

Many thanks to Chrissie for the invitation to judge and to the Lancashire Cat Club for their hospitality. I had a great day with some lovely cats and was very ably assisted by Mark Pearman as my steward. I look forward to another time.

Well grown eight months old boy. Good length to narrowing lines of wedge finish in a fine muzzle. Level bite and fair depth, level chin. The top of head needs a little more width to balance the length of the wedge. Excellent line to straight profile. The large wide at base ears are set a trifle high as lack good width between. Good oriental shape and slant to eyes, bright blue in colour. Coat is fairly short, close lying and fine in texture across back of neck and shoulders but is not as short near base of tail where it is coarser. I would prefer a warmer tone to the slightly dark chocolate points of ears and mask, the tail looks brindled and the paws are marginally paler. The body colour of ivory shows some shading but tones with the points colour. Nice natured.

Deep, intense blue colour to eyes of oriental shape and set slanted down towards the nose. Lovely mature coat is short, close lying and fine in texture. Entered as a Caramel Point Siamese, checked with show manager, but I thought she was a Lilac Tortie. The points looked pinkish grey with shades of cool toned cream particularly on the ears with a mottled right ear and slightly on the left. Mask was not fully formed yet but hint of cream at the top off mask. Just starting to develop colours on paws and heels. Faint rings on tail. Lovely temperament.
