Thank you to show team for inviting me to Judge it was a really lovely show and I had a great day with some lovely cats to judge. Thank you Judy for stewarding for me.

IMPERIAL CLASS – AC GR CH BURMESE ADULT FEMALE

IGR CH Mr & Mrs C Bone's GR CH SYKRIS DYNAMIX (BUR b (27b)) F 11.09.2013

Beautiful chocolate girl with real presence. She has lovely ear set with her medium ears set well apart on her gently rounded head, the outer line following the upper part of her face. She has good width at the cheeks tapering to short blunt muzzle, the whole impression is of a super balanced short wide wedge. In profile she has good depth of skull from the top of her head to her lower jaw. Her brow is slightly rounded. She has a distinct nose break and short straight nose that ends in the same vertical plane as her medium depth chin. Her bite is correct. She has beautifully expressive large chartreuse eyes that are set well apart, the top line slanting towards her nose and the bottom line full and rounded. She is a good size and weight with a firm muscular body. Her chest is rounded and her back straight. She has slender elegant legs that end in neat oval paws. Her medium thickness tail balances and tapers to a rounded tip with a nice paintbrush finish to the hair. Her coat is super short and close lying with a lovely sheen. It is a warm even milk chocolate. She was beautifully presented, a very sweet natured girl who handles beautifully. Congratulations to her owner and breeder I believe this made her up to Imperial Grand Champion which is well deserved, a lovely girl.

RES IGR CH Mrs S O Hillman's GR CH TOSCANA NUTMEG (BUR f (27e)) F 15.07.2011

A lovely brown tortie girl with such a sweet nature. Her medium large ears are broad at the base and rounded at the tip and set well apart on her gently rounded top of head. She has very good width at the cheeks tapering to a short blunt muzzle. In profile she has good depth of skull. Her brow is a little flat, she has a good nose break and a short straight nose that ends in the same vertical plane as her medium depth chin. Her bite is correct. She has large expressive pale chartreuse eyes that are set well apart, the top line slanting towards her nose and the bottom line full and rounded. She is a good size but is a little overweight which is unbalancing. She has slender legs and neat oval paws. Her medium thickness tail tapers to a rounded tip and is just a fraction too short to balance. She has a beautiful short and close lying coat with a wonderful sheen. She is an attractive mix of rich seal brown mingled with pale red. She was beautifully presented and a pleasure to judge.

GRAND CLASS – AC BURMESE PREMIER NEUTER FEMALE

GR Mrs A L Virtue's IGR CH & PR HOBBERDY HIGGLEDY PIGGLEDY (BUR f (27e)) FN 04.02.2006

A beautiful girl with real wow factor. Her medium ears are broad at the base, rounded at the tip and set well apart on her gently rounded top of head. She has very good width at the cheeks that taper to a short blunt muzzle. In profile she has very good depth of skull. Her brow is slightly rounded, she has a distinct nose break leading to a short straight nose that ends in the same vertical

plane as her chin. Her lovely large lustrous chartreuse eyes are set well apart, the top line slanting towards her nose and the bottom line full and rounded giving her a really stunning burmese expression. She is a little overweight but her weight is evenly distributed so she is still balanced. She has slender elegant legs and neat oval paws. Her tail just balances and tapers to a founded tip. She has a short close lying coat that is an attractive mix of dark rich seal brown and pale red. She is a really lovely girl who I had great pleasure in awarding Best of Variety Burmese.

RES GR Mr M & Mrs J Brooks CH & PR JANAGAR JANAMEL JESSICA (BUR c (27c)) FN 05.02.2004

Lovely 11 year old lilac girl who looks fabulous for her age. Her medium ears are set well apart on her gently rounded top of head and in profile they have the correct forward tilt. She had good width at the cheeks tapering to a slightly long blunt muzzle. In profile she has reasonably good depth of skull, her brow is a little flat leading to a good nose break and slightly long straight nose that ends in the same vertical plane as her medium depth chin. Her large green eyes are set well apart, the top line slanting towards her nose and the bottom line full and rounded. Her chest is rounded and her back straight. She is a good weight with good muscle tone to her body. She has slender legs ending in neat oval paws. Her medium thickness tail tapers to a rounded tip. She has a short close lying coat which is a darker lilac but still showing a pinkish caste. Beautifully presented and sweet natured.

ASIAN TABBY (SPOTTED, CLASSIC, MACKEREL OR TICKED KITTEN

1st & BOB Mr M & Mrs V Bull VIKARA GR DUCHESS RIA (ASH n 25 31 (72 45q)) F 02.05.2015

Very pretty brown ticked tabby girl. Her medium large ears are set well apart on her gently rounded top of head. They are broad at the base and rounded at the tip and in profile have the correct forward tilt. The outer line of her ears follows the upper part of her face. She has good width at the cheeks and jaw hinge and a short blunt muzzle. In profile she has good depth of skull from the top of her head to her lower jaw. Her brow curves gently to the bridge of her nose. For perfection I would like more nose break. Her nose is short and straight and ends in the same vertical plane as her medium depth chin. Her bite is correct. Her large yellow eyes are set well apart, the top line slanting towards her nose and the lower line full and rounded giving her a lovely expression. She is a good size and weight for her age. Her body is slender and elegant with a firm muscular feel and is balanced by her slender elegant legs that end in neat oval paws. . She has a rounded chest and straight back. Her tail balances her body and is medium in thickness tapering to a rounded tip. She has super short, fine, close lying coat with a lovely satin like feel. Her coat is evenly ticked with three clear bands of colour extending well down the hair shaft. The rich seal brown is apparent down her spine line continuing down her tail and finishing in solid tip. It shades to a creamy beige on her belly and inside her legs. She has a clear M on the forehead and very attractive making to her face with an unbroken line running from the outer corner of her eyes and pencilling on her cheeks. She has brown edges to her ears with a central thumb print of ground colour. She has a few small smudges on her legs. She was beautifully presented. A very sweet natured kitten who seemed to enjoy all the attention.

LILAC BURMESE NEUTER

BOB Dr E S Saunders IGR PR PAPAGENA YESLOW WOLSEY (BUR c (27c)) MN 01.09.2008

Big lilac boy. He has nice ears set with his medium ears set well apart on his gently rounded top of head. He has good width at the cheeks tapering to a blunt muzzle. In profile he has reasonably good depth of skull. His brow is a little long and flat. He has good nose break leading to a short straight nose that ends in the same vertical plane as his medium depth chin. He has a rangy muscular body and is much heavier than he looks. His chest is rounded and back straight. He has slender legs and neat oval paws. His medium thickness tail tapers to a rounded tip. His coat is short and close lying and is a creamy lilac, darker on the back. He was beautifully presented and handled well.
