

**NATIONAL CAT CLUB & COLOURPOINT CAT CLUB OF GB SHOWS
12TH DECEMBER 2015**

JUDGES REPORT MS JANE E ALLEN

My thanks to Jo Steggie for being an excellent steward and steering me through a busy and varied day!! We had a great day together and both me and the cats appreciated her efficient and gentle handling throughout the day!

IMPERIAL PERSIAN NEUTER

IMP GR PR ELLIOTTS GR PR PARMEL ALBERT EINSTEIN PER a 26.3.12

Large, well grown chap who was along in this class! However, I did feel that his very nice type and general condition of his coat warranted the award. Round, broad head with widely spaced quite neat ears. His skull was nicely rounded and smooth. Large, round eyes of a mid orange in colour. Short snub nose. Wide cheeks with a good bite and firm chin. His cobby body was well supported on short, well boned legs. Short tail that was well furnished and balanced his body. His coat was basically a mid blue in the colour range but with some unsoundness evident. It could also have done with a little more length to really do him justice but he was well shown and good to handle.

AC BIRMAN CHAMPION ADULT FEMALE

GR CC BRIGLIADORI & ROBSONS CH SHWECHINTHE KALIONI SBI n
15.5.13

Nicely balanced exhibit with good width to her muzzle and ears sitting nicely into the contours of her skull. Expressive almost round blue eyes. Slight dip in profile and wide cheeks. Her body was of quite a good weight, but her coat colour was very good with generally good density to her seal points just a little brindling on her mask. Good gloves and gauntlets. Well shown and good to handle. I also awarded her the BOB in the breed class today.

RES GR CH BALDWINS CH KRAZIKLAUS RUMOUR HAS IT SBI c 25.5.14

Well grown lilac girl but still looking a little immature which is not surprising for her age! Very nicely balanced head and type, her top of head and ears were well balanced. Her eyes were just a little deepset giving an appearance of them being hooded. Medium length nose with correct dip in profile and nose leather colour. Loved her size and

substance with good body colouring, her points colouring appeared a little on the cold side but that could have been down to the hall lighting. Neat gloves and well matched gauntlets. I would have just liked a little more oomph to her coat to give her the finish that she deserved.

AOV SLH CHAMPION ADULT MALE

GR CC HOLDEN-RITCHIES CH YAKESKA PANGUR BAN MCO w 64

This young man really was having a happy time! Very promising type with large upright ears with space in between them! High cheeks with lovely square muzzle. In profile shallow concave curve evident. His eyes were large and expressive with correct set. Level bite and strong chin. I loved the length of his body and tail with really good weight and muscle tone. Long tail that was well furnished. His coat was developing length and was very well shown. A real character and well worthy of his grand today.

2 GODFREYS CH KIWIMAGIC PALACE PRINCE ARNIE RAG B 3.9.09

Sorry to withhold on this boy but today he just did not look the part for me. His coat was lacking in grooming and his points were so unmatched and with virtually no colour on his tail at all.

AOV SLH CHAMPION ADULT FEMALE

GR CC JAMIESONS CH PHATPAWS DELICIOUS RAG a 03 27.9.13

I really liked the type and look of this girl. Super width to her head with flat plane. Her ears were well placed and set correctly. Large, expressive eyes with a sound blue colour. Lovely profile with nicely balanced chin. Her body and tail were long supported on well boned limbs and strong paws. Her coat was well shown and her colour distribution was good.

Res CANNELLS CH MABALAKAT MENEMSHA-BAY MCO f 03 1.6.14

A young girl with such a pleasing expression, she lost out on maturity to the ragdoll but she too has a lot to commend her. Good width to her head with high cheeks and nice breadth to her muzzle. Her ears were large and high set. Expressive eyes that were full and slightly obliquely set. Slight concave curve in profile with good chin depth. I would have liked a slightly stronger squareness to her muzzle. Lovely body length and well grown for her age. Long strong legs. Her tail balanced her body well and was well furnished. I liked her vibrant colours particularly.

BLUE OR LILAC TORTIE AND WHITE ADULT

1 CC withheld

2 SMITHS OCARBARA LADY CAMELA PER g 03 6.8.13

Sorry to withhold on this little lady but she simply did not score highly enough to warrant a CC. Rather open typed lass with quite large upright ears. Her eyes were round but of a very pale lemon tone and with green rim. Her nose was needing more definition to the break. Her body was cobby and with short, well boned legs and round paws. Her tail was full and balanced her body. Her coat was predominantly blue on her body with small patches of cream and white. Quite well shown but sorry her type was not sufficient for me to award her any higher.

TABBY OR TORTIE-TABBY POINT BIRMAN ADULT

BOB BROWNS CH ADIFTLO CHANA TUKIKO SBI a 21 F 31.8.14

A very stylish young lady with super balanced head type and with that typical birman expression. I particularly liked her strong blue eyecolour.

CHOCOLATE OR LILAC POINT BIRMAN KITTEN

2 STONES LLONYDD GWENLLIAN SBI c 14.6.15

1 & BOB withheld. I was sorry to withhold on this very appealing and attractive kitten but she had a tail fault that was confirmed by the duty vet. I liked her breadth of her head with her ears settling nicely into the correct position. Expressive almost round eyes with a good blue colour developing. Her body was developing well and well marked gloves and gauntlets. I was so disappointed to find the tail issue, such a shame.

MAINE COON SILVER TABBY SERIES NEUTER

BOB to COLLINGWOODS GR PR ISADORYOU LOVEBUG MCO gs 03 22 12.8.14

Stunning girl in excellent condition! Her head was broad with good balance to the length. Large, well held ears. Expressive eyes of good shape and set. Her cheeks were high and she showed a really good

squareness of muzzle. In profile there was a slight concave curve. Very well grown body with super muscle and weight. Long, well boned limbs and a very long, well furnished tail to balance her completely. I thought her pattern and colouring was so well defined and she was shown in excellent condition.

ALSO CONSIDERED FLEMINGS GR PR EMPURRER SERENDIPITY MCO fs 03 22

Another lovely girl with absolutely stunning colouring to her coat, the effect of the silver giving that frosted appearance!! My deciding factor on Lovebug was her wonderful head type such strength and balance. Two lovely girls that I enjoyed handling very much.

RED, CREAM, TORTIE TABBY OR TABBY ANDWHITE MAINE COON NEUTER.

1 PR BOB GASCOIGNES ISADORYOU TA DAH MCO f 03 22 12.08.14

I was surprised to discover later that this little lady is the litter sister to Lovebug – what a lovely litter that must have been! Again this girl had fantastic coat colouring and pattern with really vibrant tones of red and black overlaid with the tabby pattern which was so attractive. I also liked her large, high set ears with super tufts! Expressive eyes that were correctly set and positioned. She had high cheeks and a good profile. I would just like her muzzle and chin a little bit stronger and more developed and I hope this may improve as she is still young. Beautifully shown and in super condition.

NORWEGIAN FOREST NEUTER MALE

1 PR FINNEYS NANDINAKATTS NEWYORKCHEESECAKE NFO n 09 23 11.10.14

Still a youngster with some maturing to do but so well grown for his age! Broad head with large ears set at the outer edges of his triangle shaped head. He was a little in awe of everything that was going on and I think this made his eyes look a little wide open! Virtually straight nose in profile, I would like just a little more refined lines to the lower half of his nose and face. To help the balance I would prefer a slightly stronger chin too. However, his body was amazing, very heavy and muscled.

Supported by very well boned legs. His tail could have been an inch or so longer for total balance to his body. I thought his coat was incredible!! Really thick woolly undercoat and with really glossy, coarse top coat one of the nicest NFC coats I have seen for sometime!

NORWEGIAN FOREST NEUTER FEMALE

1 PR BOB GRANTS CH VANAHEIM KOORA NFO g 09 21 18.5.10

This more mature lady gained the BOB on her superior type and facial balance. Super elegance to her head with a lovely triangular shape to her head with ears large and set well apart. Her eyes were of lovely size, shape and set. Virtually straight profile with flowing lines over her forehead into an elegant neck and long body. Her body was well filled and very toned and supported on long, strong legs and paws. Her tail was of good length and balanced her body nicely. Her coat was developing the woolly undercoat and also had evidence of a good coarser top coat on the lower half of her back. A very nicely balanced and mature exhibit.
