>ST</sup> CC & BOB Wild's Topmarx Alakazam [BRI o] Male 07/04/11**

Substantial mature male. His large head is round and broad. Neat ears which are well set good width apart. He did insist on holding them at an angle which did nothing for his overall appearance. Short broad nose. Full cheeks and broad muzzle. His bite was very untidy but was just about level. Strong chin. Good underlying bone structure to his large frame. He stands on strong legs and firm paws. Tail balances with body. His coat is short and flat lying. It is a beautiful rich cinnamon colour and sound to the root.

**BLACK SILVER TABBY ADULT MALE**

**1<sup>ST</sup> CC WITHHELD Graham's Loismhor Dynamo Dylan [BRI ns22] 15/07/12**

This boy is quite immature for his age. His head is round. Neat well set ears. Round well opened green eyes. Short nose. Level bite fair chin. His cheeks are well rounded and his muzzle broad. His body is small and fine boned and stands on elegant legs and dainty paws. Balanced tail. His coat is thick and dense but very out of condition today. His pattern was let down today because of the condition of his coat. It was not well defined and the spine line and oysters were brindled. I am sorry but his coat issues together with his immaturity precluded the certificate today.

**Considered for BOB**

**Allen's GR CH Adzwosh Silver Renoir [BRI ns22] Male 02/04/12**

This boy was not happy about being judged today. Round head. His ears are well set but a tad oversized for balance. Expressive emerald green eyes. Medium length to his nose. Full round cheeks. I was unable to assess his bite. Well boned body standing on strong legs and firm paws. His tail is thick but a bit short for balance. His coat is short and dense. Jet black pattern showing good contrast with his silver ground colour. Evidence of tarnishing on his muzzle cheeks and front legs.

**BLACK SILVER TABBY ADULT FEMALE**

**1<sup>ST</sup> CC & BOB Adair's Limatz Miss Kavanagh [BRI ns22] 01/07/12**

Same age as the male and showing the degree of maturity one would expect of an adult of this age. She is a very pretty female and has a lovely apple shape to her head. She has excellent type and an open expression. Her neat ears are well set and a good width apart. Short broad nose. Well rounded full cheeks and broad muzzle. Level bite fair chin. Cobby well boned body standing low on short legs and firm paws. Balanced thick tail. Her coat is short and thick. Beautiful jet black pattern showing good contrast with her silver ground colour. A little poppet.

**2<sup>nd</sup> Panting Ronaldo Silver Wilma [BRI ns22] 26/04/14**

Only just old enough for this class and looking how one would expect a young hormonal female to look. Round head with well set medium sized ears. Large round eyes green in colour. Medium length to nose. Her muzzle is a little narrow today. Level bite fair chin. Adolescent body needing to fill out and mature. She stands tall on elegant legs and firm paws. Tail balances with body. Her coat is an

JUDGE MRS P BEARD SMITH

acceptable length but lies flat. She has a lovely jet black pattern which is well defined and showing good contrast with her silver ground colour.

**TICKED TABBY KITTEN**

**1<sup>ST</sup> & BOB Chance's Charmoden Simplyazguard [BRI os25] Male 03/08/14**

Super kitten. Apple round head with excellent type. His ears are a little oversized for balance but are well set and fit into the rounded contours of his forehead. Large round expressive eyes deep gold in colour. Short broad nose. He has good width across his muzzle and full well rounded cheeks. Level bite good chin. His body is well boned and compact and stands on strong legs and firm paws. Balanced tail. His coat is short and dense and has a very attractive pattern. Fairly warm cinnamon ticking with silvered base colour.

**BI COLOURED NEUTER MALE**

**Considered for and awarded BOB**

**Oakden's PR Shinyfairy Dumbledore [BRI c03] 07/09/13**

Substantial mature male. Large round head showing pleasing type and open expression. Well set ears good width apart. Large round eyes gold in colour. Short broad nose. Well developed cheeks and broad muzzle. Level bite fair chin. Good boning to his large frame. He stands on strong legs and large firm paws. Balanced tail. His coat is an acceptable length, a bit soft and flat lying. His lilac patches are pale lilac with a pinky hue. Pristine one third white.

**BI COLOURED FEMALE**

**1<sup>ST</sup> PC Oakden's Shinyfairy Bumblebea 19/07/11**

Mature female. Round broad head. Her ears are neat and well set. Large round eyes. Short broad nose. Well rounded full cheeks and broad muzzle. Level bite good chin. Her body is well boned and stands low and square on sturdy legs. Balanced tail. Her coat is a nice length and flat lying. She is a dark Bournville chocolate colour which pales off at the root. Her white just about makes the one third white required by the SOP.
