

NATIONAL CAT CLUB SHOW 12<sup>TH</sup> DECEMBER 2015  
JUDGE – HELEN MARRIOTT-POWER

A most enjoyable day at the Colourpoint Society of Great Britain Show. Many thanks to Carol and Ron for the invitation to judge and to the club for their hospitality.

**ORIGINAL FOREIGN PREMIER MALE**

1 GCC Withheld MURRAY-BROOKS PR TROIKA SEREZHA RUS a MN 6.7.14

Seventeen months old boy who still needs time to mature. Head has a medium wedge with flat appearance to top of head between the ears. Needs to develop a little more strength at cheeks. Prominent whisker pads form a good muzzle. Blue nose leather. Profile shows straight forehead to upper eye level, very shallow concave curve then nose has slight bump in line to tip. Level bite and fair depth chin. Upright, pointed ears, wide at base and vertically set but I would prefer them taller and larger. Rather small eyes are set wide apart, almond in shape and green in colour. Long body of medium bone and good tone but needs to fill out and gain more substance. Long proportionate legs to balance body and small oval paws with blue pads. Moderately long, gently tapering tail to balance body. Good length coat but lacks dense undercoat and is slightly harsh in texture. Russian Blue of medium blue colour which is heavily tipped almost giving him a ticked appearance. Very docile boy, he just would not stand up.

**ORIGINAL FOREIGN PREMIER FEMALE**

1 GPC THEAKSTON'S PR TROIKA OKSANA RUS a FN 12.7.14

Attractive seventeen months old girl. Head has a short wedge from the tip of the nose to eyes and is equidistant from the eyes to ears. Flat appearance to top of head between the ears. Prominent whisker pads form a broad muzzle. Blue nose leather. Profile shows straight forehead to upper eye level, nice change of angle then nose is straight to tip. Level bite but slightly shallow chin. Fairly large, pointed ears, wide at base and vertically set with the outer line following the outer contours of the face, I would prefer them just slightly taller. Lovely eyes are set wide apart, almond in shape with a gentle expression and vivid green in colour. Lovely size and weight to long, muscular body of medium bone with proportionate, long legs and oval paws with blue pads. Long, gently tapering tail. Excellent plushy double coat, with very dense undercoat, fine and soft in texture, short and stands out well from the body, just slightly flat along the spine. Russian Blue of lovely even, medium blue colour with a distinct silvery sheen to rounded areas.

**ASIAN SELF/TORTIE NEUTER**

BOB BERGMAN'S PR TYPHA PRINCE-OF-DARKNESS ASH n MN 2.3.13

Excellent size and weight to this seven and a half years old boy with a solid muscular body of good length. Proportionate length and boned, shapely legs and largish oval paws. Good tail for length and shape to balance body. Coat is fairly short and close lying and of super texture. Bombay with a lovely bright sheen to his sound black colour. Very good width to gently rounded top of head between well set and shaped ears of large size. Profile shows slight rounding to brow, good nose break and fairly short, straight nose. Level bite and fair depth, level chin. Very good size and full shape to yellow eyes well set. Super temperament.

1 PC McCARTEN'S AGAPIMOU THE ENIGMA ASH n MN 10.10.14

Well grown fourteen months old boy of very good size and weight. Long, solid body with proportionate length, well boned legs and large oval paws. Well shaped tail needs a fraction more length to balance body for perfection. Coat is a trifle long but close lying and of excellent texture. Bombay with a super sheen to sound black colour of his coat. Very good width to gently rounded top of head between slightly low set ears of good size and shape. In profile slight rounding to brow, fairly good nose break, nose a trifle long but straight. Level bite but slightly shallow chin. Good full shape to yellow eyes well set. Sweet natured.

SIAMESE BAC

**AC SIAMESE/BALINESE ADULT NON BREEDER**

1 MILLER'S IGRCH MAFDET QUICKSILVER SIA n 21 M 15.9.13

Seal Tabby Point Siamese of two plus years of age. Head has a long well proportioned wedge which narrows in straight lines to a good fine muzzle. In profile slight flattening to brow then virtually straight line to nose tip. Level bite and fair depth chin. Very good width between large ears, wide at base and set low. Good width between oriental shaped eyes slanting down towards the nose, lovely intense blue in colour and with a gentle expression. Long, svelte, medium sized body of good weight and muscle tone, just slightly slim on the haunches today. Proportionate long, slim legs with small oval paws. Long, tapering tail to balance body. Coat is fairly short, close lying and fine in texture. Cream body colour showing some shading which tones with points. Dark brown points which I would prefer warmer toned but showing thumb prints on ears, clear facial markings, rings on tail and slightly paler brown broken stripes on legs. Showing some spotted pattern on top of head and on haunches. Chatty fellow with a lovely temperament.

2 RICHARDS'S CH MAFDET DEBIKAT-MASERATI SIA d M 26.5.14

Very gentle eighteen months old Red Point Siamese boy. Good width to top of head balancing length of narrowing lines of wedge which shows a slight pinch. Fine muzzle, level bite and fair depth, level chin. Good width between fairly wide at base ears held tilted slightly forward and I would prefer them slightly larger. Slight oriental slant to bright blue eyes of oriental shape. Long, weighty solid body, still elegant and with good muscle tone. Proportionate length, slender legs and oval paws. Good length to gently tapering tail. Coat is fairly short and close lying and of fine texture. Pale warm toned white body colour shows slight red shading which tones with points. Bright red points of mask, ears and tail, legs and feet marginally paler. Faint 'M' on mask and rings on tail. Lovely temperament.
