

JUDGE: Mrs. Rosemary Fisher

SHOW: Longhair Cream & Blue-Cream Cat Association

DATE: 5th September 2015

My thanks to the club and Show Managers, Sally Tokens and Suzy Heath, for inviting me to the Club's show, and to Bethan Hollandt for her pleasant company and careful handling of the cats throughout the day. Our Breed Club shows are such a great showcase for our cats in a more intimate atmosphere than the bigger shows, with the added bonus of lovely home cooked food and cakes to enjoy! It felt very poignant that this was the first show without Kim, but a fitting way to start the day with a toast to her memory.

TORTIE & WHITE ADULT

1st, CC & BOB Potter's Primission Ingenious

A very well grown youngster of 10 months. Good round head, ears nicely spaced, round expressive orange eyes. Snub nose, very nice round cheeks, good chin and fractionally undershot bite. Good cobby shape, short well boned legs, short full tail. White moustache, and sporting loads of white whiskers, white to her chest and all limbs. Nicely coloured coat with well defined patches.

TORTIE & WHITE KITTEN

1st & BOB Wilson & Ambler's Tytherton Miss-Lauren

Good round head, slight bump to forehead. Well set ears. Lovely large round eyes with good colour developing, set wide apart and very expressive. Short nose, leather & nostrils a little small. Cobby body, short legs tail. Nicely coloured coat with well defined patches in clear bright red and black tones, small area of white to the left-hand side of her chin, white to all limbs. Tail also shows both colours.

AOC NON-SELF EXOTIC SH KITTEN

1st & BOB Pearman's Simcris Jezebel – Black & White Female

Just approaching 6 months of age, this pretty girl has a good round head, nicely placed ears, round eyes with the colour still developing, short broad nose, good full leather and open nostrils. Her pattern shows a white V to her face, a full white collar and she is nicely patched, the black areas are a little unsound at present, but the coat has a very nice length and density. Some attention needed to neatening the stray white hairs on the tips of her ears and edges of coloured patches (always a lot of show prep work with Bi-Colours). She has a nice firm cobby body, well boned legs and short thick tail.

2nd Merchant & Tseng's Remilakat Ruby – Red Shaded Silver Female

Very nice head with small, well set ears. Lovely eyes, large, round with good width between with deep colour. Short broad nose, large leather and open nostrils. Good chin, bite level but canines presently back to front. Cobby body, short legs, tail a fraction long. Coat shows quite heavy shading with fair contrasts and some barring to her legs.

TORTOISESHELL KITTEN

BOB WITHHELD, 1st Heath's Sophanise Dynasty

Nice round head, neat ears. Round eyes with colour developing nicely. Round cheeks, good chin and bite. Cobby body shape. Her coat is nicely patched on her face and legs, but her body shows a lot of red and appears more intermingled than patched. Needing more preparation, especially her underparts.

HOUSEHOLD PET – LH/SLH AC TABBY CAT OF ANY PATTERN

BIC Brock's IGMC Alikat Paccino – LH Silver Tabby Pewter

Only one exhibit in this class, but a very worthy winner. This is a super boy with a lovely round, doll face and large, expressive green eyes. He has wonderful body condition with a strong, muscular frame and strong legs with large round paws. He has a medium length coat that is silver toned with shading and some tabby stripes. The texture is excellent, the preparation and presentation being first class. He is a laid back guy with a lovely temperament and handled very well. Later **Best in Show Pedigree Pet and Overall Best Household Pet Exhibit** – congratulations!
