Harry Meekings

Thanks to Heather and the show committee for the invitation to judge, a pity the entry was not bigger but there was certainly quality present.

Open Classes

Oriental Imperial Grand Champion Male

IGCC Devlin's GRCH ATHELSTAN PANDAMONIUM (OSH n 03) 22 Dec 13

A handsome mature lad of very good type. Medium length even wedge, good width at the top, well set large ears. Straight profile apart from a small bump on the nose, I'd prefer a more vertical line to the front of the head, firm slightly shallow chin and level bite. Eyes of shape, a little full particularly when out of his pen, well set and a clear pale green in colour. Long muscular body, long legs with neat paws, balancing length of tail. Coloured parts jet black sound to the roots, head about three quarters white with black patches round the ears and an attractive black moustache, completely white chin, chest and underbody spreading a fair way up the sides, front legs mostly white extending upwards over the neck, substantial white to hind legs too, in all a little over 40% white. Some white bleeding into the edges of the black, white hairs on the upper body in two broken lines from the neck, so allowable, one or two isolated white hairs in the neck area which were a pity but not enough to preclude the certificate. Short close coat of excellent texture. Excellent temperament and presentation.

Siamese Imperial Grand Champion Female

IGPC Shand's GRCH PALMIRA MONIQUE (SIA n 21) 17 Sep 12

An attractive girl of very good type. Medium length even wedge, good width at the top, well set large ears which she does tend to bonnet. Straight profile a little flat over the forehead and angled down a little from the brow, firm chin and level bite. Eyes of very good shape and set, a bright blue which I'd prefer a little deeper. Long firm body, long legs with neat paws, tail needs an extra fraction. Marked in good warm seal, good markings to the head though the 'M' slightly blurred, good leg bars, tail two thirds ringed. Moderately shaded body, coat a fraction long but close lying and of good texture. Handled well if a little reluctantly, excellent presentation.

Res Cox's GRCH EIREACHDAIL FHUARAN (SIA em) 20 May 14

A dainty girl of very good type. Long wedge with a small pinch, good width at the top, well set large ears. Straight profile, firm chin and level bite. Eyes of very good shape and set, they would ideally be a slightly deeper shade of blue. Long slender body, long legs with neat paws, tail needs an extra fraction. Points a good warm brown-toned apricot, unshaded body, short close coat of excellent texture. Superb temperament, excellent presentation. Only second because of a relative lack of maturity, not too surprising at her age.

Oriental Smoke Adult

BOB Carter's CH ATHELSTAN ARKHAMKNIGHT (OSH ns) M 4 Oct 14

A sweet tempered lad of good type. Long even wedge, needing a little more width at the top, well set large ears. Straight profile, firm chin and level bite. Eyes of very good shape and set and a good green colour, displaying a squint which fortunately was intermittent. Black top colour, clear silver undercolour on the lower half from the upper body, two thirds elsewhere, breaking through rather more to the surface than ideal, giving faint tabby markings to legs, tail and lower body. Short close coat of excellent texture. Excellent temperament and presentation.

Blue Point Siamese Adult

BOB Shand's DEBIKAT PALMIRA SENNA (SIA a) M 17 Jul 14

A handsome lad and very mature for his age, of very good type. Long even wedge, good width at the top, well set large ears. Straight profile though a little raised at the brow, firm chin and level bite. Eyes of good shape and set, I'd prefer a little more depth of blue. Long muscular body, long legs with neat paws, tail needs an extra fraction. Points a good blue, moderately shaded body, short close coat a little harsh in texture. Excellent temperament and easy to handle, excellent presentation.

Seal Point Siamese Kitten

1+BOB Watson's SIAMHEART BELLARS PRINCESS F 4 Apr 15

A girl of good type. Medium length wedge with a small pinch good width at the top, well set large ears. Shallow depression above the brow, profile angled down slightly from the brow and with a bump on the nose, firm slightly shallow chin, level bite. Eyes of good basic shape though opened wide at times, well set and of a good depth of blue paling a little toward the rims. Long firm body, long legs with neat paws, balancing length of tail. Good warm seal points, rather brindled to the tail. Very lightly shaded body, short close coat of good texture. Excellent temperament and presentation.

Miscellaneous classes

Oriental Breeders Adult

1 Watson's CH AVONDHU MIA YIN YANG (OSH n 03 33) F

A girl of superior type. Medium length even wedge, a little broad in the muzzle, good width at the top, well set large ears. Straight profile, firm chin and level bite. Eyes of good shape and set and a good depth of blue. Long well fed body, long legs with neat paws, tail needs an extra fraction. Points of dark seal, fairly light warm shading to the body, white in inverted V to the head covering the eyes, substantial white to the ears and over back of head, to complete chest and underbody, three quarters white to the front legs extending up over the neck, a lot of white to hind legs and thighs, in all somewhat under half white to colour. Short close coat a little harsh in texture. Excellent temperament and presentation.

2 Jones's BRYN AMY-MARCH-LAURENCE (OSH b 25) F

A girl of good type. Medium length wedge with a small pinch, good width at the top, well set large ears. Straight profile, firm chin, bite scissored over. Eyes of good shape if a little full, of a rather yellowy green. Medium length firm body, long legs with neat paws, balancing length of tail. Pattern colour quite a good warm chocolate on a fairly warm ground, three bands of even ticking for the most part, but some barring in the lower body. Short close coat of excellent texture. Excellent temperament and presentation.
