

Mrs S Heavens – National Cat Club Show – 12th December 2015

Thanks to Carole and her committee for the invitation. Thank you to Caroline Roberts and her husband who stewarded for me they were great company, I had a lovely day with some super cats.

A.C. BRITISH GRAND PREMIER FEMALE

1. I. G.P.C HEMMING'S IGRCH & GRPR HINDERSLYNE HECATE (BRI d(21))
Tortoiseshell. A very sweet girl who was easy to handle with no sign of any tortie temperament. Well rounded head with wide smooth top between well set medium sized ears. Round deep orange eyes, short broad nose, full cheeks and nicely rounded muzzle. Level bite with chipped let canine and strong chin. Compact shaped frame held on short sturdy legs, she is a heavy girl but that is allowable in a neuter, overall her balance is not too bad. Super short dense coat well mingled with vibrant shades of red, both colours visible to three paws, medium length balanced tail with rounded tip.

A.O.C. NON-SELF EXOTIC SHORTHAIR ADULT

B.O.B. McEWEN'S GRCH PENNYDOWN GALLIMAUFY (EXO E 21 33 (70 13B 17)) F 13/05/14
Cream Colourpointed. This girl gave me a very quizzical look as we started the kiss test, as I drew her towards me she realised what was happening and closed her eyes, this was a shame, as along with her coat length and texture her wonderful expressive eyes were the deciding factor in gaining her the B.O.B.

1. C.C. TURNER-RUSSELL'S OWLETT'S GOLDIE HAWN (EXO ny 12 64) F 22/09/14
Golden. What a pretty girl, I don't think she has had the kiss test before, she purred away happily and was not the least bit fazed, so must be used to a good cuddle. Round head with smooth skull between lovely small round-tipped ears with good set. Round eyes a super blue-green colour outlined in seal brown, if I was being picky I would have liked them a fraction larger. Short broad nose with good stop, brick coloured nose leather with seal outline, full round chubby cheeks, slightly undershot bite with concave dip to top incisors, good chin. Compact shaped frame, not large but very nicely balanced, held on short strong legs firm round paws. Dense plush coat with soft texture that stood well from her body. Her coat is changing so the undercoat is a little cold to the roots, a warm apricot is then visible, it is a little paler just under her nose and chin, even seal tipping to the ends of coat. There are some faint ghost spotting visible to her body coat, seal hocks, short full round tipped tail,

2. PEARMAN'S SIMCRIS JEZEBEL (EXO n 03 (70 12a1) F 09/03/2015
Black & White Bi-Colour. A very shy girl who I think has never done the kiss test before, she was completely unsure of what was happening and from her look I suspect would be please if it didn't happen again!. Round head with smooth skull with between medium sized ears that actually looked larger due to my pet hate, tufts to the tips!. Large round eyes that surprisingly are still a muddy brown colour, short broad nose with good stop, cheeks and muzzle starting to fill and round, slightly undershot bite. Good boning to compact shaped frame with short strong legs, her coat was soft in texture it lacked undercoat, so lying very flat and would not stand away. White blaze to face, white to chest and legs with a strip extending up her side by her flanks, full thin collar, there are some scattered white hairs to her ears, balanced length fully coloured tail with rounded tip.

Mrs S Heavens – National Cat Club Show – 12th December 2015

BRITISH BLACK SILVER SPOTTED ADULT

B.O.B. TO COULTHURST CH RONALDO SILVER WALDO (BRI ns 24 (30S)) M 04/05/14

A well developed boy with superb short coat and clear well defined pattern.

BRITISH TICKED TABBY ADULT

B.O.B. TO SUTTON'S CH CHARMODEN HECTOR (BRI a 25 (15 45a)) M 30/07/13

What a softie so easy to handle, he has a huge well developed head with the most wonderful innocent expression, great short dense coat with good contrast between ticking and base colour.

BRITISH LILAC KITTEN

1. B.O.B. HOPGOOD'S SENI SEVIYORUM LUNA (BRI c (15c)) F 30/03/15

A large chunky girl who will soon be an adult she is developing well. Well rounded head with smooth skull between well set medium sized ears, round well-opened orange eyes, short broad nose with curve when viewed in profile balanced well by full cheeks, level bite and fair chin. Sturdy boning to compact shaped frame, short dense coat with good density, a medium lilac a fraction unsound to the roots, the pinkish huge was not visible, balanced length tail with rounded tip.

2. BROWN'S HYNDERSLYNE LADY GUINEVERE (BRI c (15c)) F 03/08/15

A very cute little dot who was probably at her first show, she behaved well and didn't seem too over awed. Small round head with narrow smooth top between well set medium sized ears, round eyes still a muddy brown colour, short straight nose, small rounded cheeks her muzzle needs to develop and is a little narrow, level bite and fair chin. Compact shaped frame, she has very much a baby coat at the moment, short with fine gooseberry hairs a dark lilac and rather unsound, again no visible pinkish huge. Balanced length tail with rounded tip.

BRITISH BI-COLOURED KITTEN MALE

1. B.O.B. ASHTON'S PAWSOME OSCILLATE WILDLY (BRI d 03 (31d)) M 14/07/15

Red & White. Now this would have to be my take home pick for the day, I love a bi-colour plus red being my favorite colour, it is a done deal so to speak. Well rounded head with wide smooth skull between well set ears, round eyes with a super deep orange colour developing, I would have liked a fraction more width between them. Short broad nose with curve when viewed in profile, balanced well by full rounded cheeks and muzzle, level bite and good chin. Compact shaped frame with short sturdy well boned legs and large firm round paws. Short dense coat a vibrant red and sparkling white, white stripe across his nose, white to chest and legs, he has colour patches to all legs, plus a patch on his chin, mainly colour to his body with a white dot to his back, balanced length tail with rounded tip. He has a lot of ghost tabby markings in the red, but his captivating nature won me over so I made an allowance for this.

Mrs S Heavens – National Cat Club Show – 12th December 2015

2. STEELE'S STEELAWA SPUDNIK (BRI n 03 (31)) M 20/05/15

Black & White. A lovely size and weight to this boy plus again superb nature. Well rounded head with smooth skull between well set medium sized ears, small closely set eyes still a muddy brown colour. Short straight nose, slightly rounded cheeks a little square to his muzzle, level bite and fair chin. Compact shaped frame with sturdy boning a super size, short coat a little soft in texture with fair density, a solid black and sparkling white, white blaze to face, white to chest and stomach, black dot to chin, his right front leg is also black, balanced length fully coloured tail.

BRITISH BI-COLOURED KITTEN FEMALE

1. HILLYARD'S JOANDTO MABLE-DON PADME (BRI a 03 (31a)) F 06/08/15

Blue & White. A very pretty girl with slightly shy nature, nicely rounded head with smooth skull between well set medium sized ears. Round eyes that have not yet started to change colour and are still a deep brown, short nose with rather a deep curve that is almost a break, rounded cheeks and muzzle, level bite and fair chin. Compact shaped frame not large but with fair boning, short dense coat a pale blue a fraction unsound to the roots with silver tipping to the ends. White blaze to face, white to chest and legs, colour spot to both left front and back leg, balanced length tail with rounded tip.

BRITISH TIPPED KITTEN

1. B.O.B. McEWEN'S ADIFSH PENNYDOWN SNOWGEM (BRI ns 12 (39)) F 19/05/15

Black Tipped. A super natured girl who purred all the time and was just captivating, she is going thru a difficult phase and is unbalanced but I am sure that will all change. Small rounded head with smooth skull between mediums sized ears, round fully outlined eyes with the colour starting to develop from round the pupil, short broad nose with full outline and pale pink nose leather, slightly rounded cheeks, a little square to her muzzle, level bite and fair chin. Fair boning to frame which is slightly long and she is standing tall, short coat lacking undercoat with light even tipping to ends, balanced length tail with rounded tip.

THAI BLUE POINT ADULT

B.O.B. TO CHERKAS GRCH JUSARKA DIVINE DREAM MAKER (TAI a 33 (30 40 2)) F 24/07/12

I just love this girl, she is so pretty has fabulous eyes that just captivate you and a really nice sprinkling of attitude.
