AOC Tortoiseshell Burmese Adult Female

1st CC & BOB Roger's Katchyn Madam Butterfly (BUR h 27h) F 19.10.12

Good overall type. Fairly short good width at the cheeks and across the top of her head. Nicely rounded, very pleasing width to muzzle giving a broad and blunt finish to wedge. profile shows, rounded brow, good break, slightly long nose with roll off. Chin medium deep, slips back fractionally. Medium sized ears, set well apart and following up from her wedge. Good larger sized eyes, of correct burmese shape and set. Green-chartreuse in colour. A proper medium sized foreign styled body, with good weight and muscularity. Rounded chest, straight back, slender legs neat oval paws. Tail perhaps a fraction short, but of good medium thickness tapering to its tip. Fin satin like textured coat, medium short length, lies well. Pale milk chocolate, darker chocolate over face and ears, mixed with pale tangerine. Easy temperament.

Choc/Lilac Abyssinian Adult

1st & CC Lincoln's Legend Cesare. (ABY b 23b) M 20.07.14

Young chocolate lad, just over a year old. Moderate wedge, with rounded top, still very adolescent looking and requiring a little more width to head and wedge, slight indentations precede gently rounded muzzle end. Very slight break to profile, good depth to chin but could be firmer. Large well set ears. His eyes are a good size, green, rounded-almond in shape and with an oriental set creating a typical expression. Overall he is a reasonable size, yet to fill out and mature. Lithe and athletic conformation. Elegant proportional legs and well shaped tail. Well defined facials, no white, only creamy lips and chin reading to a rich apricot coloured throat, free from necklets. His dark chocolate hocks are short, and only the outer edge of his feet. Chocolate spine line and solid tip to tail. Medium short and close lying coat with good density. The and reasonably resilient. Well defined dark chocolate ticking evident and rich apricot coloured base. A very busy playful lad who was delightful to meet. I look forward to seeing how he matures.

BOB awarded to Lincoln's Ch Glendavan Artemis. (ABY c 23d) M 28.08.14

Another very handsome young man, Lilac boy who is a couple of week younger but in fact looking marginally more mature than the chocolate lad with his boy cheeks just developing. Moderate wedge of good width, slight indentations and rounded muzzle. Very slight break in profile, chin is firm but I'd prefer more depth. Good width between moderately large ears, well cupped and pricked. Large hazel eyes with oriental set. Lovely weighty muscular body, well grown for his age. Elegant proportional legs, neat feet. Tail of correct length, a good thickness and tapering to tip slightly. Well defined facial markings, pale beige lips and chin, warmy picky beige over throat and neck front. free from necklets. Dove-grey lilac extends half way up his hocks, faint spine line evident and solid lilac tail tip. His close lying, short coat is dense with a good resilient feel to the touch. It exhibits good definition to its ticking, dove grey over beige, pale beige at the roots. Super condition and fabulous temperament.

Sorrel Abyssinian Neuter

BOB awarded to Eames Gr Pr Abychat Equinox (ABY o 23a) FN 20.12.10

Very attractive sorrel Aby female, of fair size with a good weighty firm feel to her muscular body. Moderate wedge with pleasing gentle contours and having excellent width across the top of her head. A clear indentation precedes a gently rounded muzzle of good width. In profile she has a good break, small bump, good depth to firm chin, (level gums!) Moderately large ears, set wide apart. Large expressive eyes, with oriental set and strong amber colouration. Slender proportional legs ending in small neat feet. Proportional tail. Well defined facial markings. Pale / off-white, lips and chin, 2 broken necklets. Lovely coat of lustrous copper ticked with chocolate, with a good density and resilient feel. Lovely relaxed girl who shows herself off really well, my nomination for BOV Foreign, which she went on to win Congratulation!
