

NATIONAL CAT CLUB SHOW - 12.12.15

Mrs Sally Tokens

A special thank you to Carol and Ron for their invitation to judge at the Triple Show. I had a super day with some lovely cats to judge. The Xmas lunch was delicious.

IMPERIAL CLASS ADULT MALE; IMP GR CC; Canlin GR CH GROOVICATS IVANHOE seal bi colour ragdoll of just over two years old. A well developed lad with super bone and weight. Ears well placed of a medium size and slightly tilt forward. Top of his head has a flat plane. Cheeks are nice and full and the muzzle is well formed. Eyes have a slightly oblique shape and lovely blue colouring. His profile has a little more than a gentle dip. Level bite. White to his collar and up his flanks. White to his tummy and all his legs are white. Soft coat texture with a limited amount of undercoat which was very well groomed. Tail is lightly furnished and reaching the shoulders.

RES IMP GR CC; Brigliadori & Robson GR CH SHWECHINTHE HANKYPANKY chocolate point Birman just over two years old. Strong bone and lovely weight. Ears are well positioned and of a medium size. Showing a good width to the cheeks and the muzzle is well formed. Almost round eyes which are a lovely blue colour. Slight dip in his profile and a scissor bite. Gloves symmetrically marked, socks are level, gauntlets showing the same length and breadth. Excellent show grooming to the coat which is soft in texture and just lacking in depth of undercoat today. Just a small amount of shading on the muzzle and his tail was a shade lighter in colour. Wonderful temperament and easy to handle.

IMPERIAL CLASS ADULT FEMALE; IMP GR CC; Brigliadori & Robson GR CH SHWECHINTHE MELANGE blue tortie point Birman. Three and a half years old and a lovely bone structure and good weight. Ears of a medium size which are well placed. Lovely width to the cheeks and the muzzle is well formed. Eyes have an almost round shape and a very good blue colour. A very slight dip to the profile and a level bite with a number of her teeth missing. Gloves well matched. Socks are even. Gauntlets broad and even in length. Soft blue and pale cream to all the points which are showing an equal distribution of both colours. A small amount of shading to the body coat which is soft in texture and well presented. Tail is a touch short in length, showing both colours and is lightly furnished.

RES IMP GR CC; Mott GR CH JANDOUGLEN KELSEY lilac point of over six years old. Medium sized female with good weight. Ears are well positioned and medium in size she tends to hold them up a little when she is not relaxed. Cheeks showing a nice width with just a very tiny pinch in the muzzle. Eyes are a touch deep set and medium in colour with an almost round shape. Profile with a slight dip. Her bite is level but has a number of teeth missing. Gloves are evenly marked, socks are left, left gauntlet looks like it has a runner but it is in fact joined. Almost clear body coat which is soft in texture and well presented. Tail is lightly furnished and balances with the body. Soft lilac grey to all the points which are pretty evenly matched with the tail just showing a small amount of shading.

BI COLOURED ADULT; CC Withheld 1; Parkes ALGERNON WISEGUY blue and white lad of sixteen months old. Strapping boy with wonderful strong bone and excellent weight with a fairly short cobby body and set low on the legs. Super top of head with a very nice width between the ears, small ears which are well placed. Skull is well formed. Cheeks of a good

width. Short snub nose with a good stop. Acceptable bite. Large round eyes of a very good deep orange colouring. All of the right side of his face is white, some white to his left cheek. White extending up to his collar and coming up the flanks from the under parts. Tummy is also white. Blue is medium to dark in areas with a number of guard hairs present. Unfortunately he had some staining to his face under his eyes and down on to his chin and bib and this was my reason for withholding the certificate. He has a fairly thick coat with some undercoat present. Tail is fully coloured and short in length with a nice furnishing. BOB; Flint IGR CH RIASCATZ FINAL COUNTDOWN red and white lad approaching two years old. A lovely large lad with excellent strong bone and very good substance.

Impressive boy with a full coat. Small ears set low on the side of the head and a lovely width to the top of the head with a well rounded skull. Cheeks are full and round. Eyes are large and of a very good deep orange colour. Short broad nose with a very good stop and lovely size leather and nostrils. Level bite. Excellent coat which has a full under coat, soft in texture and groomed to perfection. Rich red patches free from any white hairs, well defined and set against pristine white. Colour above his eyes and to the ears. Patch of colour to his back right leg. Numerous patches of colour to his back. Red chin. Coat is flowing and of a super soft texture. Short tail which is well furnished. Superb lad.

SEAL POINT BIRMAN NEUTER MALE; CC Withheld 1; Ward GAYEMAUDI LOKI coming up to three and a half years old. Nearly three and a half years old and a nicely developed lad. I was sorry to have to withhold but this was purely down to his preparation. His feet were grey and not white when you looked at his feet markings. Well boned lad with a good substance. Ears well placed of a medium size. Cheeks showing a nice width and just a small pinch in the muzzle. Level bite with his top teeth concave slightly. Eyes are almost round in shape and a medium blue in colour. Slight dip to the profile. Some shading to his body coat which had been well prepared, soft in texture and with a limited amount of under coat. Some brindle to his face otherwise the rest of the points were a nice seal brown colour. Tail is lightly furnished and reaching the shoulders.

2 East- Paterson DAVROSE ROMEO fifteen months old. Well boned and good weight for his age. Ears are well placed and medium in size. Cheeks are rather narrow and he is showing a pinch in his muzzle. Profile is very shallow and showing a bump to the nose. Eyes are almost round and a medium blue in colour. Level bite. Tail is lightly furnished and reaching the shoulder blades. Showing a runner which goes past the stopper on the right leg which is a fault. Gloves are even. Gauntlets broad and even in length. Some shading to the body coat which at present is lacking in undercoat. Seal brown to all the points which are fairly well matched in the depth of colour.

SEAL POINT BIRMAN NEUTER FEMALE; BOB; Tarr GR CH & OBI GR PR TARKUSHA HELENOFTROY approaching twelve years old and certainly not looking her age. Fabulous weight for her age and wonderful bone. Ears well set and of a medium size. Lovely width to the cheeks and nicely finished muzzle. Eyes are a medium blue in colour and almost round in shape. Slight dip to her profile. Level bite. Super seal brown to the points which are all beautifully matched in colour. Gloves symmetrically marked. Socks are level. Gauntlets are broad and even in length. Tail is well covered and balances with the body length. Hardly any

shading to the body coat which was very well groomed, soft in texture and with a good undercoat. Lovely temperament, a very beautiful girl.

AV SLH KITTEN - NOT BRED BY EXH; 1 Bush MLYWARD XANDER seal point Birman of seven months old. A very playful young lad. Lovely cheeks and good blue eye colour. Just a tiny pinch in the muzzle. Clear body coat, soft and well prepared.

2 Luby WESTLAKES FURY red classic tabby Maine Coon of three months old and with large ears bearing long tufts, super placement. Shallow concave curve at the nasal bridge. Super tabby pattern.

3 Cann CHEHAM FREE SPIRIT blue silver tabby and white Burmese pattern Ragamuffin.

AC SIAMESE/BALINESE MAIDEN ADULT; 1 Fairclough MAFDET MENDOZA chocolate point Siamese with very good eye colour. Small pinch in the muzzle and just a little brindling to the face.

AC SIAMESE/BALINESE KITTEN BRED BY EXH; 1 Pummell SISAR FANNDANGO seal point Siamese only five months old. Ears large and wide at the base, her eyes are a touch small in size with a good blue colour.

2 Bunyan SARNAU TIAMO chocolate tortie report in the other show.

AC SIAMESE/BALINESE JUNIOR NEUTER; 1 Powell GR PR MAFDET GO-FASTER STRIPES seal tabby point Siamese of eighteen months old. Top teeth a little untidy. Large ears with a good width at the base, quite heavily shaded to the body which is fine and close lying.

2 Chandler GR PR JOHPAS PETITS BISOUS red point Siamese almost two years old. A little rounded in the tummy. Coat a little open but fine in texture. Very good red to the points. Lovely blue eye colour.
