

## **Mrs S Heavens – Shropshire Cat Club Show – 7<sup>th</sup> February 2015**

Thanks to Janet and her committee for the invitation, I was called in to help as Barbara Prowse was unable to attend due to having an operation, I do hope it went well and that the exhibitors weren't too disappointed. I had an enjoyable day with some lovely cats. A huge thanks to Alice Beard-Smith for getting me to the station to catch my train, it really was a very long trek home which didn't end till 9:45pm.

### **A.C. SELKIRK REX GRAND PREMIER NEUTER MALE**

1. G.P.G. TO MINSHALL'S PR ACOZINI KARMA CHAMELEON (SRL ds 11) MN 17/9/12  
Red Silver Shaded Longhair. A wonderfully friendly boy with an amazing purr. Rounded head with wide smooth skull between mediums sized ears with cute tufts to the tips and curly internal furnishings. Lovely expressive large round well-opened eyes, broad straight nose with downward slant, good breadth across his cheeks, well padded rectangular shaped muzzle, level bite and good chin. Good boning to rectangular shaped frame, he looked to be standing tall on his legs, well prepared coat that is obviously going thru a change at the moment, he lacked any ruff and the coat was quite thin in places with more crimps than curls, medium length tail.

### **A.C. SELKIRK REX GRAND PREMIER NEUTER FEMALE**

1. G.P.C. TO OAKDEN'S MEWSOS COMEON EILEEN (SRA h) FN 1/7/11  
Chocolate tortie. This girl had a grumpy look but was in fact very sweet natured and started to purr as soon as I got her out. Rounded head with smooth broad skull between medium sized ears with width to base, large round eyes, short nose with downward slant, rounded cheeks, her muzzle looks rather round when viewed from the front but when felt it does have the a definite rectangular impression, level slightly narrow bite and fair chin. Cobby frame tending a little towards a square shape, short dense thick coat with tight unstructured curls. Medium thick tail with close lying curls.

### **BRITISH BLUE, LILAC, FAWN TORTIE & WHITE ADULT**

1. C.C. B.O.B. BROWN'S LYNBRO CASSANDRA (BRI g 03) F 26/9/13  
A very pretty friendly girl, well rounded head with smooth skull between well set medium sized ears, large round orange eyes, short broad nose, full round cheeks and muzzle, level bite and fair chin. Compact shaped frame with short strong legs and firm round paws, short dense coat a little soft in texture, a pleasing pale blue light cream and crisp white. White dot on the right hand side of her nose, a white dot on the left side of her lip, white also to chest legs and stomach, well defined patches of colour to her body, balanced length fully coloured tail.

2. JARROLD'S ADURTSH PRIMROSE-LILLY (BRI g 03) F 2/4/14  
A sweet natured girl, head rounding well with slightly narrow top between well set rather large ears, round well opened orange eyes, broad straight nose, slight rounded cheeks and muzzle, level bite and fair chin. Good boning to frame she is starting to grow so is long in the body, short coat with good density, a rather dark blue and cream with silver tipping to the blue. White almost oval shaped patch over the bridge of her nose, white to chest legs and stomach well patched to her body, balanced length fully coloured tail.

## **Mrs S Heavens – Shropshire Cat Club Show – 7<sup>th</sup> February 2015**

### **BRITISH A.O.C. SPOTTED ADULT**

#### **1. C.C. B.O.B. HIRONS'S HIRONSUADE COFFEE CREAM (BRI e 24) M 4/5/14**

Cream. A young boy with gently nature a little feminine looking. Head rounding well with smooth skull between medium sized well set ears, round orange eyes, short straight nose, slight rounded cheeks, a little square to his muzzle, level bite and fair chin. Good boning to frame, currently it is rather long he was standing tall and needs to pack on some weight, short coat with good density a fraction unsound to the roots. Well defined spine line, the side spots are well defined to the centre of the body just a little linked to his shoulder area and also flanks, balance length tail with defined rings.

### **BRITISH BI-COLOURED ADULT**

#### **B.O.B. TO GREEN'S GRCH SUNCAT'S LOVETOBURN OF KALEIDO (BRI d 03) M 12/1/11**

It is the first time I have meet this boy and isn't he just gorgeous, I could have happily taken him home but don't think he would have fitted into any of my bags. He is so laid back I couldn't get him to stand up he just lay in his pen looking at me, he has wonderful type, superb development and the most fabulous coat which is an amazing sound rich red and sparkling white.

#### **1. C.C. HOLLIDAY'S WONDERPAWS LADY-CLEO (BRI n 03) F 13/3/14**

Blue & White, this girl was very nervy but once out of her pen she started to settle down and showed herself very well. Round head with more width needed between well set medium sized ears, large round orange eyes, broad straight nose, her cheeks are starting to fill, she is a little square to her muzzle, level bite and good chin. Good boning to her frame, she is starting to grow so a little long in the body she need to pack on some weight. Short dense coat, white blaze to face, full white collar, white to chest stomach and legs this extends up over her thigh on her left back leg , there is a line on her right back leg that forms a white band with a blue patch below, fraction silver tipping to her blue patches, balanced length fully coloured tail.

#### **2. WOOD'S APATCHICAT CATELYN STARK (BRI n 03) F 12/4/14**

Black & White. A sweet natured girl with a cute look. Round head with smooth skull between well set medium sized ears, super orange colour to her eyes I would have liked them to be larger in size. Short nose with distinct curve when viewed in profile, rounded cheeks and muzzle, level bite and fair chin. Compact shaped frame held on short strong length, short coat with very silky texture lying flat, a solid sound jet black and sparkling white. White blaze to face, very thin white collar, white to legs and stomach, there is a white patch to her back. She has lots of stray white hairs some of which almost form an untidy line on her back, plus masses of white hairs to her ears, it is very difficult with dominant colours but not impossible. Balanced length fully coloured tail.

### **SELKIRK REX ADULT**

#### **1. C.C. B.O.B. MINSHALL'S ACOZINI ZIGGITY BOOM (SRS ay 33) M 3/9/12**

Blue Golden Colourpointed. A very friendly boy, his coat had been well prepared and he had a lovely fragrant aroma. Round head with wide top between medium seized ears with width to base. Round expressive eyes, I would have liked them to be a little large, short nose with downward curve, wide cheeks and medium muzzle with well –padded whisker pads, a fraction round rather than rectangular, level bite and firm chin. Cobby shaped well filled body with short thick boned legs and large firm round paws. Good preparation to coat, a mixture of crimps and curls, medium thick tail with short close lying curls.

**Mrs S Heavens – Shropshire Cat Club Show – 7<sup>th</sup> February 2015**

**2. GREEN'S ASHBLUE FOEEVERAND EVER (SRL a 11) M 03/5/14**

Blue Silver Shaded Longhair, another sweetie with a lovely purr. Round head with fair width between medium size ears with tufted tips, large round eyes, short broad nose with downward slant, medium width muzzle with fair rectangular impression, level bite and good chin. Cobby shape to body with short nicely boned legs and firm round tufted paws. Well prepared coat a little lacking in undercoat with crimps rather than curls. Full tail showing some curls.

**BRITISH A.O.C. SPOTTED KITTEN**

**1. B.O.B. HALL'S CATYKES LOTTIES LAD (BRI a 24) M 29/6/14**

Blue Spotted. This boy is going thru the difficult stage where he is starting to grow so out of balance. His head is more wedge shaped than rounded, wide smooth skull between ears that are large in size with width to base but set well into the contours of his head. Large deep orange coloured eyes, wide broad straight nose, slight cheeks and rounded muzzle, level bite and fair chin. Good boning to frame, short coat with fair density a dark almost blue grey slate colour, it had a slight fawn ground to his head and legs but was lacking to the back of his body. Clear facial markings, the spine line had fair separation, the side spots to the center of his body were well defined, a little linked to the shoulders and flanks. Balanced length tail showing rings.
