

SCOTTISH REX CAT CLUB SHOW 1<sup>ST</sup> AUGUST 2015  
JUDGE – HELEN MARRIOTT-POWER

A most enjoyable weekend with great company and some lovely cats. A very good standard of rex coats and well presented cats with nicely clipped toe nails. Many thanks to Kate for the invitation to judge and to the Scottish Rex Cat Club for their hospitality. Also many thanks to Ian Thompson for stewarding for me, excellent in looking after both the cats and myself as always, I look forward to the next time.

### **DEVON REX CHAMPION**

1 GCC PUCKRIN'S CH ADZWOSH KAMARA DRX ns F 19.10.12

Black Smoke Devon Rex lady of two and a half years of age. Head has short, fairly broad wedge with high cheek bones, strong muzzle, level bite and good depth, level chin. To be really picky I would just prefer a touch more breadth to the top of head. Brow curves back to flat skull, fairly good stop and short, straight nose slants slightly towards tip, well defined whisker break. Ears are set low and wide apart, well covered in fur, large and wide at base, tapering to rounded tips, short ear muffs around base. Large oval shaped, green eyes, set wide apart and sloping towards outer edges of ears. Elegant, well balanced lady of medium body with good muscle tone, medium in length and with good breadth chest. Slender neck, slim legs and neat oval paws. Long, tapering tail, well covered in wavy fur. Superb soft textured, fairly dense coat, short and even in length over body with no sparse patches and a good light wave to fur. No eyebrows and whiskers. Super temperament.

RGCC LINTON-SINCLAIR'S CH SIARUNG SERAFINA DRX ds 24 F 23.3.13

Two plus years old Red Silver Devon Rex lady who ran winner close. Head has short, broad wedge with fairly high cheek bones, good muzzle, level bite and fair depth chin. Again to be really picky I would prefer a touch more strength at cheek bones. Brow curves back to flat skull, neat stop and short nose which shows a slight bump in line to tip, well defined whisker break. Ears are set low and wide apart, nicely covered in fur, large and wide at base, tapering to rounded tips, short muffs around bases. Large, almost full oval shaped eyes, set wide apart and sloping towards outer edges of ears, green in colour. Hard body with good muscle tone, medium in length, slender and with a broad chest. Slim legs and neat oval paws. Long, tapering tail, well covered in lightly waved fur. Soft texture to short, fairly dense coat, even in length over body, nicely waved along back and sides, just sparse on tummy. Long eyebrows and whiskers. Shy but gentle nature.

### **SELKIRK REX PREMIERS FEMALE**

1 GPC BULLEN'S PR KURLIOX PAVLOVA SRS j 33 FN 14.6.12

Substantial Lilac Tortie Point Selkirk Rex Shorthair lady of three years of age, rather attractive colouring with no shading to body colour and well defined points. Round underlying bone structure to broad, round head with full cheeks. Head is set on a short thick neck. Rounded forehead, medium nose break and short, broad straight nose with a minimal downward slant, I would prefer just a little more. Medium width to muzzle with well padded whisker pads. Level bite and good depth, level chin. Medium sized ears are broad at base and set well apart. Large, round, well open, pale blue eyes set wide apart. Large lady with level back to cobby body giving a rectangular appearance with shoulders and rump being equally broad. Well boned, medium length legs and rounded paws. Medium length tail is thicker at base and with a rounded tip. Fairly short, even length coat which is thick and dense, standing out from the body in light, individual curls with a softish, plush feel to them, tighter curl to fur on limbs. Short, tight ruff framing face and light curls on tail.

### **SELKIRK REX KITTEN UNDER 6 MONTHS MALE**

1 & BOB FARRER'S NOONTIDE EASTER PARADE SRL d 11 M 6.4.15

Red Tabby Selkirk Rex Longhair boy of four months of age and very sweet endearing face. Round underlying bone structure to good breadth, round head which has good cheeks. Nice in profile with rounded forehead, medium nose break and short, broad, straight nose with a slight downward slant, a touch more slant would have been perfection. Medium width to nice muzzle with well padded whisker pads, still teething but level bite and fair depth, level chin. Medium to larger sized ears slightly overshadow his face at present but broad at base and set well apart, nice muffs around bases and little tufts to tips. Large, well open, pale yellow eyes set wide apart. Well grown cobby body with a rectangular appearance and well balanced with stocky legs and rounded paws. Medium length tail is thicker at base and has a rounded tip and with plummy curls to the fur. Nicely developing semi-longhair coat is fairly thick and dense, length developing and soft, plush feel to good curls. Light ruff framing face and curls all the way down to his toes. Super temperament.

SCOTTISH REX CAT CLUB SHOW 1<sup>ST</sup> AUGUST 2015

JUDGE – HELEN MARRIOTT-POWER

**SELKIRK REX KITTEN 6-9 MONTHS FEMALE**

1 WEBER'S QUIZZICURL PUFF OF SMOKE SRS gs F 5.11.14

Blue Tortie Smoke Selkirk Rex Shorthair girl of eight months of age and attractively mingled colours. Round underlying bone structure to broad, round head with reasonable cheeks, could be a touch stronger. Strong profile line with well rounded forehead, definite nose break and short, broad straight nose which I would prefer with a touch more downward slant towards tip. Medium width to muzzle with well padded whisker pads. Level bite and fair depth chin. Medium sized ears are broad at base and set well apart. Large, round, golden coloured eyes set wide apart. Very well grown and of very good size and weight to cobby body, level back and a rectangular appearance with shoulders and rump being equally broad. Good bone to medium length legs and rounded paws. Medium length tail is thicker at base and with a rounded tip and light curl to fur. Uniform length to coat which is fairly thick and dense with a soft feel but I would prefer more evidence of light individual curls on body. Slight ruff framing face. Nice natured.

**SELKIRK REX NEUTER FEMALE**

BOB BULLEN'S PR KURLILOX PAVLOVA SRS j 33 FN 14.6.12

**NON-PEDIGREE PET IMPERIAL GRAND MASTER**

1 GMC STEWART'S GMC WILLOW 8 yrs BROWN TABBY NPL FN

Eight years old Brown Tabby Longhair Non-Pedigree with a lovely colour to her coat of golden base colour with a black tabby pattern. Nice facial markings with neat ribbons across her cheeks. Lovely full, oval shape to green eyes with a gentle expression. Alert, lightly feathered ears. Nice presentation to soft, semi-longhaired coat with a full ruff to sides of face and full plushy tail. Very good size and weight and looking very well at her age. Sweet and gentle nature.
