

## WESSEX CAT CLUB

### CHAMPIONSHIP SHOW 2015

I really enjoyed the show today, a lovely atmosphere and super show team. Once again I had the pleasure of the company of Ann Stubbs, such fun to have around and now that she is getting to grips with the 8 legged Orientals is a force to be reckoned with. The only down side of the day was attempting to negotiate the Magic Roundabout!!!

#### IMPERIAL – A.C. GC ORIENTAL ADULT MALE

**1<sup>st</sup>. IMPERIAL GCC BROWN'S GR CH HEMLOCK SPOTTY MULDOON (OSH n 24)** A stunningly beautiful boy that I have admired forever. Masculine even wedge and large, beautifully flared ears. Oriental green eyes, straight profile, level bite and firm, deep chin. Elegant neck and long muscular body of good weight. Long slender legs and oval paws. Short, close fitting coat of excellent texture and exquisite dense black spotting, well defined facial tracings, all topped off with a fabulous gentle temperament.

**Res IMPERIAL RUDGE'S GR. CH. SANDIMESE DIAMOND GEEZA (SIA w 67)** Medium wedge and well set ears, slightly small for perfection. Oriental deep blue eyes, profile almost straight, a little fine at muzzle, even bite and firm chin. Good length to body and limbs, oval paws. Coat is a fraction long, well prepared and sparkling white. Tail balances . A little shy but handled well.

#### FEMALE

**1<sup>st</sup>. IMPERIAL SINGLE'S GR CH. SINOPE SAKARAT (OSH n 37)** Feminine lady with a balanced wedge and large, well set ears. Oriental eyes of pale green colour. Profile almost straight, level bite and firm deep chin. Good length to body which is firm and well muscled, balanced tail. Short, close coat, sound to the roots with lovely glossy surface.

#### GRAND CHAMPION - A.C. BRITISH CHAMPION ADULT MALE

**1<sup>st</sup>. GCC withheld HOLLOWAY'S CH. TROFAI CHOCO VELVET** Sorry to withhold on this boy, but he presently has too many faults to award the Grand. Round head and small ears, wide at base. Round pale blue eyes, cheeks are starting to develop, straight nose and level bite, very weak chin. Cobby body and short legs, round paws. Coat is a fraction long, patches of very dark chocolate colour throughout body, points do not match, being almost seal brown on mask with warmer chocolate on legs, and a ringed, almost ginger colour on tail. Needs to sort his colour out, hopefully it will improve with his next moult.

#### GRAND PREMIER – A.C. ORIENTAL PREMIER NEUTER MALE

**1<sup>st</sup>. GPC BROWN'S PR. HEMLOCK ONLY THE BRAVE (OSH b 24)** Yet another super boy from this stable. Strong even wedge and large flared ears, set wide apart. Deep green eye colour in Oriental setting. Long elegant neck and long, heavy muscular body. Short, close lying fine coat with warm chocolate pattern, beautifully spotted, clearly defined facial tracings with numerous tiny spots, well broken spine line. Long tapered tail. He has a delightful laid back temperament too.

#### BRITISH TIPPED ADULT FEMALE

**1st. CC BOB BARHAM'S SUDINKIMI SNOWDROP CHANEL** Small round head and neat, well set ears. Large round eyes, 2 tone in colour, well developed cheeks, short straight nose, level bite and firm chin. Small, cobby body and short legs. Coat of good texture though it is very long, heavy even tipping, balanced tail.

### **BRITISH A.C. COLOURPOINTED KITTEN MALE**

**1<sup>st</sup>. O'DONNELL'S TROFAI BIG DADDY (BRI n 33)** Almost adult with large round head and neat ears, pointed at tips. Round eyes, blue at centres with white outer rim. Well developed cheeks, short nose and level bite. Cobby heavy body and good bone, balanced tail. Matching dense seal points, though body colour is very shady and patchy.

**2<sup>nd</sup>. FEDDERY'S ADIFTSH BERTIE (BRI a 33)** A dear little chap with round head and neat ears. Round eyes yet to develop blue tones. Cheeks developing, short, straight nose, level bite and firm chin. Cobby body and good length tail, short coat, clear ivory body and matching points, rather pale in colour for a blue point.

### **FEMALE**

**1<sup>st</sup>. BOB O'DONNELL'S ADVASECATS TRUSKA LASS (BRI b)** Round head and neat ears. Round eyes, unable to detect blue colour, presently very pale. Cheeks developing well, short straight nose, unable to examine her bite today as she was becoming rather upset at being handled, firm chin. Cobby body, short dense coat, matching points. Hopefully her temper today was just a one-off.

### **BRITISH AC COLOURPOINTED NEUTER**

**1<sup>st</sup>. PC BOB STANLEY'S TANGLEKEYS MADEMOISELLE (BRI 33j)** Large chunky girl who is nicely mature. Round head and tiny ears set wide apart. Round eyes of pale blue, full cheeks, short nose and even bite, firm chin. Heavy cobby body and short sturdy limbs, round paws. Short dense coat, currently very little contrast to points, as pattern almost completely covers her body, the points do match. Short tail.

### **ORIENTAL LILAC KITTEN MALE**

**1<sup>st</sup> withheld 2<sup>nd</sup>. MILLER'S SAMBOUZOUKI NIGHTHAWK** A well grown boy who was very excited to be out and about today. Even wedge and large ears, set well apart. Eyes slightly full (could have been the excitement) deep green in colour, and in an Oriental setting. Profile is almost straight, scissor bite, deep chin. Good length to body, firm and muscular, long slender limbs and oval paws. Coat is rather dark in colour, short and close lying, fairly sound to the roots. Long tapered tail. Alas he has a tiny terminal defect at tip of his tail.

**Judge**

**Mrs Linda Walpole**
