

SHROPSHIRE & GWYNEDD CAT CLUB SHOWS – 7TH FEBRUARY 2015 – SARNDRA DEVEREUX

SHROPSHIRE IMPERIAL CLASS AC GR CH BURMESE ADULT – MALE

IGR CC W/H PALLISTER'S UK GR CH PENWYNKATZ CREAM DELIGHT (BUR e). Well grown chap, muscular body, well shaped limbs, tapering tail a touch short to balance. Short, wide wedge, flat top of head, slight flattening to brow. Good profile break, level chin of reasonable depth, showing acne, bite appears level though incisors missing. Remaining teeth appear rather dirty & gums red & sore looking. Pale chartreuse eyes of good shape & set, looking a tad small today & showing considerable crusty sleep around them. Medium sized ears of good shape & set. Short cream coat, rather open today, good "powdering" to top of head, thick smudges to limbs. Very good natured. This poor chap was in desperate need of preparation, he looked & smelt very unclean, please Mum, up your game, this lad is an attractive Burmese, but for this high award, presentation is everything!

SHROPSHIRE IMPERIAL AC GR CH BURMESE ADULT – FEMALE

IGR CC W/H PALLISTER'S GR CH PENWYNKATZ SINAI TIGERSEYE (BUR n). Girl of good weight & muscle, shapely body, proportionate limbs, tail to balance ending in a paintbrush tip. Short wedge looking very narrow & pinched in the muzzle today. Slightly rounded top of head, well rounded brow. Pleasing profile break, level chin, could be deeper, level bite. Expressive pale yellow toned eyes of good set. Well set, medium sized ears. Short, fine, though rather patchy brown coat. Good natured & easy to handle. Sorry to disappoint but her narrow, pinched muzzle & patchy coat made it too difficult for me to grant this high award.

GWYNEDD PERSIAN WHITE ORANGE EYED KITTEN – FEMALE

1 BOB NICHOLAS' GEMKIN PARAGON (3/8/14). Delightful person of good size, weight & muscle. Firm, cobby body, short, thick limbs, round paws, quite short, bushy tail. Broad well rounded head, slight bump to the top at present, hopefully this will flatten out with age. Cheeks developing well, short, broad nose, pink leather with slightly small nasal apertures, firm, level chin, bite a touch undershot at present but she was obviously teething. Lovely round eyes, colour still changing but orange tones visible. Small neatly set ears, a touch open at the base. Perfuse coat, perfect groomed, every hair separated, pristine snowy white in appearance. Lovely temperament, a joy to meet her!

SHROPSHIRE PERSIAN BLUE OR LILAC TORTIE & WHITE KITTEN

1 BOB MANNING'S CHAKEL XERCISE BUNNY (PER g 03) (10/7/14). Well grown girl for her age, typical cobby body, short, stocky limbs, large round paws, short, bushy tail. Broad, round head, smooth to the touch, cheeks developing, short nose with blue leather, good size to nasal apertures, firm, level chin, bite very slightly undershot. Bold, round eyes, colour still developing though copper tones are visible. Tiny, neatly set ears with plenty of width between. Pleasing length to coat, good ruff frames face well, though I would prefer a touch more grooming as there were a few little knots underneath. White cheeks, cream chin, a little stained, forehead shows mainly blue with some cream intermingled, fine white blaze, the blue & cream going over the top of head. A little blue on right of muzzle, though the rest of the muzzle is white. White collar and to shoulders and flanks, large well defined patches of blue and pale cream to back, white tummy, hind limbs mainly white with blue patches, front limbs white with small patches of both blue & cream, tail mainly blue with a small amount of cream mingled in. A touch on the shy side but a very attractive girly, I will be interested to watch her progress.

SHROPSHIRE PERSIAN GOLDEN KITTEN – MALE

1 BOB COHEN-RANDALL'S TASHIAMOUR GOLDEN OSCAR (PER ny 12 64) (23/7/14). Well grown young man, cobby, muscular body, short, thick limbs, round paws with black paw pads, bushy tail, a touch longer than I would prefer, to grow into I would say. Good width to well rounded head, pleasing apple cheeks, nose a fraction long, brick red leather outlined with black, good sized nasal apertures, pleasing depth to firm chin, bite a touch undershot. Well shaped & set black lined eyes, colour still developing, but green tones visible. Small ears, set well with good width between. Reasonable length to soft, fine coat, showing distinct new growth at the roots. Pale gold undercoat, quite heavy black tipping, cream tones to muzzle & chin, back of legs show black from paws to heels. Some barring to limbs & rings to tail at present, though being a kitten I have not penalise him for this as I would have done an adult. A very good natured chap.

GWYNEDD AC SILVER SOMALI KITTEN – FEMALE

1 BOB BURN'S SOMANTIKKS RAZZLEDAZZLE (SOL ns). Sweet baby of good size, elegant body, well proportioned limbs, dainty oval paws with tiny tufts, well shaped plume tail. Moderate wedge a touch fine in the muzzle at present, good height to forehead. Pleasing profile break, level, firm chin, level bite. Obliquely set hazel toned eyes. Large well cupped ears with good furnishings. Silky coat rather short at present but nicely ticked with black over bright silver undercoat. Some slight tarnishing to face and along spine line. Good facial markings & black heels. Very playful & sweet natured.

2 BULLIVANT'S BARANCHRI XCELSIS (SOL os). Older girl of good size, weight & muscle, elegant body & limbs, neat oval paws, good length & shape to well furnished tail. Moderate wedge, slightly fine in the muzzle, could be teething? Slight nose break, level chin of good depth, level bite. Obliquely set yellow toned eyes. Large, well set, cupped ears with tufts. Coat soft & silky, needing more length, nice even ticking though colour appears more like chocolate silver than sorrel silver in hall light, only the slight tarnishing to shoulders gives a slightly more sorrel look. Good natured & easy to handle. On speaking to her owner/breeder afterwards I was told that by her breeding she could only be a sorrel silver, so it will be interesting to see her again when she's in full adult coat.

SHROPSHIRE USUAL SOMALI NEUTER – MALE

BOB HACK'S GR PR NEWLEAF DREAMCATCHER. A charming chap of good overall maturity, well shaped, muscular body, proportionate limbs, oval paws, good length to well furnished tail. Moderate wedge showing generally well rounded contours. Good height to forehead, slight profile break, level chin & bite. Well set almond shaped green toned eyes. Well cupped ears with good furnishings and tiny tufts. Good length to silky coat, evenly ticked with two to three bands of black ticking. Very good temperament & well presented.

SHROPSHIRE SORREL SOMALI NEUTER – MALE

1PC BOB MACKENZIE'S SOMANTIKKS ARAMIS. A delightful mature chap of good size. Muscular, elegant body, well proportioned limbs, oval paws, good length to well furnished tail. Moderate wedge, good nose break, level, firm chin, level bite. Green toned almond shaped eyes very well set. Good size to well cupped ears. Quite good length to sorrel coat, though it does need to show more obvious ticking; hopefully with his next moult new coat will have the required ticking. Slightly shy, but well behaved & with a lovely Somali "smile"!

SHROPSHIRE BROWN BURMESE ADULT – MALE

1CC BRIDGES' SANLIS BROWN'D OFF. Well grown young man of just under a year old. Elegant body with well rounded chest & straight back, well proportioned limbs, tail a little thick, just long enough to balance. Short, wide, blunt wedge, gently rounded top of head, well rounded brow. Pleasing profile break, level chin of good depth, level bite. Well set expressive yellow eyes. Medium sized ears set with good width

between. Short, close lying coat of warm, even brown. Very good temperament & presentation, ran BOB winner very close.

BOB McCORMICK'S CH FLOREAT ELLA FENELLA. A beautifully mature, elegant girl, showing lovely balance. Shapely body, proportionate limbs, balancing tail with typical paintbrush tip. Short wedge of very good width, ending in the desired blunt muzzle. Gentle rounding to top of head, well rounded brow. Distinct nose break, level firm chin, level bite. Delightful expression to well set chartreuse eyes. Super size, shape & set to ears. Short, close lying, silk like textured coat of even warm brown with superb gloss. Sweet natured & easy to handle.

Also considered for BOB, CLARKE'S CH NEMOREZ THE PHANTOM MENACE (Male), PALLISTER'S CH PENWYNKATZ NEW ROMANTIC (Male) & PALLISTER'S GR CH PENWYNKATZ SINAI TIGERSEYE (Female).

GWYNEDD AOC TORTOISESHELL BURMESE ADULT

1 CC BOB ROGERS' IOCOSA OCTOPUSSY (BUR h). Totally gorgeous girl, looking very mature for her tender age. Elegant body, proportionate limbs, neat spoon shaped paws, well shaped tail to balance. Short, wide, blunt wedge, gently rounded top of head, well rounded brow. Distinct break to short nose, level, firm chin, level bite. Fabulous large, lustrous, yellow toned eyes of lovely set. Super ears, medium in size & very well set. Short, glossy coat, silky to the touch, a lovely mingle of chocolates & reds. Super temperament & one of my two "take home" cats of the day, this lady blew my socks off!!!

2 COULTER'S JACOU CHAMPAGNE TRUFFLES (BUR h). Another youngster, but this girly looking very much still the kitten. Well shaped body, limbs in proportion, tail balances though has a slight fault at the tip. Small rather narrow head, fine in the muzzle, which is relatively short but having high ears seems to exacerbate the length. Poor profile break, chin is level & has reasonable depth, level bite. Would prefer chartreuse eyes to be somewhat larger, though set and shape are acceptable. Short, close lying coat of good texture, a pretty mingle of chocolates & reds. Lovely gentle temperament. I hope this girl will broaden out with maturity & become more balanced.

Also considered for BOB PROF. BRADLEY'S GR CH SHIVARENE COCO CHANEL (BUR h).

SHROPSHIRE CHOCOLATE BURMESE NEUTER – MALE

1PC BOB HALL'S SAMADHI SIN WITH A GRIN. Mature, elegant boy, muscular body, proportionate limbs, oval paws, correct tail to balance. Short wedge, a touch square in the muzzle today, slightly flat top of head, though good rounding to brow. Good break to nose that's a fraction long, level, medium depth chin, level bite. Well set & shaped yellow toned eyes. Medium sized ears set wide apart. Pale chocolate coat of good length & texture. Very good natured.

GWYNEDD AOC TORTOISESHELL BURMESE NEUTER

BOB MARSHALL'S PR & IGR CH MILLGILL THEATRICALS (BUR j). Sweet natured older girl, shapely elegant body, proportionate limbs, dainty spoon shaped paws, correct tail to balance. Short, wide wedge, rounded top & brow. Well defined profile break, level chin of reasonable depth, level bite. Attractive chartreuse eyes set wide apart. Ears are medium in size and well set. Short coat of good texture a pretty mingle of pale frosty lilacs & powdery creams. Gentle, easy to handle & looking great for her age!

GWYNEDD FAWN POINT SIAMESE ADULT – FEMALE

1CC TAYLOR'S BELROO MISS TEEQ. Sweet girl of good size, long, elegant body, slender limbs, good length to tapering tail. Medium length wedge, slightly fine in the muzzle at present, virtually straight profile, chin

level though shallow, level bite. Brilliant blue eyes of good Oriental shape and set. Large ears, wide at the base, a touch high set. Lovely texture to short, close lying coat, lovely rosy mushroom points, limbs slightly paler, clear magnolia body. Very good natured and well presented.

BOB HELM'S CH VELVETENA FAWNTOCAPTIVATE. Mature, beautifully balanced girl of good size, long, svelte body, slender limbs, dainty oval paws, long tapering tail. Medium length, even wedge, straight profile, level chin, a touch shallow, level bite. Intense blue eyes of good Oriental shape and set. Large, well set ears, broad at the base. Sleek coat of very good texture, warm rosy mushroom points, clear magnolia body. Lovely temperament and presentation.

GWYNEDD TABBY POINT SIAMESE ADULT – MALE

1CC SIDNELL'S TENJA SEEKINGMAGIC (SIA m 21). Handsome well grown chap, long, muscular body, slender limbs, oval paws, good length tapering tail, has a slight imperfection at the tip. Long balanced wedge, straight profile, level chin of good depth, level bite. Oriental shape and set to deep blue eyes. Large ears, broad at the base, holding a touch high today. Short coat of good texture, blue based caramel tabby points showing the distinct metallic sheen to the backs of hind legs. Some tonal shading to back and flanks. Lovely gentle temperament.

GWYNEDD TABBY POINT SIAMESE ADULT – FEMALE

1CC BOB CALLOWAY'S SIAMAZING SERENDIPITY (SIA n 21). Very attractive eighteen month old girl, elegant body, beautiful neck carriage, slender limbs, dainty oval paws, super whip tail. Long, balanced wedge, straight profile, level chin of quite good depth, level bite. Lovely deep blue tone to Oriental shaped and set eyes. Super shape and set to large, flared ears. Close lying, short coat of pleasing texture with warm seal tabby points, beige tone body with some tonal shading. Very good temperament and presentation.

Also considered for BOB CANEY'S CH MERRYTAIL KEZIAH MY JOY (SIA n 21). Another lovely girl who ran winner really close, just missed out to the slightly more flashy look the winner was giving today; another day this result could be reversed.

SHROPSHIRE RED POINT SIAMESE ADULT – MALE

BOB TOTTEN'S CH GELCUNE TOUCH OF GOLD. Large boy a touch fine in the flanks, a working boy I guess? Slender limbs, oval paws, good length to tapering tail. Long, well balanced wedge. Straight profile, level chin of good depth, level bite. Deep blue tone to Oriental eyes. Large ears, holding them a touch high. Short coat of good texture, pale red points, body is of warm white with slight tonal shading. Very good natured.

GWYNEDD TABBY POINT SIAMESE KITTEN – MALE

1 BALL'S COSITA LEN GOODMAN (SIA a 21). Gentle chap of acceptable size, weight and muscle for his age. Good length to body, slender limbs, oval paws, tapering tail of good length. Medium length wedge, rather pinched at present, slight developmental dip to head. Profile shows slight dip, chin appears level but is a fraction shallow, level bite. Deep blue tone to eyes showing a somewhat straight top line. Large ears of quite good set when relaxed. Open, kitten textured coat, dark blue tabby points with paler bracelets to limbs, dark blue rings to tail. I gave this boy the benefit of the doubt on being blue today, he might develop into a blue based caramel tabby at a later date. Sweet natured and very playful.

GWYNEDD TABBY POINT SIAMESE KITTEN – FEMALE

1 BOB PRIME'S KAMIK SWEETHEART (SIA f 21). Very attractive girl of just over six months, long, svelte body, fine limbs, neat oval paws, good length to whip tail. Medium length wedge with the hint of a teething pinch. Straight profile, level chin of good depth, level bite. Lovely shape and set to Oriental eyes, colour is bright blue at present, hopefully it will progress to a darker tone. Large, very well set ears with particularly good flare. Short, fine coat of pleasing texture, showing warm seal tabby markings interspersed with red and seal tones that are slightly paler to limbs, contrasting well with creamy beige body. Lovely nature and presentation.

GWYNEDD TORTIE POINT SIAMESE KITTEN

1 BOB KEOGHAN'S ALDERSTAT BABYBEL (SIA r). What a classy baby, only just over fourteen weeks and showing such promise. Good weight and size to long, elegant body, slender limbs, tiny oval paws, long whippy tail. Medium length, beautifully balanced wedge, straight profile, level chin of good depth, level bite. Brilliant sapphire blue eyes of typical Oriental shape and set. Superb shape, size and set to well flared ears. Short, fine coat of pleasing texture, such pretty fawn tortie points, pastel shades of rosy mushroom and cream (divine!), even magnolia body. Fabulous temperament, condition and presentation. This darling was my BOV Siamese Kitten for the Gwynedd show and I'd have snuck her out under my white coat like a shot if I'd have thought her mum wouldn't have noticed!!!

GWYNEDD FAWN POINT SIAMESE NEUTER – MALE

BOB GREEN'S PR BELROO MONTALBANO. Slightly unhappy chap of very good size, long well muscled body, slender limbs, oval paws, good length to tapering tail. Medium length balanced wedge, virtually straight profile, level, slightly shallow chin, level bite. Brilliant blue Oriental eyes. Large well set ears when relaxed (and he thought I wasn't looking!). Fine coat of good texture, rosy mushroom points, magnolia body with a hint of tonal shading. Well presented, just a bit fed up.

GWYNEDD RED POINT SIAMESE NEUTER – MALE

1PC BOB CHANDLER'S JOHPAS PETITS BISOUS. Shy young man of just over nine months, good size for his age, long svelte body, slender limbs, oval paws, tapering tail of good length. Long, well balanced wedge, straight profile, level chin of good depth, level bite. Bright blue Oriental shaped eyes, I'd prefer the tone to be a little deeper. Large ears of good shape, set well when still. Short, fine coat of very good texture, vibrant red points, slightly paler in tone to limbs, warm white body. Very gentle, just needs to come out of his shell, hopefully that will come with show experience.
