

CLASS 501 – Oriental Bicolour Kitten

2nd - 1st & BOB w/h – 118 Devlin's Vonteez Bohemian Chic (OSH a 03) F 7/4/2015 – Very small high white blue bicolour girl. She has a broad head with large ears set in line with her even wedge. Uneven profile with a small depression above the brow, a small dip below the brow and she also has a small nose bump. Very firm chin with and untidy bite which on inspection was markedly undershot. Oriental eye shape, rather straight set but with a lovely deep green colour. For five and a half months old this kitten is far too small and additionally she is underweight. She has a slender neck, medium length body, fine legs and neat oval feet. Her tail is long and tapered. Plenty of white to this girl but where visible her blue coat was sound to the root. She has an inverted V of white to her face, her chest is completely white and the white travels down under her legs to her lower abdomen. Front legs have small patches of blue and are otherwise white. Back legs completely white. Majority of her back and sides are white with two patches of blue to her flanks. In total this girl has seventy percent white. Coat greasy and open. Friendly girl who tried her best to charm me but her size, condition and undershot bite determined her placing in this class.

CLASS 537 – Apricot Point Adult

BOB – 120 Cox's Gr Ch Eireachdail Fhuran (SIA em) F 26/5/2014 – Fined boned apricot girl of good type. Good width between her large ears that are set in line with her slightly pinched wedge. Almost straight profile with just a slight depression above the brow. Her chin is firm and her bite is level. Oriental eye shape and set with the colour being a brilliant blue of good depth. Long neck and body, fine legs and neat oval feet. Her tail needs an inch for balance but is tapered. Hot toned matching apricot points colour with her body being warm creamy white and free from shading. Coat is short, close lying and fine in texture. Excellent temperament and presentation.

CLASS 542 – Tabby Point Adult

BOB – 121 Shand's Gr Ch Palmira Monique (SIA n 21) F 17/9/2012 – Attractive seal tabby girl of very good type. Good width to head with large ears that are set in line with shorter even wedge. Profile is straight and she has a firm chin and a level bite. Oriental eye shape and set with the colour being a brilliant blue of acceptable depth. She has a tendency to hold her eyes very full when out of the pen but the shape is much better when she is relaxed in the security of her pen. Slender neck, medium length well-toned body, fine legs and neat feet. Her tail is long and tapered. Near black tabby markings with M to forehead, single cheek ribbons, thumb prints to ears, bracelets to legs and tail showing rings over two thirds the length. Body is cream and has heavy tonal shading to back and flanks though there is still clear contrast to her tabby points. Coat is short, fine in texture and lies close to the body. Very good temperament and presentation.

CLASS 564 – Lilac Point Neuter

BOB – 123 Mason's Gr Ch Genetta Hot-Toddy (SIA c) MN 2/9/2010 – Lilac boy of good type. Head needs a little more width to balance his long pinched wedge. His ears are almost set in line with the wedge. Profile is straight and his chin is firm with a level bite. Oriental eye shape and set with the colour being a clear blue of very good depth. He has a long neck and body, tall legs and neat feet. His tail is tapered and needs an inch for balance. Points colour is a matching pinkish grey. Body is magnolia. Coat is fairly short, close lying and fine in texture. Well prepared boy with a lovely temperament.

CLASS 572 – Tabby Point Neuter

CNH – 124 Reid's Gr Pr Palmira Stargazer Lily (SIA b 21) FN 1/10/2011 – Very attractive dark chocolate tabby girl who was unwilling to be judged. She has a broad head, large ears set in line with her even wedge. Her profile is straight and she has a firm chin, I could not assess her bite. Oriental eye shape and set with the colour being a brilliant blue of good depth. Dark chocolate tabby

markings with clear M to forehead, single cheek ribbons, thumb prints to ears, could not assess if she had bars to legs and a tail that showed rings to over half the length. Body was ivory with some tonal shading. Coat appeared to be short and lie flat along the body. I could not assess the texture. Presentation looked good. She was absolutely gorgeous but was in a real stinker of a mood.

Miscellaneous Classes

CLASS 648 – AC Oriental Adult Not Bred by Exhibitor

1st – 117 Carter’s Ch Athelstan Arkhamknight (OSH ns) M 4/10/2014 – Black smoke boy of good type. His head has just enough width between his ears for balance. His ears are set in line with his even wedge. He has a straight profile and his chin shows good depth. His bite is level. Oriental eye shape and set with the colour being a bright ‘granny smith’ green. He does have a tendency to squint but this is intermittent. He has a long neck, athletic body, fine legs and neat oval feet. His tail is long and tapered. His coat is jet black to the surface with his near white undercoat extending two thirds the length of the hair. Some minimal breakthrough of undercoat to his throat and lower sides; with the rest of his coat, the undercoat is only visible when parting the hair. Very slight faint tabby ghost markings visible to legs, tail and neck and though undesirable did not detract unduly from a very pleasing boy. Coat is short, close lying and fine in texture. Temperament was fantastic as was his presentation.

CLASS 649 – AC Siamese/Balinese Adult Bred by Exhibitor

1st – 121 Shand’s Gr Ch Palmira Monique (SIA n 21) F 17/9/2012 – See class 542

CLASS 650 – AC Siamese/Balinese Adult Not Bred by Exhibitor

1st – 119 Shand’s Ch Debikat Palmira Senna (SIA a) M 17/7/2014 – Large masculine blue boy of good type. Acres of space between his large ears that are set in line with his slightly pinched wedge. Profile has a small dip below the brow and he also has a small depression above the brow, he has a scissor bite and his chin has just enough depth. Oriental eye shape and set with the colour being a clear, vivid blue. He has a long neck, muscular body, tall legs and neat oval feet. His tail is long and tapered. Points are an almost matching slightly dark blue with mask and tail matching and the legs being a slightly paler blue. Body is glacial white though he does have heavy tonal shading to the back and flanks. Coat is short, fine in texture and lies close to the body. Temperament and presentation both excellent.

CLASS 692 – AV Oriental/Siamese/Balinese Kitten

1st – 118 Devlin’s Vonteez Bohemian Chic (OSH a 03) F 7/4/2015 – see class 501
