Jane L Francis Wilson

A first rate show! Many congratulations to Marie, Kate and Liz, what a super entry! I had a most enjoyable day with a goodly number of super cats. Thank-you for the invitation.

Oriental Grand Champion Adult Female 1 & GR CH to ENTWISTLE'S CH GABLME LAWAN KANIKA (37h) 1 year 10 months What a friendly outgoing lass, still very much a youngster but overall she has some lovely qualities. Stylish balanced head just a hint of a pinch to a medium long wedge. Well set flared ears and a good top line, straight profile, level chin and a clean correct bite. Expressive eyes well set and shaped, possessing a clear bright green. Long lithe fairly well covered proportionate body, slender limbs and balancing length of tapering tail. Quite short fine close coat of a sound warm medium to dark toned chocolate which is correctly broken with varying bright reds. To be picky I would like to see her carry a touch more weight - has she been calling? Comfortably presented.

Breed Classes

Oriental Red Adult Considered for BOB and awarded to BROWNRIGG'S UK IGR CH HEMLOCK BOBBI DAZZLER female 3 years 6 months A lovely mature lass with a beautiful stylish balanced wedge head. Good top between large open ears, nice profile and level chin and bite. Inscrutable expression to her bright green eyes of excellent shape and set. Firm, weighty and well covered but elegant length of body with balancing long tapering tail. Short sleek sound coat of mid bright red showing some superficial markings to the surface. Perfect manners, nice to meet you again, you are lovely!

Oriental Tortie Adult Considered for BOB and awarded to ENTWISTLE'S CH GABLME LAWAN KANIKA (37h) 1 year 10 months

Oriental Fawn Adult Considered for BOB and awarded to HELM'S GR CH VELVETENA FAWNYKACHON 2 years 8 months This lady is maturing so beautifully. Of excellent well balanced type with a stylish head. Even wedge with a good profile line, correct bite and level chin of good depth. Well set and shapely eyes of clear pale green. Long firmly covered svelte body of excellent proportions. She has slender limbs, neat oval paws with fine tapering tail just to balance. Her coat is short, sleek and well coloured to the roots of a beautifully clear and even warm toned fawn. Love her little chirrups as she is stroked. She is one of those cats who really enjoys her shows and loves to be handled and admired!

Oriental Spotted Tabby Adult Male Also Considered for BOB JONES' GR CH SARAMESE SUMMER SENSATION (38a) 1 year 8 months A gentle, nicely masculine and mature boy of pleasing strong type. Balanced wedge head and large ears set well apart. He has such an innocent expression to his shapely well set eyes of good green. Strong body of overall good proportions and elegance. There is so much to like about this boy but unfortunately he is now beginning to develop some problems with the pattern. The latter is a lovely soft toned medium blue and the colour does penetrate to the roots, with a fairly warm base colour; but the spine line is now totally solid. There is still fair spotting to the sides some of which tends to linkage, and the extremities continue to show generally good patterning. Excellent nature and well presented.

Oriental Spotted Tabby Female 1 CC & BOB ELLIOT'S SERAPIS ALLTHATIAM (38a) 10 months 1 week A very friendly and outgoing young lady of very good type. Well balanced even wedge head with large open ears set well apart. She has a near straight profile line, firm chin which falls away marginally and correct bite. Good green eyes well set their shape is good just held a touch wide. Firm beautifully grown girl who is nicely covered but retaining her elegance (likes her food?). Generally correct pattern of a medium dark blue with warm toned mushroom base. She is nicely marked down the toes, beautifully well ringed tail. Spots to the right side rather linked the left better and clearer. Good penetration of blue to the roots and the spotting is relatively free of agouti. Spine line showing evidence of breaking. Hope she keeps her spots - this young lady has a pleasing balance between the three components required in a patterned cat being type, pattern and colour. Pleasure to judge. 2 BAUERFEIND'S SHIMILEETA BLAMEITON THE RAIN (38) 11 months 2 weeks Attractive dainty miss of lovely type a touch petite but well covered for her age. Stylish head with a good profile, firm chin bite ok. Large open ears set well with a good top line. Olive green eyes of a good shape but held a touch open and set well. Well proportioned body long and svelte with long fine limbs and tapering nicely ringed tail to balance. Close lying coat is short and fine textured. Her spine line is beginning to break, but the spots to her sides show agouti invasion, she has some markings extending quite well down to her toes. The black has fair penetration to the roots and the base colour could be a little warmer. A little shy, well presented and in good condition.

Asian Tabby Adult Considered for BOB and awarded to RAPP'S CH TEIGNAGE BOUDICCA (72 45eq) 3 years 10 months A lovely lady of very good type and style. She has a short wide wedge tapering to a blunt muzzle. Pleasing

width to her top of head between medium shapely ears. Good depth to her head the break could be marginally stronger, level chin with good depth, bite correct. Large lustrous expressive chartreuse green eyes very good set and shape. Firm well covered body of balance and good proportions. Short close coat she is clearly ticked in rich brown broken with varying bright reds. Well presented.

Oriental Red Kitten 1 & BOB MASTERS' ENIGMATIC TANGERINE DREAM male 5 months 2 weeks An excellent young fellow of very good type with a stylish balanced head. Head shows a medium long near even wedge with good top line between large open flaring ears set well apart. Very nice profile with a firm chin and correct bite. Well set and shaped eyes of clear bright green. Well grown long elegant firm body with slim limbs, dainty paws and fine tapering tail to balance. Coat is quite short, fine textured and beautifully sleek. Chocolate is sound but a trifle dark which is lifted by beautiful bright red mingling on the ears and slightly more muted tones to her body. Some of the hair in the bikini area is rather pale toned. Overall very promising and a lovely outgoing nature.

Oriental Caramel Kitten Two beautiful babes so very alike so I wasn't surprised to find out later that they are litter sisters! 1 & BOB BROCK'S KEVELS BRAVE ANDBEAUTIFUL female 4 months 1 day This little lady gained her first marginally on type which is beautifully stylish. Lovely balanced head with well spaced large open ears. Good profile line, bite correct and chin firm. Beautiful dark green eyes of good set and shape. Well developed body slender and elegant with proportionate limb, dainty paws and fine tapering tail. Short sleek coat is virtually sound a darker sludgy version of caramel showing some superficial shadings to the limbs and lower body. Confident little person and promising 2 BROCK'S KEVELS DIRTY DANCER female 4 months 1 day Litter sister to the class winner and there is very little difference between them – definitely peas-in-a-pod! This lovely lass is a little reticent compared to her sister and is a little paler all over which shows up the lighter colour of the coat which shows shadow markings which are clearly spotty, and also in her eye colour is a paler green. Also at present her coat which is nice and short has very much "kitten" texture. It would be interesting to see them in a few weeks or months to see what happens.

Oriental Spotted Tabby Neuter 1 PC & BOB EDWARDS' HEMLOCK ALFREDO FERRARI (38b) 1 year 1 month Absolutely superb lad - a proper spotty pattern, all there, present and correct married to beautiful stylish type. Pleasing masculine head with longish wedge and super top between large open flared ears. Good profile line with level chin of excellent depth and correct bite. Well set and shaped eyes of good bright green. Proportionate body muscular yet elegant, slender limbs, neat paws and balancing length of tapering tail. The pattern in a warm slightly dark chocolate is very clear and penetrates right down to the roots with a fairly warm toned base. Good broken spine line, lots of small spots over the shoulders, well ringed tail, excellent markings right down to his toes, lovely facial tracings. Some agouti threatens to invade the spots to the sides. The coat itself is super short, sleek and gleams with health. A lovely gentle boy a little shy and one to watch.
