My thanks to Show Managers and the committee for inviting me to judge once again at this popular show in Wigan. My thanks as always to Mark for keeping me company and handling the cats so well – even if on occasion I need to gently (??!!) remind him to return a cat to its pen because I need to remove onto the next one!!!

Excellent straight profile. Correct bite, firm chin of good depth. Excellent muzzle shape. Eyes of very good size and shape. Excellent length body of correct type, beautifully balanced. Strong boned legs of good length, tail in proportion. He is a good size but in accordance with his age needs to 'body-up' a little – but he has all the time in the world. Coat of excellent length and texture, very well presented. A very pleasing exhibit and a fine example of the breed. Excellent temperament, he thoroughly enjoyed the attention and obviously gets a lot of attention! He must be a joy to live with. Absolutely nothing not to like about him and it goes without saying that he was well worthy of the PB & BoB!
