

Mrs S Heavens – Wessex Cat Club Show – 4th July 2015

My thanks to Elaine & Jackie for the invitation. It is the first time I have been to this joint show, there were some lovely personnel touch like the Judges spot prizes, Kit enjoyed devouring the maltesers I won before the weekend had ended. I had a great day with some lovely cats who despite the heat were in good spirits. Thank you to Bethan Hollandt who stewarded for me, she handled all the cats with ease and is great company which made for a very pleasant day.

A.C. BRITISH GRCH ADULT FEMALE

1. I.G.C.C. WARNES'S GRCH REVODNA TOTAL ECLIPSE (BRI a) F 22/10/13

Tortoiseshell. A very sweet natured girl with no sign of tortie attitude. Well rounded head with smooth skull between well set medium sized ears, large round well opened orange eyes, short broad nose, rounded cheeks and muzzle, level bite and good chin. Compact shaped chunky frame with short strong legs and firm round paws. Short dense coat she is starting to moult, mingled with shades of rich reds, all paws show both colours, short full tail with rounded tip.

BRITISH BLACK, CHOC OR CINNAMON TORTIE ADULT

B.O.B TO WARNES'S GRCH REVODNA TOTAL ECLIPSE (BRI a) F 22/10/13

BRITISH CINNAMON/FAWN KITTEN

1. B.O.B. JOYCE & GARDNER'S JENTHIA WALTZING MALTIDA (BRI p) F 07/03/15

Fawn. A cute little squeaker who is not too sure what to make of this showing business. Head rounding with narrow top between medium sized ears, round eyes that are a little closely set and I would have liked them to be larger in size. Small rounded cheeks, her muzzle is narrow and chin rather pointed, level bite. Fair boning to compact shaped frame, short soft coat still with a woolly baby texture, the hall lighting made it seem very cold with only a warm rosy mushroom visible to the paws and tail, her body looked more light lilac, balanced length tail with rounded tip.

BRITISH BLUE KITTEN

1. & B.O.B W/H

2. O'SHEA'S CATELORO SLEEPING BEAUTY (BRI a) F 25/12/14

This is girl is just so cute very typy and my take home kitten for the day, well rounded head with wide smooth skull between well set neat ears, expressive round eyes with a good orange colour developing, very short nose with a quite distinct break, rounded chubby cheeks and muzzle, she has a very strong prominent chin and this unfortunately is because she has an undershot bite, and this was the reason I had to withhold the first place. Compact shaped frame with sturdy boning, short dense mid blue coat with some silver tipping in places, balanced length tail with rounded tip.

Mrs S Heavens – Wessex Cat Club Show – 4th July 2015

DEVON REX KITTEN

1. B.O.B. HOBSON-KELLY'S NOBILERO ARANDONN BHREAC (DRX fs) F 13/11/14

Tortie Smoke. A nice sized girl. Short fairly broad wedge with high cheek bones, large eyes that have an oval shape and slope to outer edge, but when she was having a look around they tended towards a round shape. Curving brow with flat skull, large ears that are wide to base but have a high set and tufts to tips. Short nose with slight stop, fair definition to whisker break with chewed whiskers, level bite, chin slopes slightly. Lovely sized body with firm muscle tone, elegant neck, slim legs with small oval paws. Short soft fine coat covers all of the body with some slight crimps, long tapering tail covered with short fur.

CORNISH REX NEUTER

1. P.C. B.O.B. ARNOLD'S PAPAVER LOKI (CRX b 21 33) MN 25/08/14

Chocolate Tabby Colourpointed. An incredible shy boy it was difficult to get him to show himself. Medium wedge with high cheek bones, the length is possible just a fraction less than one-third of the maximum width, narrowing to a rounded muzzle, level bite and firm chin. Large ears with width to base and high set, his eyes did have an oval shape, they became slightly round when he was out of his pen and a little unsure, curve to brow and definite straight line to tip of his nose. Good size to body with hard muscular tone, elegant neck and long straight legs. Lovely coat dense and silken in texture covered with stylish well defined ripples. Long fine tapering tail covered with short wavy fur.

2. ARNOLD'S PAPAVER HECTOR (CRX N24) MN 25/08/14

Brown Spotted. Litter brother to my winner, he is also on the shy side but not quite as bad as his brother. Medium wedge with high cheek bones the length just about one-third of the maximum width, narrowing to rounded muzzle, level bite and firm chin. Large ears with width to base, he has a tendency to splay them so the rather high set was not clear. Medium sized oval shaped eyes, flat skull and gently curving brow with straight line to tip of nose. Good size to hard muscular body with long straight legs and small oval paws. He too has lovely stylish well defined ripples to his coat, it is just not as dense and silken in texture as his brother's, it was this and his ear set that meant he got pipped to the post on the 1st place. Long fine tapering tail covered with wavy fur.

DEVON REX NEUTER

B.O.B. TO KEATES'S GRCH & GRPR REXELLECE FENELLA (DRX w 63)

A stylish girl with lovely natured girl, she has a super coat but had obviously been out playing as she had rather grubby paws.
