IGPC Mant's IGRCH & GRPR KAMIK THE-RED-PIMPERNEL (OSH d) MN 9.6.17

Such a handsome lad, looking good today Stylish Oriental Red of overall balanced type and style. I've written about him many times before and not a lot to add. Strong even head, huge open based ears following the lines of the wedge. Slanted pale green oriental eyes. Bright red short close lying coat, tall legs and long tail to balance. He has a perfect temperament just purring all the time. Super presentation new white blanket looked lovely. Very well done on BEST IN SHOW

Res IGPC Powell's GRPR TINTALLY CELESTINUS (SIA m) MN 5.12.16

Big masculine Caramel boy. With good overall type. Long everywhere, wedge, large well flared ears, deep blue oval eyes, dip in profile, level bite, chin ebbs, elegant neck, extra-long muscular body, tall legs and large paws, long tapering tail. Blue toned Caramel points colour shaded soft coat, there still was contrast evident. Rather wriggly today, gentle nature, shown and presented well.

Pepperell's GRPR JOMESE JONNI-LOTSASPOTS (OSH a 11) MN 11.5.16

Blue Oriental Shaded, well grown chap, short wedge with small pinch, would prefer ears a tad bigger and a bit more width between. Bright green expressive oriental eyes, level bite, almost straight profile, elegant neck, well-nourished body, sturdy legs and paws, tapering ½ ringed tail. Dark blue shot coat not great shading in places. Shown and prepared well.

TPS&PBCC Siamese Or Balinese Champion Male

1 (GCC n/a) Keen's CH THORNBUSH MING (SIA n) M 3.5.14

A very nervous Seal Point chap, who lacked type. Medium wedge with pinch looking rather square in the muzzle, ears were a good size fairly well set, oval light blue eyes requiring more depth of colour. Bump on nose, few teeth missing, chin ok, short neck, compact body, fine legs and oval paws, tail requires an inch to balance. Dark Seal brown points colour shaded slightly long coat, I was sorry to withhold the certificate.
