

RED, CREAM OR TORTIE SOCIETY  
30<sup>TH</sup> NOVEMBER 2019  
MRS SANDRA MOORE

Two super combined breed shows, with the Chinchilla, Silver Tabby & Smoke Cat Society. My thanks to Show Managers Stuart & Barbara McEwen for the most welcomed invitation it was a real treat for me to judge at this friendly and well supported event. A good entry of quality cats both Persian and Exotic, now being joined by the British Section, who did not disappoint also a good entry, of lovely exhibits. I am so grateful to have Val Anderson Drew as my companion for the day, Val came up from Southampton for her day with the Fluffies, always good company I hope you enjoyed your day as much as I did Val, a smashing steward she handles the cats with great care and kindness, and chivied me along so we got finished in good time, we had a pleasant and very interesting day together.

BLACK PERSIAN ADULT class 314

CC & BOB TO – ROBERTS ALASKAN CLEOPATRA (PER n) F (14.07.2018) Dear little Black female of sixteen months head and body both very feminine with a sweet nature. Deep orange eyes they are truly wonderful and just brim full of colour and expression, good breadth across the top of her head with a well rounded smooth forehead, fairly small round tipped ears complete with an abundance of interior furnishings, short broad nose with a small but perfectly shaped shiny black leather, cheeks plumping up nicely as she matures, good chin and muzzle bite looks ok. Cobby compact frame with a full short proportionate tail. Long soft coat with a full frill which covers her shoulders, framing the head beautifully, falling between her front legs to form a bib, there is a hint of grey fur hiding here and there but generally it is true intense black, shining with health and good condition, I understand this certificate today makes her up to Champion, so many congratulations to the owner/breeder.

MISC CLASSES

AC SELF ADULT class 472

1<sup>ST</sup> ROBERTS ALASKAN CLEOPATRA (PER n) see above.

AC ADULT MALE NOT BRED BY EXHIBITOR class 476

1<sup>ST</sup> FISHER'S CH ALMERIANS FURRARI (IMP) (EXO d 22) m (25.06.2018) Red Classic Tabby Exotic boy almost eighteen months old, he has grown into a very solid, chunky heavyweight, he stands square on short very thick legs and large rounded paws. Super wide and very rounded bold head with neat ears set well to the sides fitting into the contours perfectly, lovely round bright orange eyes, rich red tabby pattern to his thick short and dense coat, very nice to handle.

2<sup>ND</sup> LOVESY'S TYTHERTON BERTIE BASSETT (PER n 03) M (30.01.2019) Black & White Bi-Colour boy really well developed for 10 months and very striking, with a pleasing white facial blaze and lovely bold orange eyes, his full coat covers his solid well fed body ending with a very full and bushy tail, smashing temperament.

AC RADIUS ADULT class 488

1<sup>st</sup> FAIRBANKS IGR CH JEMINEVE SPARK OF MAGIC (PER f 03) F (17.05.2017) Tortie & White girl of two and a half, very attractive with pretty facial features, good balance between her broad head and well shaped body, with firm legs and well furred paws, nice type with neat ears and short broad nose, well filled cheeks and a firm muzzle and chin, bite good. Lovely full coat well patched with black and red with sparkling white, she looked lovely and so easy going a pleasure to handle.

AC KITTEN 14 WKS – 6 MTHS class 490

1<sup>st</sup> MOLLOY'S PORSHALENA SHEER ELEGANCE (PER a 03) F (13.07.2019) Blue & High White Van kitten of just four and a half months, well grown body of good substance and quite cobby in shape, well built for her age, beautifully presented, almost all white coat with a light blue patch sound to the roots, over her right ear and a completely blue tail, head beginning to broaden out with very neat ears, lovely burnt orange eyes full and round in shape, short broad nose with a pink leather, sweet natured and beautifully turned out for the show.

2<sup>nd</sup> FISHER'S OWLETT'S HONEYSUCKLE (EXO e 22) F (03.08.2019) Darling little Cream Classic Tabby Exotic girl just on four months, light boned and dainty at present, very nice type and pleasing wide set ears, with the most enormous big bold eyes that follow your every move, neat and cobby in the body with a dinky tail, overall a very good pattern to her coat which is fairly short and dense with a springy texture, handled well.

3<sup>rd</sup> PAYNE'S ROSEBRIDGE TOMMYCOOPER (PER n 23) M (17.08.2019) Brown Mackerel Tabby boy the youngest in the class at three and a half months but very well structured already, tabby pattern still to come through on his long coat, lovely condition and temperament.

AC KITTEN 6 – 9 MTHS class 491

1<sup>st</sup> LAVIS'S OWLETT'S CELTIC CREAM (EXO e 22) M (13.03.2019) Cream Classic Tabby Lovely strong eight and a half month old kitten, large muscular frame that is weighty with a broad cobby body, strong short legs and large round paws. Very thick tail, proportionate to his overall physique. Round head of good breadth which balances well to his body, with neat round tipped ears, full cheeks and rounded forehead, bold appearance to his deep orange eyes which are very full, his nose is short and broad bite and chin both good. Coat is short dense and plush standing away from his body, pale cream ground with richer classic cream markings, a sweet boy well shown.

AC KITTEN FEMALE BRED BY EXHIBITOR class 495

1<sup>st</sup> FISHER/WYLIE'S TRANSCEND FABERGE (EXO g 03) F (14.07.2019) Tortie & White Exotic girl of four and a half months, and already looking very promising, lovely type head with neat round tipped ears sitting well apart, her large wide awake eyes settling down to a good deep orange in colour, very short broad nose of even width with stop to the profile, super well patched face and body with very nice tidy demarcation of the colours against

sparkling white, medium sized body with a dinky short thick tail, coat beginning thicken up and well groomed, smashing kitty.

2<sup>nd</sup> FISHER'S OWLETT'S HONEYSUCKLE (EXO e 22) see above.

AC DEBUTANTE KITTEN FEMALE class 499

1<sup>st</sup> GOLDSMITH'S MIGANG DOLLY MIXTURE (EXO g 03 22) F (02.04.2019) Blue Tortie Tabby & White almost eight months with a balanced head small neat side set ears and very nice eyes of clear orange, short broad nose and in profile there is a rounded forehead, good chin and bite. Well grown of good bone and bodyweight, firm legs and medium length tail. Coat plush with good blue cream and tabby patching with snowy white, so friendly a peach to judge.

AC NOVICE KITTEN FEMALE class 503

1<sup>ST</sup> GOLDSMITH'S MIGANG DOLLY MIXTURE (EXO g 03 22) see above.

AC VISITORS KITTEN class 507

1<sup>st</sup> LAVIS'S OWLETT'S CELTIC CREAM (EXO e 22) see above.

2<sup>nd</sup> MOLLOY'S PORSHALENA SHEER ELEGANCE (PER a 03) see above.

3<sup>rd</sup> PAYNE'S ROSEBRIDGE TOMMYCOOPER (PER n 23) see above.

My apologies as this part of my report (British section 3) was omitted from my original report.

NEWPORT'S CH CARASSACAT ESME (BSH g) F (21.04.2018) Blue Tortie female of eighteen months and looking much more mature than her age would suggest, well built for a girl with plenty of good condition. Pleasing type with a well rounded forehead wide set ears round tipped and very neat so fitting in nicely to the contours, short straight and broad nose with a blue leather, round eyes well opened a deep shade of orange, whisker pads and cheeks all filling out as she matures to give ideal rounding to the muzzle, firm chin bite perfect. Feminine and nicely rounded body shape, she is deceptively heavy and well muscled up, with breadth across her shoulders, sturdy legs, nicely shaped paws, tail very much in proportion with body and has a rounded tip. Lovely, short coat on this girl not only does it have a crisp texture but is thick and dense with super intermingling of cream on a medium blue, throughout her body and tail her face has some patches of cream with a small amount of blue in the patches breaking up the colour very nicely, most appealing girl I would be more than happy to award a Grand to.

BRITISH BLUE CREAM, LILAC OR FAWN TORTIE KITTEN class 424

1<sup>st</sup> & BOB TO 64 – MISKOVIC/KINMAN'S CHUPAVI DYNASTY OF DIDA DEWA (BSH r) F (17.07.2019) Fawn Tortie what a lovely little girl four and a half months old and already her coat is showing a wonderful example of both colours intermingled evenly throughout her body. Her head has just the right balance and type, round and apple shaped with very nice eye colour coming through they look to be a promising deep orange when fully settled, ears are reasonably neat and set quite wide, short straight nose the profile shows a gentle break

with nose tip leading down in line to her chin, although cheeks still to fully fill out her muzzle is quite strong and chin has depth bite level. Neat compact body her frame is short and square with balanced limbs and a matching tail for length. Her coat as mentioned is a wonderful mix of warm toned fawn complimenting the cream to give maximum appeal, both colours mingling throughout the coat on her face tail and at least three legs, although I think I could see a tiny bit of cream on the remaining foot, coat is typically kitten soft short and dense and very well presented, lovely natured kitty a pleasure to handle.

2<sup>ND</sup> TO 62 - MISKOVIC/KINMAN'S CHUPAVI DAWN OF ELIZABETH (BSH g) F (17.07.2019) Blue Tortie girl and I believe litter sister to above winner and they are very similar, with a good british look about both, neat round face with cheeks developing width, round tipped ears not overly big and set quite wide on her fairly broad head, nice gentle profile showing a rounded brow with a slight break to her short straight nose and chin in line, very nice eye shape developing a good orange colour although they could be larger for perfection, bite level and muzzle is firm but could do with a bit more width for perfect balance. Petite cobby body with nicely boned legs, tail mirrors the body in length. Very good short dense coat although rather soft it a lovely medium blue which sets off the pale cream giving very good distribution of both colours in a mingled fashion over the body including her tail, her face is rather blue with cream to both sides and on her ears with one large patch of cream on her back which is broken up with blue, again lovely temperament well shown.

3<sup>rd</sup> TO 65 - ACTON'S IDLEBECK ENYA (BSH g) F (18.03.2019) Blue Tortie girl of eight and a half months she has bodied up nicely and is a good size and weight. Broad and fairly rounded head her ears are set wide apart but very open and looking a tad obvious, round well opened eyes a very nice depth of orange, long and straight broad nose, showing a slight whisker pinch at present which makes her muzzle look square, good strength and depth to her chin with a scissor bite. A big kitten she is very well grown of good substance, body just gone a touch long with matching tail for length, fairly thick with a rounded tip, she stands a little high on thickly boned legs with ample sized paws. Well presented coat of good density and quite crisp, of medium blue and cream which is well intermingled on her back and tail, both colours are mingled on her face with a solid cream patch on the side of her chin, the legs and feet all show tipping and look solid blue, again nice natured.

4<sup>th</sup> TO 63 - ELLIOT-JENKINS BIGGLESWORTH FANCY NANCY (BSH g) F (19.07.2019) Blue Tortie sweet kitten of just over four months, with a gentle nature. Round apple head ears are set well apart but rather bonneted, with a very heavy brow line eyes are a good shape and nice orange colour but small and deep set, in profile she has quite a curve to her nose, plump cheeks give her face a full and rounded appearance with a deep chin and level bite. Cobby and chunky body of good weight with a short thick tail rounded at the tip, sturdy little legs and rounded paws. Soft kitten coat quite thick in texture with density developing, predominantly a darker blue with intermingling of cream over some of the head body and tail, there is a cream patch on her tummy chin and throat with cream to two limbs, some silvered tipping to paws, well presented.

MISCELLANEOUS CLASSES

AC ADULT MALE class 528

1<sup>st</sup> TO 49 - WHITELEY'S ADMIRARI ROCCO (BSH e 03) M (13.05.2015) Cream & White handsome male four and a half years of age and no doubting he is fully mature, I like his Solid and robust body he has the type size and substance so good to see in a male with an easy going nature too. Very bold, wide head his ears are a nice rounded shape and sit well apart, facially his head is very round and full with apple cheeks and full jowls, sleepy eyes a nice shade of orange, short very broad nose with a pink leather, chin and bite both good. This boy is a real heavyweight his body is well rounded with width to his chest at his shoulders and rump, sturdy legs are needed to hold this chap up and, he has them, with ample paws, thick tail in balance with his body. Clearly patched coat of a sound cream on white, about 45% white to colour a nice white blaze to his face with a cream spot to one side of his nose, white collar and patches to his back with white to his under parts, very nice overall and so well balanced his coat is short, thick and crisp, a pleasure to judge.

AC ADULT MALE NOT BRED BY EXHIBITOR class 534

1<sup>st</sup> TO 51 - PROCTOR'S GR CH CRYSTAL FLAME'S JOKER POKER (BSH e 02 62) M (10.04.2018) Cream & High White (harlequin) I handled this boy in March and said he was very innocent and youthful looking, now nineteen months old and another seven months down the line not a lot has changed, still looking adolescent both in head and body and again almost kitten like he just does not want to grow up!! Broad round head with neat round tipped ears set well apart, super eyes large and very round, and a lovely deep orange, nose is straight short and broad, cheeks are well filled and his muzzle and chin both show strength and depth with a level bite. Medium sized body with proportionate legs, tail is quite thick with a rounded tip. Coat still has a more softer texture than is desirable, but it has become more dense and beginning to thicken up, mostly pristine white and sound pale cream, with good demarcation to the patches, and a nicely patched face, cream tail with a patch on legs and on the body, very sweet natured boy, well presented.

AC NOVICE ADULT class 538

1<sup>ST</sup> TO 50 - MISKOVIC/TINMAN'S BERBERIS LAKKI CATS (BSH a 03) M (20.09.2018) Blue & White boy solid and powerfully built for just fourteen months and a bit restless and fidgety. Head is a good shape and quite round ears sit wide apart, short and very broad nose with a pink leather, orange eyes round and well opened, facially quite mature looking with good strength to his muzzle, but still to fully broad across the cheeks, and a little squarish on the jawline, a firm chin and level bite. Substantial body if a tad rangy as it did look a little long, he is well built with a short thick neck and strength across his shoulders, legs well boned with fleshy paws, good length round tipped tail. Medium blue patching, with about 40% sparkling white he has an even white blaze to his face with blue patching over his head ears and body with a fully coloured tail, white to a full collar, legs chest and tummy, shown in good condition.

AC SPECIAL LIMIT ADULT class 540

1<sup>st</sup> TO 46 - DALTON-HOBBS CH LORASTON REDDY TEDDY (BSH d) M (08.08.2018) Red boy this youngster is just fifteen months old, well muscled with good overall boning particularly to his limbs. Head body and tail are all in balance. Stylish boy, with true British type. His head is broad round and apple shaped with reasonably full cheeks, small neat ears set well apart fitting into the head contours nicely, large wide awake deep orange eyes, in profile his forehead is gently rounded with a short straight nose, with a deep chin and level bite. Strong compact shaped body with good breadth across his chest and beginning to acquire some width to his rump, he stands on short sturdy legs with large rounded paws, a short thick neck connects the head to body, with a medium length wide, round tipped tail. Really lovely vibrant coat the colour is a really eye catching rich red that makes him stand out, short dense and fairly crisp, with some tabby showing through but not excessive, friendly boy.

2<sup>ND</sup> TO 48 - DALTON-HOBBS STONEMARR STEVIE NICKS (BSH g 03) F (01.09.2018) Blue Tortie & White of fourteen months, there is a lot to like about this youngster not least of all her super coat for colours pattern and quality. Head has width and depth, ears could just do with being a little wider set and dropping a bit more to the sides for perfection, lovely round orange eyes bringing a soft expression to her face, short broad nose with a sweet patched leather, cheeks are beginning to fill out, looking a tad square in the muzzle at present but chin is firm and strong with a wide and tidy bite. Solid and chunky girl standing on short thickly boned legs with fleshy paws, medium length tail matches the body and is quite thick with a rounded tip. Now for the best bit, her coat is just wonderful the patching leaves nothing wanting, with sparkling white to her facial blaze white to chest legs and saddle, the light sound blue and cream is patched on her tail over her back with cream patches to her legs, blue and cream to her face with a cream spot just below her nose and a cream chin, delightful and so so cute.

AC KITTEN FEMALE BRED BY EXHIBITOR class 553

What a super class so many beautiful kittens, all deserving of a high place, what a headache.

1<sup>ST</sup> TO 60 - BRADLEY'S SHEEPHOUSE ESME (BSH h) F (19.03.2019) Attractive Chocolate Tortie girl of eight and a half months well developed in both head and body and presented in super condition. Round head with developing cheeks and muzzle, her ears are well shaped and rounded at the tips sitting well apart, full bright wide awake orange eyes with a surprised expression, short broad nose with a chocolate leather, deep full chin that lines up in profile and nice tidy bite. Compact and solid body with good boning to her limbs, thick tail balances to the body. Her coat is a really good mix of chocolate intermingled with rich red, soft and springy to the touch short with a little crispness to the texture coming through, both colours show up well on her face ears head body and tail, all four legs look to be broken and randomly mingled with the colours, very nice kitten.

2<sup>nd</sup> TO 68 - WHITELEY'S ADMIRARI VANESSA PELZ (BSH e 01 62) F (02.05.2019) Very attractive Cream & White Van kitten almost seven months, showing a wonderful expression of the Van pattern, well grown and of ample size and weight. Very good head well rounded with wide set ears medium in size settling into the contours nicely, straight nose looking quite short with a dear pink leather, expressive eyes round and full showing a good depth of orange, plump whisker pads and full cheeks with good rounding to her muzzle,

chin just about in line, bite level. Medium sized body of good substance, she stands on short thick legs with shapely paws. The coat is mainly chalk white with pale sound cream, she has a solid cream tail with one cream 'thumb print' just above the tail on lower back with cream on her face this consists of two clearly defined cream patches above her eyes and just encroaching on to her left ear a little way, divided by white, the rest of this pretty girl is all snowy white, groomed to perfection.

Ex 2<sup>ND</sup> TO 55 - MISKOVIC/TINMAN'S CHUPAVI DYNASTY OF DIDDA DEWA (BSH f) see above.

3<sup>rd</sup> TO 55 - DALTON-HOBBS LORASTON LULU-LOUBOUTIN (BSH c) F (28.06.2019) Lilac kitty I judged just recently, she still has that appealing and very sweet face, nice well formed head with neat ears in a good wide setting, lovely eyes round and full the colour is now a deeper orange, short broad nose with a lilac leather, firm chin level bite, muzzle could be broader with more cheek development to come. Cobby yet dainty and feminine body of good weight with nicely proportioned legs and paws, tail is short and thick with a rounded tip. Pale pinky/lilac coat is short quite dense with some resilience to the touch, as yet still baby soft in texture, so nice to handle.

Ex 3<sup>RD</sup> TO 66 - NEWMAN'S MOORMIST MELANGE (BSH f 03) F (03.05.2019) Bonny Tortie & White female just going on for seven months and although lower in the placings it does not really illustrate how nice she is in her own right. Very good head well rounded with wide set neatly placed ears, full very round eyes still changing colour, set well apart, straight nose looking quite short and broad, chin and muzzle round off nicely, her cheeks just require a little more time to widen out, bite level. Good weight to her firm if a little longish body, short strong legs with well rounded paws, medium thickness and length to her tail which is rounded at the tip. Overall a very well patched coat shiny black and rich red well patched with a little less white to the head and body, tail fully patched with the colours, generally it is short and dense with a hint of crispness, gentle natured girl.

4<sup>th</sup> ACTON'S TO 65 - IDLEBECK ENYA (BSH g) see above.

AC MAIDEN KITTEN MALE class 558

1<sup>st</sup> TO 57 - DAMBERGA'S CHUPAVI DADDY SANG BASS (BSH p) M (17.07.2019) Fawn baby Of four and a half months, interestingly I have had his two litter sisters in my open class above, he has that same good overall type he is a little bigger with just a slightly stronger body structure. Nicely rounded head ears quite neat just a tad open but are set well apart with good rounding to the tips, in profile there is a gentle break to his nose which is broad and straight leading to a pinkish/fawn leather, nice eye shape full and round the colour clearing to look a pleasing orange, he has good width across his muzzle, cheeks developing some fullness, chin and bite good. He stands square and is well proportioned with strength to his well boned legs complete with rounded paws, tail is fairly thick with a rounded tip. His coat is short and has some density although still kitten soft the colour is pale and sound to the roots and just needs to warm up to more of a rosy mushroom 'glow' very promising kitten.

Report end – Sandra Moore.
