

MANCHESTER AND DISTRICT CAT CLUB SHOW 11TH SEPT 2015
MRS JOAN SMITH

My thanks to Dorothy and Maureen for the very kind invitation. No early start, quite local for me. My steward travelled much further just to help me, thank you so much Sam for giving up your Saturday. Sam handles the cats with great care and she is very pleasant company.

PERSIAN SECTION

AC TABBY/SMOKE & WHITE KITTEN

1ST BOB HACKINGS BALOOBOO BOND JAMES BOND

A very charming little fellow, brown tabby and white male nearly 5 months old. Lovely balanced type, good width to top of head, neat well positioned ears. Large bold eyes round and a muddy brown colour indicating a good adult colour. Short nose, apple cheeks, acceptable kitten bite and a firm chin. Cobby build, short back, low legs and a thick short tail. Coat was mostly white with brown tabby to head, full tabby tail and a small patch on shoulders. Full coat well prepared and a lovely soft texture. A very sweet kitten loving the attention.

ORIENTAL SECTION

IMPERIAL AC GRPR ORIENTAL NEUTER MALE

IMP MASTERS GRPR ENIGMATIC STANDING OVATION

Very impressive apricot Oriental male only 1y 3 m old. Stylish head, even wedge, strong profile. Good width to head between large flared balancing ears. Bright green oriental eyes just slightly deep set. Teeth were untidy but bite appeared level with strength to chin. Warm sound apricot coat, short and sleek over back just a fraction longer on tummy. Very strong powerful build, muscular body, supported on slender legs and a tapering tail. Only one in the class but a worthy winner.

SIAMESE SECTION

IMPERIAL CLASS AC SIAMESE/BALINESE GRPR NEUTER MALE

IMP ROBINSON'S GRPR BEWYCHEN PRINCELING MING

A very handsome seal point male just over 2 years old. Stylish head, even wedge, slight dip to profile and a small pinch to muzzle. Bright deep blue eyes of oriental shape and set. Wide top of head between large flared ears, which balanced the length of his wedge. Warm seal points some toning shading to his short close lying coat. Strong physique, elegant neck carriage, long body, slender legs and a long tapering tail. A confident exhibit well shown. I have judged him several times and he is always a pleasure to handle

RES RYAN'S GRPR RIDESTAR SEVERN SUNRISE

Very handsome red tabby point Balinese male just over 3 years old and in his prime. Pleasing head type, bright blue oriental eyes, a little more attention needed to the fur around them, otherwise his preparation was excellent. Wonderful feel to his coat, rich red tabby points, plenty of length over body and a good frill around his skirt, finished off

with a full plumed tail. Very strong physique, excellent body weight, wouldn't like to have to carry him far. He is a true gentleman and handled so well.

FEMALE

1ST IMPW/H MAGUIRE'S GRPR SIAMAIDEN VIVA LAS VEGAS

Shy seal point female nearly 2.5 years old. Even wedge, slight dip to profile and a flattish forehead. Fair width between moderately large flared ears. She held her eyes rather full but I don't think her nervousness helped, they were a lovely bright shade of blue. Level bite with chin falling away a little. Good weight and elegant frame. Very dark seal points with body showing shading but still some contrast visible. Not a confident exhibit, she didn't seem to be enjoying being shown. Sorry to with hold but not the standard required for this very high award.

SEAL POINT SIAMESE NEUTER

See Imperial class

BLUE POINT SIAMESE NEUTER

BOB WEBB'S GRPR TENJA MARLIN

Handsome blue point male coming up to 2.5 years old. Medium wedge, slight dip to profile and a small pinch to muzzle. Large flared ears which he had a tendency to hold a little high. Mid blue oriental eyes which were slightly deep set. Acceptable bite and fair strength to chin. Strong body, elegant frame. Mid blue points with tail a couple of shades darker. Short sleek coat with a little toning shading. A gentle chap handled well.

AC BALINESE NEUTER

1ST PC RYAN'S RIDESTAR CLAUDIUS MAXIMUS

Young red tabby point male coming up to 18 months old. Medium wedge, almost straight profile. Fair width to top of head between flared ears which were well furnished but needed to be a little larger to balance the length of his wedge. Bright blue oriental eyes. Lovely bite with strong white teeth. Pale red tabby points, virtually clean body coat. Well prepared coat just starting to gain some length, good plumed tail. Strong build, muscular body, quite slender legs and a tapering tail. Handled well.
