

Thank You to Dorothy & Maureen for the invite, I had some lovely cats & was well supported by Margaret Lynch, look forward to our next get together.

Grand Class – AC Non-Self Persian Champion Male

**GR CC CHARLANS CH ALGERNON WALKTHELINE PER a 03 21, M 11.4.14.** At 17 months this super boy has used his time well, not the largest but well put together with excellent conformation & very good weight. His head is round with neat well placed ears, smooth rounded skull, good size round copper eyes, nose is short, cheeks full, firm chin & level bite. Medium to short length body supported on short fat legs with round tufted paws & well balanced tail. Excellent preparation to full coat showing tabby markings of good blue on cool tone beige agouti background on face, much more diffused on body due to very full coat, tail showing faint rings. It was a pleasure to award the GR CC.

Grand Premier Class – AOV SLH Premier Neuter Male 2 lovely boys in this class, not easy to split them.

**GR PC KERNERS PR ELMCOON THE-WOLVERINE MCO ns 22, MN 27.4.12.** Handsome Silver Tabby Male Neuter of 16m. He has very good overall balance & shape with a medium length head, width slightly less than length. Very good size well placed ears with lynx tufts & feathering, wide spaced & high set. Full round eyes are wide spaced with a slightly oblique aperture & set. Fairly full cheeks with high cheekbones, muzzle is square with firm chin; chin, upper lip & nose leather fall in a perpendicular line, chin is firm & bite level. Large solid & muscular body, good chest & medium length neck. Stands tall on substantial legs ending in large round tufted paws complete with long tapering tail, all leading to the desired rectangular shape for the breed. Excellent preparation to full coat, undercoat in place covered by a more substantial glossy topcoat. Ruff full, breeches & shaggy belly fur in place. **RGR PC EDWARDS PR DARKTOWER SALVADOR MCO n 03, MN 16.10.14.** Black & White Bicolour who ran the winner very close. At almost 5 years he is a handsome male neuter with good overall balance & type. Medium length head having width slightly less than length, well placed good size ears having lynx tufts & feathering in place, quite wide spaced & high set. Eyes are round showing oblique aperture & set, wide spaced. Cheeks fairly full with high cheekbones, muzzle square. Good size body with medium length neck, standing tall on legs with round tufted paws & well balanced long tail. Excellent preparation to quite full shiny black coat with pristine white. Undercoat quite well developed with a more substantial glossy topcoat developing well, medium ruff, breeches & shaggy belly fur in place.

Grand Premier Class – AOV SLH Premier Neuter Female

**GR PC SPENCES PR BLUDIAMONDS MALEFICENT REG n, FN 22.9.14.** Beautiful Seal Colourpoint Ragdoll female neuter of almost 1 year who has used her time very well. Excellent all round balance with a broad but feminine head complete with flat plane & good width between medium size wide spaced ears showing forward tilt. Large well opened good blue eyes with oblique aperture & set. Her nose is medium length showing a slight dip in profile. Well-developed cheeks & rounded nicely developed muzzle, she has a firm chin & bite level. Body good for age feeling quite solid, she has very good weight with short neck. Medium length legs with good boning, large round tufted paws & long bushy tail that is in good proportion to body. Excellent presentation to full dense semi long coat that has a silky texture, ruff & knickerbockers in place. Well matched seal brown points, just slightly paler to legs. Body coat beige just showing very slight shading on lower flanks, lighter on belly &

chest. It was a pleasure to handle this girl & to award the GR PC certificate. **RGR PC HARLING & RICHARDSONS PR BRILTHOR BARTOLEE MCO a, FN 3.1.10.** Today this Blue female neuter wasn't at all happy being handled, however we gave her time & she settled slightly better. At 5y 8m she is a very mature girl with good weight. Overall head balance was spoilt for me by her quite short muzzle leading to a more rounded expression rather than a square muzzle, also would have preferred larger ears. Round eyes with oblique aperture & set with good width between. Cheeks showing high cheekbones, bite is level with chin just a tad weak. Large very solid body, medium tall legs with good size round tufted paws & long balanced tail. Excellent preparation to sound mid blue coat. She couldn't wait to get back into her pen to the safety of being under her blanket.

Usual Somali Adult

**BOB HACKS UK & OBIG SUPATOFT SONYA SOL n, F 9.3.10.** Nice to see this 5.1/2 year girl still on the bench. She is a super girl with a lovely temperament & all as it should be, excellent presentation to semi long fine dense coat showing good ticking to appropriate areas, just needing slightly more development on lower flanks. Coat is soft, fine & dense lays flat along spine, medium long but shorter over shoulders with ruff & breeches in place. Colour rich golden brown with apricot base coat ticked with black. Ticking, ear tips & tufts, facial markings, top & tip of tail, toe tufts & spine line black. Chest, belly, under tail, inner legs & breeches a rich apricot. Feminine head with a moderate wedge with brow, cheeks & profile showing gentle contours. She has a slight rise from bridge of nose to high forehead & good width between wide set ears that are in good proportion to head. From the front a shallow indentation forms her muzzle, profile shows a slight nose break, neck is firm & elegant. Large almond shape amber eyes are well spaced with oblique aperture, very expressive, dark surrounds circled by lighter 'specs' with short dark pencil lines at either edge. Medium size body feels firm & lithe, foreign type with level back. Legs are long with oval feet complete with tufts. Well balanced tail, broad base tapering towards tip.

Also considered for BOB **HORSLEYS CH SUPATOFT SERENDIPITY SOL n, F 20.12.13.** Nicely balanced 1y 9m girl who left her coat at home today, another super young lady, hope I get the chance to see her again when she has grown her coat. Congratulations on her GR CH certificate.

Sorrel Somali Adult

**BOB COONEY'S CH TAGER MISTER DILLON SOL o, M 6.5.14.** 16 month male with good overall balance & type. Head shows moderate wedge with brow, cheeks & profile lines having gentle contours. He has a slight rise from bridge of nose to high forehead, good width between wide spaced ears that are in good proportion to head. Front view shows a shallow indentation forming muzzle, profile showing a slight nose break. Eyes are good size, almond shape with oblique set & wide spaced, dark surrounds circled by lighter 'specs'. Short dark pencil lines at either edge of eye, inner 1 vertical, outer 1 pointing to ears. Firm elegant neck leading to medium size firm, lithe body of foreign type with level back. Long legs with oval tufted feet. Long well-furnished tail, broad at base & tapering slightly with full brush, length balanced to body. Coat is soft & fine, quite dense & lying flat along spine, medium long being shorter over shoulders. Ticking, ears tips & tufts, facial markings, top & tip of tail, toe tufts & heels Cinnamon. Chest, belly, under tail, inside legs & breeches rich apricot. Congratulations on his GR CH certificate.

AC Silver Somali Adult

**CC BULLIVANTS BARANCHRI XCELSIS SOL os, F 27.6.14.** Pretty Sorrel Silver girl of 1y 2m with lovely overall balance & type. Her head shows a moderate wedge with brow, cheek & profile having gentle contours. There is a slight rise from bridge of nose to high forehead, good width between wide spaced ears that balance very well with head size. In profile she has a slight nose break, front view shows shallow indentation forming muzzle, very good size almond shape eyes with oblique set & wide spaced. Neck firm & elegant leading to medium size body that feels firm & lithe of foreign type with level back. She has long legs with oval tufted paws; tail is long balancing well with body length. Very good preparation to soft fine & dense coat that lays flat along spine. First impression was of a soft, silvery peach ticked with cinnamon. Ticking, ear tips & tufts, facial markings, top & tip of tail, toe tufts & heels cinnamon, spine line of cinnamon just visible. Chest, belly, under tail, inner legs & breeches silvery white. I was pleased to make her up to Ch today. **2 HORSLEYS SUPATOFT GRISELDA SOL ns, F 24.10.14.** Usual Silver girl of 10m 2w who ran the winner close, just needs a little more time but what a super youngster she is. Excellent preparation to semi long coat showing ticking, ear tips & tufts, facial markings, top & tip of tail, toe tufts & heels black, spine line black. Chest, belly, under tail, inner legs & breeches of silvery white. Head has moderate wedge with brow, cheek & profile lines with gentle contours. There is a slight rise from bridge of nose to high forehead with good width between well set & balanced ears. Eyes are large & almond shape with oblique set & well-spaced. Body, head, legs, paws & tail all balancing well together. Excellent preparation to coat that is soft, fine & quite dense. Couldn't quite get her in my pocket.

**BOB BULLIVANTS CH BARANCHRI TORNADO SOL bs, F 11.10.13.** Chocolate Silver girl who at almost 2 years is well developed with a super coat & lovely temperament. Moderate wedge to head with brow, cheek & profile lines showing gentle contours, she has a slight rise from bridge of nose to high forehead having good width between wide spaced well balanced ears. Good size almond shape eyes, oblique set & well apart. Dark surround circled by lighter 'specs'. Short dark pencil lines at either edge of eye, inner one vertical, outer one pointing to ears. Frontal view shows a shallow indentation forming her muzzle, in profile a slight nose break in place. She has a firm & elegant neck leading down to quite firm, lithe body of medium size, foreign type with level back. Long legs with oval tufted feet, tail is long, broad at base then tapers towards tip. Good preparation to soft, fine & quite dense coat lying flat down spine. Her ticking, ear tufts & tips, facial markings, top & tip of tail, toe tufts & heels dark chocolate, chest belly, under tail, inner legs & breeches silver.

Red, Cream or Tortie Point Birman Kitten Male

**1 BOB POOLS SARMOYAH MOONBEAM SBI e, M 25.4.15.** Cream Point baby of 4.1/2m with a sweet nature & good overall balance. For his age he has a strong, broad & rounded skull with medium size well-spaced ears. Nose is medium length showing a slight dip in profile, cheeks are quite full & rounded, well developed slightly tapering chin & level bite. Almost round eyes of a good blue. Body good size & length feeling quite solid, medium length thickset legs with short strong paws, tail is medium & in good proportion to body. Semi long silky texture coat with ruff & slightly curly tummy in place. Points cream & matching quite well on face & ears, needing time for further development of his mask, legs & tail paler tone cream, off-white body showing a slightly golden hue. Front paws with pure white even gloves that end in an almost even line across paws, just very slightly showing white to 1 toe on each paw. Back paws have white socks covering entire paw & gauntlets; they are

quite even & slightly tapering to finish just below point of hock. Back paws slightly dirty. A nice youngster to handle.

Red, Cream or Tortie Point Birman Kitten Female

**1 POOLS SARMOYAH MALALA SBI e, F 31.3.15.** Cream Point female just 5m with a strong, broad & rounded skull, medium size well-spaced ears. Medium length nose with a slight dip in profile, cheeks are quite full & rounded, well developed slightly tapering chin & level bite but today looking slightly pinched in her muzzle. Very good blue almost round eyes. Body good for age feels solid, her legs are thickset & medium length ending in short strong paws, medium length tail balances very well with body length. Coat feeling quite silky having ruff & curly tummy in place. Well matching cream points to face & ears, legs & tail paler cream with body coat off-white & slightly golden hue. Front paws have white symmetrical gloves that end in even line across paw, not passing beyond angle formed by paw & leg. Back paws with white socks covering entire paws & gauntlets, however her left back paw shows the white slightly higher at the front whilst at the back they were uneven & a little short, also difficult to fully determine width as she had a lot of staining in place, also back feet needed more attention.

Usual Somali Kitten

**1 BOB BULLIVANTS BARANCHRI YASASHANI SOL n, F 10.1.15.** Usual girl of 8m who has used her time well. She is a lovely youngster with very good balance & Somali type having excellent presentation to semi long coat that is fine & dense, with black ticking to appropriate areas. Her coat is soft, fine & dense lying flat along spine, medium length & shorter over shoulders, ruff & breeches in place. Rich golden brown with apricot base coat ticked with black. Ticking, ear tips & tufts, facial markings, top & tip of tail, toe tufts & spine line black. Chest, belly, under tail, inner legs & breeches a rich apricot. Head shows a moderate wedge with brow, cheeks & profile having gentle contours. She has a slight rise from bridge of nose to high forehead & good width between wide set ears that are in good proportion to head. From the front she has a shallow indentation forming her muzzle, profile shows a slight nose break, neck is firm & elegant. Large almond shape amber eyes are well spaced with oblique aperture, very expressive, dark surrounds circled by lighter 'specs' with short dark pencil lines at either edge. Medium size body feels firm & lithe, foreign type with level back. Legs are long with oval feet complete with tufts. Well balanced tail, broad base tapering towards tip.

AC Siberian Kitten

**1 BOB STAVELYS BELKATON THIRZA SIB f, F 13.5.15.** At just coming up to 4 months she is a well grown nicely developed young lady with very good weight & lovely tortie colouring. Head is in good proportion to body forming a short broad muzzled wedge with rounded contours, lower forehead is slightly domed. In profile she has a slight concave curve to harmonious length nose, uniform width when viewed from front. Her fairly well-developed whisker pads form a gentle rounded line with her chin. Muzzle quite broad & rounded, chin being slightly rounded balancing well with head. Cheekbone arch extends to outer ear base, cheekbones low set, broad connected by a gentle rounded line to whisker pads & chin. Her ears are medium size & wide set with rounded tip & furnishings in place. Slightly oval eyes have rounded lower line & set slightly oblique, they are well spaced & balancing nicely in her face. She has a rectangular body, medium size feeling very good for age; chest is quite broad with a short substantial neck. Medium legs in good proportion to body, they have very good bone ending in large round tufted paws with toes being carried close. Tail

length in good proportion to body, broad at base then tapering slightly to tip. Coat is kitten soft with very good preparation needing time to develop more of a dense soft undercoat; she has some coarse topcoat in place, coat shorter over shoulders. A super youngster with a lovely temperament, look forward to seeing more of her.

AC Silver Somali Neuter

**PC & BOB LINCOLNS ASTROKINI ECHO-SPRING SOL os, FN 4.8.13.** Just over 2 years this Sorrel Silver female neuter has good overall balance & type, she was very wriggly so wasn't easy to assess. Super preparation to semi long soft dense coat. Ticking, ear tips & tufts, facial markings, top & tip of tail, toe tufts & heels cinnamon, chest, belly, under tail, inner legs & breeches a silvery white. Head a moderate wedge with brow, cheek & profile having gentle contours. She has a slight rise from bridge of nose to high forehead, having good width between wide spaced ears that balance very well with head size. In profile she has a slight nose break, front view shows shallow indentation forming muzzle, very good size almond shape eyes with oblique set & wide spaced. Neck firm & elegant leading to medium size body that feels firm & lithe of foreign type with level back. She has long legs with oval tufted paws; tail is long balancing well with body length.

AC Persian Junior

2 Super boys in this class, not easy to separate. 1 CHARLANS CH ALGERNON WALKTHELINE PER a 03 21, M 11.4.14. 2 OLLIERS OCCLESTONE POLAREYES PER ns, M 30.10.14. Handsome Chinchilla with excellent all round balance, type & temperament.
