Judge Sandra Woodley

Many thanks to Helen, Vanessa Sean and Sue for the invitation to judge at this friendly well run show with the spooky Halloween theme. Stephen Bunce came along just to steward for me and was as always excellent company and presented the cats to me perfectly – really showing them off to their best, thanks you – looking forward to next time. We also had the pleasure of the company of Naimh Jenkins. She was good fun and Stephen and I had to laugh when she said ‘that cat is older than me’ Hope you enjoyed your day Naimh.

It was a pleasure to judge best Burmese neuter – I awarded it to an old favourite of mine the very handsome **UK OBIGP MAINMAN RAJAH** who is of excellent type at 14 still looks like a youngster and likes his cuddle.

AC Gr Ch Burmese Adult Male

**IGCC Peters GR CH RAWEKE JEROBOAM (BUR b) 10/04/16 M**

Just an adult with some maturing to do. He has a solid well muscled body that stands on shapely legs with neat spoon shaped paws, and balancing length to his medium thick tail that tapers to a rounded tip. Slightly rounded top to his head, with good width between medium ears that are wide at the base with gently rounded tips and set with a slight forward tilt and follow the outer line of his face. His wedge is short, wide and narrows to a blunt muzzle, that just needs to fill out still. In profile he has fair depth to his head, a rounded brow and distinct nose break with a tiny bump and a firm level chin. His eyes are large lustrous and yellow chartreuse in colour and are well set with the top line slanting towards the nose and a fuller more rounded bottom lid, set wide apart giving typical Burmese expression. He wears a gorgeous short close lying warm chocolate coat that is fine and glossy. A sweet lad who was enjoying his day out

**IGCC Jefferys CH KATSPELL PERDITA XDREAM (BUR b) 20/12/11 F**

I have always liked this classy lady and today she really looked the business and demanded this award. She has an elegant medium length body of excellent weight and size and who stands on elegant limbs with neat oval paws with just balancing length to her well shaped tail. Her top of head shows slight rounding with very good width between her medium sized ears that have a broad base, rounded tips and are set with a slight forward tilt, their outer edges following the line of her wedge. In profile she has generous depth to her head that has a rounded brow, distinct break to her short straight nose, and a firm level chin. She has a short wide wedge that narrows to blunt muzzle with good width at the cheeks. Her large lustrous chartreuse eyes have the topline slanting towards the nose with a more rounded lowerline, they are set well apart giving her a lovely “don’t you dare touch me! look. She wears a fairly short sleek close fitting coat that shows a super healthy shine and is a rich

chocolate brown with some contrast to her points. Shown is tip[ top condition with a sweet purry nature

**RGICC Chases GR CH STARRYCHATS CURIOSITY (BUR n) 23/09/12 F**

Attractive brown lady with an elegant long well muscled body that stands on shapely slender legs which end in neat oval paws. Her tail is well shaped tapers to a rounded tip and balances her body. She has a gently top of head with good width between her large ears that are of the correct shape with a broad base and rounded tip and set with a slight forward tilt their outer edge following the line of her upper wedge. She has generous depth to her head with a rounded brow and a fair break to her short nose that just rolls off at the tip. Her wedge is short and wide and narrows to a good blunt muzzle. She has large lustrous yellow eyes are well set apart with the top line slanting towards her nose and a gently rounded bottom lid, giving her a lovely expression. Super texture to her warm seal brown coat that is short and close fitting with super sheen. A sweet girl with a lovely calm nature.

I do like this girl but she wasn't looking her best today. She has a weighty well muscled body that stands on elegant proportionate legs that end in dainty oval paws with just balancing length to her well shaped tail that has a small indiscretion at the rounded tip. She has a slightly flat top of head with very good width between her well shaped ears that are set on a broad base with rounded tips and a slight forward tilt and follow the outline of her face. Her wedge is short and wide and narrows to a pleasing blunt muzzle. In profile she has fair depth to her head with a rounded brow and distinct break to her short that just rounds off at the tip. Her eyes are large lustrous and a lovely chartreuse yellow, and are set with the top line slanting towards her nose and a fuller more rounded lower lid set well apart giving her a gorgeous sultry expression. She wears a warm seal brown coat that is short and fine and close lying. A sweet girl enjoying her day

Asian Self or Tortie (inc Bombay) Adult

**1 CC & BOB Alger Streets TYPHA OCTAVIEN (ASH n) 23/06/14 F**

Not a big girl but of lovely overall type with a firm well muscled body and shapely proportionate limbs that finish in neat oval paws with a well shaped tail that was just short to balance Her head is beautifully balanced with a gently rounded dome between well set small to medium sized ears that have a broad base with rounded tips, that have a slight forward tilt, their outer edges following the lines of short wide wedge. She has beautiful large lustrous pale yellow chartreuse eyes which have the top lid slanting towards her nose and a fuller more rounded lower line and set well apart giving the correct glowering expression. In profile she has very good depth to her head with a pleasing rounded brow and a distinct break to her short straight nose and level strong chin. She wears a medium fine close lying coat of a glossy patent black that just felt a little harsh today. She was a little shy and happier snuggled in her blanket in her pen

Korat Kitten

What a treat 4 Korat babies with little to choose between them.

**1 & BOB Amos ADJULFO CHANTHIRA-ANNA (KOR) 03/04/17 F**

Slightly older than the other kittens in this class and a chatty girl telling us quite a story!! She has a heavy strong semi-cobby body that has a typical slight curve to the back and stands on proportionate limbs that end in neat oval paws, with a nicely balanced medium length tail that is thicker at the base and tapers to a rounded tip. Her face is beautifully heart shaped with lovely large well set ears that are flared at the base with rounded tips, they sit quite high on her head giving a lovely alert look. Her head shows good breadth between her eyes with a large flat forehead that curves gently to a pleasing rounded muzzle. Her profile shows a slight stop with her nose curving slightly downwards to a strong chin. She has the most beautiful large well rounded eyes, still amber in colour as yet with green developing, She wears a super medium length coat that is fine and glossy and lays close the body and is a lovely mid blue with silver tipping developing. She did know a few bad words but was still relaxed and easy to handle.

**2 Treachers SALUAY SAENG LALI SAWAN (KOR) 26/05/17 F**

Just a tiny baby showing promise – she has a lovely firm baby body that even at her tender age has good muscle tone to her semi cobby body that curves gently over her back and stands on shapely legs that end in neat oval paws with balancing length to her nicely shaped tail. She has a sweet heart shaped head with large correctly shaped ears that have a flared base and rounded tips and are well set quite high giving her an alert look. She has good width between her large well rounded eyes with a flat forehead that curves down to a rounded muzzle that just lacks a little strength at this stage in her development. In profile her short nose curves slightly downwards and she has a very slight stop between her forehead and nose and a strong chin and jawline. She has a mid blue coat with the silvering developing nicely that is understandably kittenish in texture. A real little pocket kitten who has a sweet nature

**3 Beales SONTAYA ESMERELDA (KOR) 22/05/17 F**

What a baggage this girl was, she knew some very bad language and was a little difficult to handle. She is of good size and weight with a typical semi cobby body that that has a gentle curve over her back and that stands on elegant legs that end in neat oval paws with balancing length to her well shaped tail. Her face shows a pleasing heart shape with large ears that have a flared base and rounded tips their quite high set gives her an alert expression. Her large well rounded eyes are set well apart with a flat forehead that slants down to a rounded muzzle. In profile her short nose curves slightly downwards and she has a very slight stop. She wears a baby coat of a mid blue with some silvering. A promising kitten who I hope calms down and learns some purry words

**4 Treachers SALUAY MALAIKA (KOR) 26/05/17 F**

Sweet girl of promising type but looking very much a baby today compared to the others.

Nicely balanced lad who has an elegant lithe body of good weight and size, feeling firm and muscular and standing on slender shapely legs that finish small oval paws with balancing length to his well shaped tail. He has a slightly rounded top to his head with well set medium ears that have a broad base and rounded tips and are set with a slight forward tilt, their outer edge following the contour of his wedge. In profile he has generous depth to his head, with a nicely rounded brow and a distinct break to his straight nose. He has lovely large lustrous yellow green chartreuse eyes that have the topline slanting towards his nose and a fuller more rounded lower line, set well apart giving him a super expression. He is dressed in a lovely short fine close lying coat with a clear warm seal ticking on a warm beige ground. He has pencilling on his cheeks, mascara effect on his eyes, spectacles and an M on his forehead bars on all four limbs and rings on his tail with colouring up his hocks. Shown in lovely condition with a sweet nature

Rangy lad looking every inch a working boy. He is of good weight though a lovely firm muscular body and stands on strong proportionate legs that finish with neat oval paws with just balancing length to his well shaped tail. His top of head shows a gentle rounding with very good width between well set medium sized ears, that have a broad base with rounded tips and set with a slight forward tilt, their outer line following the line of upper face. In profile he has a good deep head with a pleasing rounding to his brow and a distinct break to his short straight nose. His wedge is short and wide and has a lovely blunt muzzle with good width at the jaw. He has large lustrous pale yellow chartreuse eyes which are set with the top line slanting towards his nose and a fuller more rounded lower line and set wide apart giving him a lovely scowl. His coat is a little long and felt a touch harsh today was quite open in the cold hall. He was a bit tense but handle well

I do like this pretty girl for her overall type and balance. She has a medium length firm well muscled body that stands tall on proportionate elegant legs that finish in neat oval paws, her tail is nicely shaped but a little short to balance. She has a slightly rounded top to her head with very good width between her well set ears that sit on a broad base with rounded tips and a slight forward tilt, their outer edge following the contour of her wedge. Her profile shows a rounded brow and distinct break to her short straight nose, firm level chin. She has a super short wide wedge that narrows to a blunt muzzle with very good width at the jaw hinge. Her large lustrous pale chartreuse eyes have that wonderful Burmese expression with the top line slanting towards her nose and a fuller more rounded lower line, set wide apart giving her a super cross Burmese look. She wears a short fine silky coat of a mid blue mingled with cream. Shown in super condition her sweet purr belying her expression.

Looking a little immature for her 2 years this pretty girl is of lovely type with a lithe well muscled elegant body of very good weight standing on elegant limbs that end in neat oval paws, her tail is of medium thickness and tapers to a rounded tip and balances. Her head shows a nicely rounded top of head with good width between her ears that are of the correct shape having a wide base with rounded tips and set with a slight forward tilt their outer line following the line of her short wide wedge that ends in a nice a blunt muzzle with good width at jaw hinge. Her profile shows a slightly rounded brow with a distinct break to her short straight nose firm level chin and good depth to head. Pleasing shape to her large yellow expressive eyes that are well set and a pleasing shape with the top line slanting towards her nose and a fuller more rounded bottom line and set well giving her a lovely Burmese look. Her coat is short, and close lying and is a pretty mingling of blue and cream A lovely girl who purred and chirruped none stop and was unlucky to meet my winner today

Only just an adult but looking mature for her age. She has a heavy well muscled body with slender legs and neat oval paws and balancing length to her nicely shaped tail. She has good width between her well shaped and set ears that have a broad base and rounded tips and that follow the contour of her wedge which is fairly broad but a fraction long for me. In profile she has fair depth to her head with a rounded brow and a well defined break to her slightly long nose. Her eyes are large and lustrous and rich yellow in colour that she was tending to round in excitement. She wears a short close lying pale seal brown coat that is silky with a lovely gloss. A relaxed girl enjoying our cuddle

**2 Pearmans JOMARC MISS TIZZY WIZZY (BUR f) 28/10/16**

I really liked this little sweetheart but she was so scared so most of my observations are done from outside the pen. Not a big girl with slender shapely legs and neat oval paws and nicely shaped tail. She has a lovely head with good width between well shaped and set ears. Her profile shows generous depth to her head with a nicely round brow and distinct break to her short straight nose. She has a short broad wedge with good width at the cheeks. She was holding her eyes rather round today but they are a lovely yellow chartreuse colour. Her coat is a little long and she was another where it appeared open in the cold of the hall but is a really attractive mingling of a warm seal brown and tangerine. I understand this was her first show so her reluctance to be handled was understandable and I did get a nice cuddle with her after judging when her Dad was there. I hope she gains her confidence soon

What a little cross patch – she grumbled away the whole time we had her out but it was all talk! She has a firm weighty body and standing on elegant well shaped slender legs with neat oval paws with balancing length to her well shaped medium thick tail. Her head shows a slight rounding to the top with good width between her well set medium sized ears that are nicely shaped with slightly rounded tips, broad base and set with a slight forward tilt, the outer line following the contour of her wedge which is short and wide and ends in a pleasing blunt muzzle. Her profile shows generous depth to her head and a gently rounded brow, distinct nose break, short nose that just slopes away a little. She has large expressive deep yellow chartreuse eyes that are well set with the top line slanting towards the nose and a fuller more rounded bottom line, they are set well apart giving her a lovely simmering expression. She wears a gorgeous short close fitting coat that is a warm pale tangerine. In lovely condition with an awful lot to say for herself.
