

NATIONAL CAT CLUB SHOW 12/12/2015 – JUDGE: Charis White

Many thanks to Sandie Holloway who stewarded for me today. We love our days together and Sandie handles all the Breeds we assess with equal expertise and calm gentle assurance. Thanks again, Sandie. It was lovely to spend the day with you.

BRITISH BLACK ADULT

BOB – HEMMINGS' CH XZIBIT URSA MAJOR – female
12/05/13 She has a solid strong cobby medium sized body and stands on thick short legs with firm rounded paws. Her head is broad – she just has slightly large and flared ears. Large round pale orange eyes. Short broad nose, level bite and firm chin. Her coat is a fraction long and it is obviously going through a moult so it looked a bit open but the jet black is sound and the texture is crisp and dense.

BRITISH LILAC ADULT

BOB – BRADLEY'S CH CHARMODEN SIMPLY-JOKER – male
04/02/14 A super boy – I wrote about him recently and he is such a lovely example of a good British cat and a good Lilac. He is sweet with it!

BRITISH RED SELF ADULT

BOB – ABIDIN'S CH WILLOWOOD JASPER-CARROT – male
14/04/14 Another boy I wrote about recently. He has lovely bone and weight and good British type. Lovely short dense coat, quite pale red which shows up the ghost darker red markings. A big gentle boy in lovely condition.

AC GR PR ORIENTAL NEUTER

MALE

IGPC – DRUMMOND'S GR PR HEMLOCK RISKY BIZZNESS (OSH n 24)
28/03/14 He is a magnificent boy, large but still balanced and elegant and he has a lovely triangular wedge set off by super ears which follow the lines perfectly. Oriental shaped green eyes slant towards a straight profile, bite is level and chin firm. Short fine close-lying coat – the ground is quite brindled which cools the copper brown colour tone but he has a lovely clear jet black pattern on face and extremities and plenty of spots on his body and they contrast well – there is just a slightly solid patch on his lower spinal area. A sweet and gentle boy.

RES. IGPC – PALMER & NEWMAN'S CH & GR PR ADELFSH
MYPRECIOUSBOY (OSH c)

26/01/11 A medium sized elegant male with a firm muscular body, standing on long legs with neat oval paws. Long tapering tail balances. Medium triangular wedge: for perfect balance his ears could be a fraction larger – they are of correct shape – and he just needed to angle them outwards a little more for them to follow the lines of his head. Lovely green Oriental shaped eyes are well set. Good profile and level bite, firm chin. His coat is short and

fine but just slightly dense so it seemed slightly 'thick'. The colour is a pleasing sound lilac shade. Sweet boy.

FEMALE

IGPC – MILLER'S IGR CH & GR PR PASHTAN RHAPSODY (OSH b)
05/08/12 An elegant female of good size and balance. She has lovely type to a balanced triangular wedge and her ears are really well set and of good shape and size. Oriental shaped eyes are of a hazel-green shade. Good profile, level untidy bite and firm chin. Short fine coat – the colour a perfect warm chestnut brown. A sweet girl.
