1ST PC & BOB Wood's CH Chrishell Bumblebee [BRI f 03] FN 27/06/12

Attractive and very impressive mature female. Nicely rounded head with a lovely open expression. Neat well set ears placed well apart. Large round eyes pale gold in colour. Her nose is short and broad and has a quite a deep break. Her cheeks are round and full and her muzzle broad. Level bite good chin. Her cobby body is well boned and stands low and four square on short sturdy legs and firm paws. Balanced thick tail. Her coat is short thick and dense with a very nice texture. Good definition between her vibrant red and jet black patches and her pristine one third white.
