THE GOVERNING COUNCIL OF THE CAT FANCY

RULES

For the Registration and Showing of Cats

February 2018 Edition
Evasion or breach of any of GCCF Rules or of the articles of its Byelaws may, and often will, lead to disciplinary action and you are advised to familiarise yourself with all sections of the Rules and with the Byelaws. These are obtainable from the GCCF Office.

Except where the context demands otherwise, the word "cat" in these rules includes kittens and neuters. A kitten is defined as a young cat under nine calendar months of age. Thus a kitten born on 12th January becomes a cat (adult) on the following 12th October.

SECTION 1
THE REGISTER
REGISTRATION APPLICATIONS

Active and Non-Active Registers

1a. Only cats/kittens required for breeding purposes should be registered on the Active Register. All male cats used at stud must have a Certificate of Entirety deposited with the GCCF prior to registration of their first litter of kittens. They must be uniquely identifiable at the time of the examination by microchip or alphanumeric tattoo; the number of which is noted on the certificate and included in the cat’s own veterinary records. (Amended 21.10.2015)

1b. In some breeds the registration policy may require that cats are tested clear for specific diseases/conditions before being eligible for registration on the Active Register.

1c. Cats/kittens which are not required for breeding should be registered on the Non-Active Register. Progeny of cats on the Non-Active Register will not be registered.

1d. Kittens resulting from matings between i) mother to son, ii) father to daughter and iii) full siblings will be registered on the Non-Active Register unless dispensation for Active Registration has been granted by the relevant BAC and/or approved by Board of Directors. This must be supplied when applying for registration or at any other time the breeder makes an application to transfer the cat from the Non-Active to the Active Register NOTE: Details on dispensation can be found in the GCCF Breeding Policy Document 4:10. (Existing rules 1d & 1e become 1e & 1f respectively) (added / amended 02.03.11)

1e. ONLY the breeder or person who first registered the cat may apply to transfer a cat from the Non-Active to the Active Register, if permitted by the current registration policy for the breed in question, on payment of the appropriate fee, except where in special circumstances the Board of Directors may order a transfer. Dispensation from the Board of Directors will be required if a cat over two years is to be on the active register (see rule 1:4 age limits). (Amended 22.10.14)

1f. The registered owner ONLY may apply to transfer a cat from the Active to the Non-Active Register, on payment of the appropriate fee, except where in special circumstances the Board of Directors may order a transfer. If at the time of application the cat has been sold, the legal owner must also sign the application. (Amended 24.10.12)

1g. Before any progeny may be registered from any breed of white cat, male or female, this cat must have had a BAER or OAE certificate of freedom from unilateral or bilateral deafness submitted to the GCCF Office. White cats without such certification will be registered on the non-active register until such time as the required certificate is sent and an application for transfer to the active register is made. Cats should be microchipped when tested with the number recorded on the test result and the cat’s own veterinary records. (Added 24.02.2016, Effective 01.06.2016)

1h. When DNA tests and/or health checks are mandatory for active status on the GCCF register (as at 1e and 1g) the breeder, or the person who first registered the cat, will not be charged a fee for a change from non-active status. Note: those who buy cats from breeders with the condition that change of status will be applied for when a satisfactory test result is obtained should have a signed statement of this commitment at the time of sale. (Added 14.06.2017)

Genetic Register

2a. A registration policy may direct that cats which have not been tested clear for a specific disease/condition shall be registered on the Genetic Register if required for breeding.
THE RULES of THE GOVERNING COUNCIL OF THE CAT FANCY

SECTION 1 - THE REGISTER - continued

2b. The registration policy will direct the method by which cats on the Genetic Register, and/or their progeny, may be cleared for registration on the Active Register.

2c. Cats registered on the Genetic Register will be overstamped ‘Placed on the Genetic Register’.

2d. The breeder ONLY may apply to transfer a cat from the Non-Active to the Genetic Register; if permitted by the current registration policy for the breed in question, on payment of the appropriate fee, except where in special circumstances the Board of Directors may order a transfer.

2e. The registered owner ONLY may apply to transfer a cat from the Genetic Register to the Active Register, if permitted by the current registration policy for the breed in question, on payment of the appropriate fee, except where in special circumstances the Board of Directors may order a transfer.

2f. The registered owner ONLY may apply to transfer a cat from the Genetic Register to the Non-Active Register, on payment of the appropriate fee, except where in special circumstances the Board of Directors may order a transfer.

3a. When the first kitten of any litter is registered by the breeder a declaration shall be completed giving the following information:
   - The number of kittens in the litter
   - The breed and apparent colour of each kitten
   - The sex of each kitten

   This information must be provided for each kitten alive when the first kitten is registered.

3b. Kittens which have been declared may be registered at a later date, either by the breeder or by the new owner, (subject to Rule 4).

3c. If no kittens from a litter have been registered by the breeder, any kitten from that litter may be registered at a later date, either by the breeder or by the new owner, (subject to Rule 4).

A copy of this letter, paper or electronic, must accompany each mating certificate when application to register is made. (Amended 15.02.2017)

3e. When a litter is registered, the application to register must be accompanied by a copy of the certificate of mating, if the application is made on paper, or a declaration that the mating certificate has been received if the application is made online, unless the person registering the kitten(s) is also the registered owner of the sire. (Amended 15.02.2017)

Note: contracts between the owner of the stud and the owner of the queen for mating services are a private arrangement, and any disputes will not be resolved by GCCF intervention. (Amended 15.02.2017)
3f. If a kitten is sold unregistered, in addition to the pedigree (see Rule 10a), the seller shall supply a copy of the certificate of mating whether or not the seller is the registered owner of the sire. Any application to register the kitten at a later date must be accompanied by this certificate, if the application is made on paper, or a declaration that the mating certificate has been received if the application is made online. If either of the parents is not GCCF registered the seller must supply the necessary paperwork to allow the new owner to register the kitten with the GCCF. (Amended 27.10.10, 15.02.2017).

3g. Prior to accepting a queen for mating, the owner of the stud shall establish that the queen is not registered on the Non-Active register.      at the time of sale, provide the purchaser with a properly completed pedigree signed
     by the breeder, carrying 3 generations at least, showing all the breed numbers and
     registration numbers, also the breeder’s name and address. If the vendor is not the
     breeder, the pedigree must additionally be signed by the vendor. If the cat/kitten is not
     registered, a copy of the mating certificate (Rule 3d) shall be supplied by the vendor to
     the new owner.

10b. i. If, at the time of sale, the cat or kitten is registered, the seller shall provide the
     purchaser with the registration card to enable a transfer of ownership duly
     completed and signed by the seller, unless it is jointly agreed in writing by both
     parties at the time of sale not to do so. If this card is lost, damaged or otherwise
     unavailable a manual transfer form must be completed with the signatures of both
     parties. (Amended 18.02.2015)

     to joint ownership at least one of the new owners must sign the declaration. [continued
     over page]

     The above particulars are true to the best of my/our knowledge and belief, and
     I/we certify that this cat was alive on the date of this form.

     I/We acknowledge that in any matter relating to the breeding, exhibiting or
     treatment of cats or to any cat show I/we consent to be bound by the rules of the
     GCCF as the same may be amended from time to time. (Amended 26.02.2014)

10f. When a registered cat is transferred to the ownership of a person resident in England,
Scottland, Wales, Northern Ireland, the Isle of Man or the Channel Islands, who
neither registers nor shows with the GCCF, a statement to this effect, signed by both
parties, may be submitted to the GCCF Office. The cat shall then be considered to
have been transferred out of the jurisdiction of the GCCF and the new owner shall not
be subject to the Rules of the GCCF. The cat shall henceforth not be eligible to be
shown with the GCCF, nor shall its offspring be eligible for registration with the GCCF
except under Rules 7e, 7f or 7h.
10g. Unless a statement signed by the new owner, requesting continuing eligibility for GCCF registration and/or showing, is submitted to the GCCF Office, when a registered cat is transferred to the ownership of a person resident other than in England, Scotland, Wales, Northern Ireland, the Isle of Man or the Channel Islands, the cat shall be considered to have been transferred out of the jurisdiction of the GCCF and the new owner shall not be subject to the Rules of the GCCF. In the absence of this statement, the cat shall not be eligible to be shown with the GCCF, nor shall its offspring be eligible for registration with the GCCF except under Rules 7e, 7f or 7h. Submission of such a statement shall render the new owner subject to the Rules of GCCF and the new owner must sign the transfer form and declaration.

10h. When a registered cat is transferred to the ownership of a person who is not under the jurisdiction of the GCCF (see rules 10e and 10f above), the transfer application may be signed by the registered owner only, but must be completed with full details of the new owner to whom the cat is being transferred.

10i. When a cat whose registered owner is under the jurisdiction of the GCCF has dual registration with another registering organisation, the ownership with both organisations shall be the same or, in the case of joint ownership on one register, the cat may be registered in joint ownership or in the name of either joint owner on the other register. Any breach of this rule which results in the evasion of other rules may render the owner liable to disciplinary action.

Rules for the Granting of Prefixes

11a. A prefix may be issued to single or joint owners (two people) only. The copyright of the prefix is vested in the owner(s).

11b. When a prefix is issued to joint owners, all rules apply to both parties. Either party may sign declarations required as part of applications or agreements in connection with the GCCF and its services with the exception of changes to the prefix ownership itself. (Amended 26.02.2014)

11c. No change of title of ownership of a prefix will be granted except in exceptional circumstances and at the absolute discretion of the Board of Directors.

11d. All applicants for prefixes must be members of at least one GCCF affiliated club.

11e. A prefix can be used only to register cats bred and registered by the prefix owner/owners. The breeder of a cat is the registered owner of the dam on the date of the cat's birth. In the case of a joint prefix the dam must be registered in the joint ownership of the prefix holders at the time of the cat's birth. When the prefix is owned by a single owner, the dam must be owned by that single owner only to be valid for use.

11f. A prefix may NOT be used until notification of approval has been received from the GCCF.

11g. A prefix may be used for registration of all cats born on or after the date of receipt by the GCCF of the application for that prefix.

11h. A prefix cannot be added to an existing registration.

11i. Prefixes only, not suffixes, will be granted (suffixes already granted by Council are not affected by this rule).

11j. Prefixes may consist of one word only and may be of any number of English letters of the alphabet and the symbols ! * - ‘ (exclamation mark, asterisk, dash, apostrophe). It must be remembered that the total number of characters, including letters and/or spaces/punctuation, allowed for registration is 26, including the prefix. (Amended 27.06.2012)
11k. A choice of four names must be given in a prefix application.

11m. The following will not be accepted as prefixes:
   1. Names suggesting that a breeder is the sole or most important breeder from a particular area
   2. Words bearing a close resemblance to an existing prefix (words within one letter or sounding the same are considered to bear a 'close resemblance')
   3. Recognised feline titles (Champion, Premier, Supreme, International, Imperial etc) Any other word considered by the Board of Directors to be unsuitable

   NB Applicants should ensure that they do not submit a business or trade name which might lead to legal action by the registered owner of that name. The applicant shall be held responsible for any action arising from the granting of a prefix.

11n. (Deleted 22.02.2012)

11p. The granting of prefixes is at the discretion of the Board of Directors and the decision is final. (Amended 17.06.2015)

11r. The issue of a prefix guarantees that the prefix word will not be used as the first word of any name registered after the date of issue of the prefix.

11s. The use of a prefix shall lapse on the death of the holder and shall not be used again except within three months of the death of the holder or one month from the granting of probate of the holder's Will whichever is the later. Cats bred by the deceased may be registered under the prefix of the deceased by the Executor or Administrator.

THE REGISTERS

12a. Registration Policies for all breeds must be submitted to the Board of Directors of the GCCF. These Registration Policies will state the requirements for registration on the Full, Supplementary, and Reference Registers and will never be less stringent than these rules of registration. (Amended 15.02.2017)

12b. Any application for the recognition or promotion of any colour or pattern of any breed, or any major amendment to a Standard of Points must be accompanied by the Registration Policy for that breed with any amendments identified or with confirmation that there is no change to this Policy. (See Rules 19a, 28a, 31c, 34c, 36c, 38a, 43c, 48c, 50c)

12c. The Full, and Supplementary Registers are for:
   i) Cats with registered parents, grandparents and great grandparents or additional generations as required by the Registration Policy for that breed. (Amended 15.02.2017)

   ii) If so stipulated by the approved Registration Policy for the breed, cats (and their progeny) with registered parents who conform sufficiently to the breed phenotype, as defined by the Standard of Points, may be re-allocated to the Supplementary Register from the Reference Register and so be eligible for competition in GCCF shows. The opinion of at least three Full Judges of the breed would be required in support from occasions when the cat is shown as an adult in exhibition with critique classes. (Added 21.02.2018)

Historical Notes:

i) Only cats with registered parents, grandparents and great grandparents were eligible for Full and Supplementary registration (conferring eligibility for pedigree classes at shows) from 1971 to 2018).
THE RULES of THE GOVERNING COUNCIL OF THE CAT FANCY

SECTION 1 - THE REGISTER - continued

The importance of individuals with new bloodlines from foundation cats and/or approved outcrosses to breed development was then acknowledged to allow for clause (ii) as above. (Amended 21.02.2018)

ii) The Experimental Register (EXP) was for cats of a Preliminary status breed until 21 October 2015 (conferring eligibility for assessment classes).

12d. A Show register will be set up for the sole purpose of permitting pedigree cats registered with overseas organisations to enter special host shows as designated by the GCCF. Cats that do not conform to the relevant GCCF registration policy may be placed on this register but the overseas registering body must be a bona fide organisation recognised by the GCCF. (See Section 4: Rule 1g) (Added 23.06.2011)

Full Register

13. Cats will be placed on the Full Register when the preceding generations (minimum of 3 generations) defined by the Registration Policy for that breed conform to the best breeding policy for that breed.

Supplementary Register

14a. Cats will be placed on the Supplementary Register when the preceding generations defined by the Registration Policy for that breed conform to acceptable breeding policy for that breed. (Amended 21.02.2018)

14b. Progeny of cats on the Supplementary Register will be placed on the Full Register when the preceding generations conform with the Full Register requirements of the Registration Policy for that breed. When these requirements involve more than 5 generations or a specific combination of matings, the application to register the progeny of Supplementary register cats on the Full Register should be accompanied by a letter and a pedigree showing that the cat(s) conform to the relevant Registration Policy for registration on the Full Register.

Experimental Register (Discontinued 21.10.2015)

16a. Cats of Preliminary status breeds will be placed on the Experimental Register when the preceding generations (minimum of 3 generations) defined by the Registration Policy for that breed conform to acceptable breeding policy for that breed.

16b. When Preliminary recognition is granted to a breed, cats which conform to the Registration Policy for that breed will thereafter be registered on the Experimental Register.

Cats already registered on the Reference Register will not have their registration number changed but will be treated as though they were registered on the Experimental Register if they conform to the Registration Policy for this Register.

16c. When Provisional recognition is granted to a breed, cats which conform to the Registration Policy for that breed will thereafter be registered on the Full or Supplementary Register (whichever is relevant). Cats already registered on the Experimental Register will not have their registration number changed but will be treated as though they were registered on the Full or Supplementary Register.

16d. Provisional or Championship status progeny of cats on the Experimental Register will be placed on the Full or Supplementary Register as directed by the Registration Policy for that breed. An application to register the progeny of Experimental Register cats on the Full Register should be accompanied by a letter and a pedigree showing that the cat(s) conform to the relevant Registration Policy for registration on the Full Register.
THE RULES of THE GOVERNING COUNCIL OF THE CAT FANCY
SECTION 1 - THE REGISTER - continued

Reference Register

17. The Reference Register shall be for the registration of the following groups of cats:

17a. Cats with unregistered parents, grandparents or great grandparents or additional generations as required by the Registration Policy for that breed.

Note: A BAC may provide in its Registration Policy for cats with registered parents to be re-allocated to the Supplementary Register if determined as suitable for competition at GCCF shows (as rule 12ii), if this requirement is considered necessary for breed development. (Added 21.02.2018)

17b. Cats of breeds or colours/patterns not yet granted Preliminary recognition.

17c. Cats with at least one parent on the Reference Register (but which would not themselves be placed on the Reference Register) shall be placed on the Experimental Register if of a breed with Preliminary recognition or on the first generation Supplementary Register if of a breed with Provisional or Championship status, unless otherwise directed by the Registration Policy for that breed.

17d. Cats which do not conform to the Registration Policy for their breed but whose progeny may, after a number of generations of suitable matings, conform to this Registration Policy, shall be registered on the Reference Register as eg "of Persian type", "of Oriental type" unless excluded by the Registration Policy.

17e. Cats which do not conform to any existing GCCF registration policy shall be registered as "no recognised breed", with no progression, unless the registration application is accompanied by a letter giving a valid reason for the mating, together with details of the planned breeding programme. This may be referred to the Genetics Committee prior to registration.

Variant Cats

18. Variants occur within certain breeds as a result of either: permitted outcrosses allowed by the registration policy, or the expression of recessive genes carried within the breed’s existing gene pool. (Amended 26.02.14 inc. notes below)

a) The Registration Policy for each breed should provide information on the current registration status and the suitability for breeding of known variants.

b) Reference should be made to the GCCF Variant Policy to determine the possibility for progression to Championship Status of any variant type. BAC applications to do so must be accompanied by an amended Registration Policy to enable show eligibility (Section 4 1d).

c) Cats already registered on the Reference Register will not have their registration number changed but will be treated as though they were registered according to the revised policy from the date of its implementation. (Section 4:1d)

20a. In exceptional circumstances, supported by independent expert evidence, the Board of Directors can at its discretion make a proposal to Council to amend the registration policy of any GCCF recognised breed. The rationale and supporting evidence must have been supplied in advance to the relevant BAC to provide an opportunity for the BAC to discuss and take action on the information submitted to it, and any response from the BAC to be included in the information supplied to Council. 21c. Applications to split breeds by colour or pattern or to amalgamate breed classes, if the application is approved by the Board of Directors, shall be placed on the agenda for the next meeting of Council. Any such split or amalgamation, if approved no later than the February meeting of Council will take effect from the show season starting on the following 1st June. (Amended 23.06.10)

RECOGNITION OF ADDITIONAL COLOURS, COAT LENGTHS AND PATTERNS OF EXISTING BREEDS

The manner in which breed groups are split into "breeds" for show purposes varies considerably, so no single rule can cover all breeds. Some breed groups are recognised only in a very restricted range of colours and a single pattern or coat length whilst others include a wide range of colours and patterns as well as different coat lengths in a single class. Between these lie a variety of different systems but in the majority of these the "self" coloured cats are split into separate breed classes whereas at least some of the patterned cats are grouped into breed classes containing different colours and different coat lengths have their own breed class. (Amended 26.02.2014)
22. Breed groups within which all recognised colours, coat lengths and patterns are included in a single class: the Breed Advisory Committee may propose to the Board of Directors that any additional colours, coat lengths and patterns which are produced in that breed group, bred according to the Registration Policy and which the Breed Advisory Committee wishes to have recognised, shall be added to the Standard of Points and shall be included in the same class. The new colours, coat lengths or patterns will not be treated as new breeds. The application must be accompanied by 21 copies of the current or amended registration policy. Electronic copies may be accepted by arrangement with the office. (Amended 26.02.2014)

23. Breed groups within which each of the self-colours which is recognised for Championship status has a separate class:

The Breed Advisory Committee may propose to the Board of Directors that any additional self-colours, bred according to the Registration Policy shall be treated as new breeds unless they are to be placed in amalgamated classes with existing self-colours but may progress together as Any Other Colour Self of a breed. The application must be accompanied by 21 copies of the current or amended registration policy. Electronic copies may be accepted by arrangement with the office. (Amended 22.10.2014)

24. Breed groups within which the breeds are defined primarily by pattern: the Breed Advisory Committee may propose to the Board of Directors that any additional colours of an existing pattern which are produced in that breed group, bred according to the Registration Policy and which the Breed Advisory Committee wishes to have recognised, shall (with the exception of those self-breeds to which Rule 23 applies) be added to the Standard of Points and Registration Policy for that pattern.

24a. If all colours of that pattern which are recognised for Championship status are included in a single class, the additional colours, including those which previously had Provisional or Preliminary recognition, shall be included in that same class.

24b. If some or all of the colours of that pattern which are recognised for Championship status have separate classes, the additional colours, including those which previously had Provisional or Preliminary recognition, shall be included in the appropriate colour group class for that pattern or, subject to sufficient numbers, in a Championship status class for Any Other Colour of that pattern.

SECTION 1 - THE REGISTER - continued

25. Breed groups within which the non-self breeds are defined primarily by colour: the Breed Advisory Committee may propose to the Board of Directors that any additional colours of an existing pattern which are produced in that breed group, bred according to the Registration Policy and which the Breed Advisory Committee wishes to have recognised, may be added to the Standard of Points but ONLY if they are to be included within an existing class.

The application must be accompanied by 21 copies of the current or amended registration policy. If additional colours are not to be included in an existing class they must be treated as new breeds but may progress together as Any Other Colour of a pattern of that breed. Electronic copies may be accepted by arrangement with the office. (Amended 26.02.2014)

26. Breed groups whose colour distribution, in addition to type, is the distinguishing feature (e.g. Birman, Burmese, Siamese): the Breed Advisory Committee may propose to the Board of Directors that any additional colours which are produced in that breed group, bred according to the Registration Policy and which the Breed Advisory Committee wishes to have recognised, may be added to the Standard of Points but ONLY if they are to be included within an existing class. The application must be accompanied by 21 copies of the current or amended registration policy. Electronic copies may be accepted by arrangement with the office. (Amended 26.02.2014)

28. Colours or patterns of existing breeds, without Preliminary recognition, which are not to be included in classes with existing colours shall be placed on the Reference Register and may not be shown in competition.

Show Managers are recommended that, wherever possible, air conditioning is utilised in halls. Claims for refunds must be made within seven days of the date of the show. (see Section 4, Rule 12)

      g. A judge may disqualify from any class any exhibit which, in their opinion, is very undersized for its age or in very poor condition. SECTION 3

JUDGES AND STEWARDS

Judges are advised to obtain a copy of the GCCF Code of Conduct for Judges

1. Appointment as a Judge

Article 7(16) gives the Council powers to appoint judges on the recommendation of the Breed Advisory Committee for the relevant judges list or the GCCF Committee of Judges. In the case of a new breed, prior to the formation of a BAC, recommendations for the judges list will be considered from a representative group of breeders.

b. All GCCF judges of first instance shall be appointed to the rank of pupil judge. Their subsequent nomination for promotion to full judge shall be at the discretion of their nominating Breed Advisory Committee. Following such promotion the full judge is authorised to officiate at all shows for all relevant classes. A judge can award certificates only if he/she is a full judge on the relevant GCCF list or a Specialist or Emeritus judge of the breed concerned. (Amended 17.06.2015)

Note 3. Errors in these details (except minor errors) will disqualify the entry, with forfeiture of all entry and penning fees. Show managements, however, are permitted to accept corrections, at their own discretion, up to the close of the show; Any such correction must not be an addition or substitution of any exhibit for which proof of entry cannot be validated, or a change of exhibitor/owner, with the exception of changes from single to joint ownership or vice-versa provided that in the case of joint ownership at least one of the owners has signed the declaration. Any such corrections must be incorporated in the marked catalogues sent to the GCCF, but need not be incorporated in any other catalogues. (see Section 2, Rules 11c, 11f) (Amended 26.02.2014)

Note 4. Any former title, breed number, registration number or prefix may not be included before or after the name, or on the entry form, of a Pedigree Pet exhibit.

Note 5. Any Household Pet title achieved by an exhibit must be claimed and will then form part of that exhibit's name.

Note 6. When the title of Olympian is awarded to a cat in the pedigree or household pet section, it is sufficient to denote it is an Imperial Grand Champion/Premier or Imperial Grand Master. Therefore it is unnecessary to include these titles in the cat’s name. However, if the cat has gained a UK title at the Supreme Show that must still be included before all other awards. (Added 23.10.2013 amended 26.02.2014).

b. Exhibitors are requested to point out to the show manager any errors in regard to their own entries which may appear in the show catalogue at the earliest possible moment.

c. Exhibits which may have been placed in wrong classes or wrongly identified as a result of errors on entry forms will be disqualified. Show managements, however, are permitted to accept corrections, at their own discretion. Errors which have occurred as typing, printing or other managerial mistakes must be corrected if pointed out at a reasonable time during the show, and/or the exhibitor compensated for any loss.

9. Exhibitors entering cats in two shows within 13 days, (excluding back to back shows) but not exhibiting at both in contravention of Rule 3b shall be reported to the GCCF Office who shall apply the appropriate sanction as defined in the published penalties listing. Persistent or deliberate breaches of this rule may render exhibitor/s liable to disciplinary action. (Amended 04.10.2017)

10. A show entry cannot be withdrawn after the published closing date of the show, which will include any extension published on the GCCF website. (Amended 21.10.2015)
11. Titles

a. No cat shall be eligible to enter the Olympian Adult, Imperial Grand Champion, Grand Champion, Olympian Neuter, Imperial Grand Premier, Grand Premier Class, Olympian Master, Imperial Grand Master, unless it has attained the relevant qualifying status, on or before the closing date for entries, as stated in the schedule, or any extension to this published on the GCCF website, although upgrades after that date may be taken at the show manager's discretion. Olympian Certificates gained may count immediately towards the next level of the award but additional certificates gained at non all-breed shows before the win that qualifies the cat for a bronze, silver or gold Olympian title will not count at the next level. (see Section 2 Rule 7e) (Amended 25.06.2014 Title list only) (Amended 17.06.2015, 21.02.2018)

b. Pedigree Titles
   i. The titles of Grand Champion, Champion, Grand Premier and Premier shall be attained by the awarding of three Grand Challenge/Challenge/Grand Premier/Premier certificates, as appropriate, by three different judges at shows licensed by the GCCF.
   ii. The titles of Imperial Grand Champion and Imperial Grand Premier shall be attained by the awarding of five Imperial Grand Challenge/Imperial Grand Premier certificates, as appropriate, by five different judges at shows licensed by the GCCF.
   iii. The title of Olympian shall be attained by the awarding of five Olympian Certificates from five different judges. Awards of Bronze/Silver/Gold will be given requiring five certificates to progress each level. Certificates may be obtained from the same judge in different levels. At least four certificates at each level must be won at All-Breed shows, not more than one won at a non-All-Breed Show may count at each level. Note: An All-Breed Show for this purpose is one that has certificate classes for all GCCF sections. (see Section 3, Rule 6d, Section 2, Rule 7g (Amended 22.02.2012)

c. Household Pet Titles (Also listed as Section 2 Rule 7j & Section 3, Rule 6f;)
   Titles may be claimed for Household Pets (Pedigree Pets & Non-Pedigree Pets) when the appropriate number of certificates has been gained, if the cat is registered with GCCF. A Non-Pedigree will require pet registration, a Pedigree Pet may use its pedigree registration number or pet registration, if not previously registered. (Amended 14.06.2017)
   i. The titles of Master and Grand Master shall be attained by the awarding of three Master/Grand Master certificates, as appropriate, by three different judges at Championship shows licensed by the GCCF. (Amended 26.02.2014)
   ii. The title of Imperial Grand Master shall be attained by the awarding of five Imperial Grand Master certificates by five different judges at Championship shows licensed by the GCCF. (Amended 26.02.2014)
iii. The title of Olympian Master shall be attained by the awarding of five Olympian Master Cat Certificates from five different judges. Awards of Bronze/Silver/Gold will be given requiring five certificates to progress each level. Certificates may be obtained from the same judge in different levels. At least four certificates at each level must be won at All-Breed shows, not more than one won at a non-All-Breed Show may count at each level. Note: An All-Breed Show for this purpose is one that has certificate classes for all GCCF sections. (Amended 22.02.2012, 26.02.2014)

iv. The Coventry and Leicester Cat Club, in recognition of their work initiating the concept of titles for Household Pet Cats, shall be allowed to retain their own special title of “Ultimate” cat gained by titled cats winning two certificates in different years at the Coventry and Leicester Cat Club’s annual Championship Show. (Council: October 2008) The title may be used by an exhibitor but as a “club” title it will not be required to be listed on certificates or in catalogues. (Added 26.02.2014 Amended 25.06.2014)

12. Exhibits may be withdrawn before judging starts from classes in which (a) the judge is changed from the judge named in the schedule (b) classes are amalgamated unless such amalgamation was announced as a possibility in the schedule. In cases of such withdrawal, the exhibitor shall be entitled to claim refund of entry fees for all classes from which the exhibit is withdrawn. Claims for refunds must be made within seven days of the date of the show. (see Section 2, Rule 10a)

13. Except in so far as the conditions under which entry was made may be changed, exhibits may not be withdrawn from competition after entering the show hall unless such withdrawal is sanctioned by the show manager. In case of such sanctioned withdrawal, entry and penning fees will be forfeited. (see Section 2, Rule 10b)

14. If the Standard of Points for the breed to be exhibited is not included in the current GCCF Standard of Points booklet then it is the exhibitor’s responsibility to provide a copy with the show entry. This applies both to Preliminary status breeds and to any breeds where additional colours/patterns have been added to an existing class. (Further information should be available from the specialist breed club).

15. No entries for any show held under the rules of the GCCF of cats and/or kittens which have been disqualified by an order of the Disciplinary Committee in accordance with the provisions of Article 12(4) of the Byelaws may be made during the period of such disqualification. Any entry made in contravention of this rule shall result in the forfeiture of all fees and awards and may render any person concerned or connected with such entry liable to disciplinary action.

See also Section 6. Miscellaneous Rules.

Presentation

16. Every exhibit must be provided with a white sanitary tray and clean, plain white or near-white blanket or blankets without distinctive marking or edging, which may be arranged in such a manner as to assist the comfort of the cat. Cellular blankets are not allowed but white Vet-bed or like material may be used if preferred.

When a breach of this rule is drawn to their attention, show managers may disqualify any exhibit appearing with a dirty, coloured or otherwise distinctive blanket. All fees and awards relating to any exhibit thus disqualified shall be forfeit.

Note: Rules 4.1d, 4.16 and 4.18 do not apply to cats on exhibition who are not being judged with reference to their Standard of Points.
17. A hot water bottle or heat reflecting material or a cool pack may be used but must be concealed by the blanket. No other articles or decorations may be placed in or on the pen until judging has been completed. The only exception to this rule is that a white container with water must be placed in the pen. Containers with food and one small toy may be placed in the pen after the time announced for the admission of the public. Food containers, if used earlier, must be removed before judging. Failure to do so may result in the disqualification of the exhibit by the show manager and in this event all fees and awards shall be forfeited.

18. Apart from the current show award cards competitive pens must not carry any advertisement or other printed or manuscript matter which might indicate the ownership of the cat except that a judge or show manager may affix a note if a cat is found to be dangerous to handle or is withdrawn from competition.

Note: Rules 4.1d, 4.16 and 4.18 do not apply to cats on exhibition who are not being judged with reference to their Standard of Points.

Disqualifications

19a. Any cat which cannot be safely handled by a judge and/or judge's steward will be disqualified in those classes, including consideration for Best of Breed, in which it could not be handled, with forfeiture of the relevant entry fees. A judge's decision in this matter is final. (Also listed as Section 2, Rule 19i)

19b. Any cat which cannot be handled safely during judging for Best-in-Show or Best of Variety may not be considered for this award, even if it had been handled by the Best-in-Show panel judges earlier in the day. (Also listed as Section 2, Rule 19j)

20. Any cat biting or inflicting injury by deliberately scratching a judge, veterinary surgeon, steward or other show official, or displaying extremely threatening behaviour that indicates this could happen must be reported to the show manager. The show manager must withdraw the cat from all remaining classes at the show and shall inform the owner of the cat in writing, sending a copy to the GCCF Office. Awards made prior to the disqualification will not be forfeited. If, in the opinion of the person reporting the injury or behaviour, the cat was defending itself in and/or there were exceptional and frightening circumstances, that information, provided by the person reporting the incident, should be given to the GCCF Office for consideration by the Board of Directors. If the cat is reporting at any subsequent show for biting or deliberately scratching, it shall be disqualified from all future shows unless the Board of Directors rules otherwise. If more than one report of threatening behaviour is submitted then the Board of Directors may at its discretion fix a term of exclusion from showing. If there is any further report of injury or behaviour subsequent to a fixed term of exclusion there will be disqualification from all future shows, unless the Board of Directors should consider there are extenuating circumstances and set a further term of exclusion. (Also listed as Section 2, Rule 19a) (Amended 15.06.2016)

21a. The use of grooming aids in the show hall other than the use of a clean brush and comb or cloth is prohibited.

21b. No powder or other grooming substances may be left in the coat of an exhibit. The show manager upon being satisfied that this rule has been or is being broken shall disqualify the exhibit concerned from all remaining classes at the show. Awards made prior to disqualification will not be forfeited (Also listed as Section 2, Rule 19b)
SECTION 4 – EXHIBITS AND EXHIBITORS - continued

22. (Also listed as Section 2, Rule 19c)
   i. Any exhibit prepared for show in any artificial manner which changes its appearance relative to the Standard of Points shall be disqualified by the show manager upon receipt of a certificate signed by two judges of the relevant breed stating that in their opinion there had been a breach of this rule. In the event of such a disqualification of an exhibit any person deliberately breaching this rule may be liable to disciplinary action and all fees and awards shall be held in abeyance until the result of such action is decided.
   
   ii. Such preparation includes the uses of powder, dyes, other colouring matter or whitening or darkening substances, or any oils or greasy preparations, or any other cleaning substances which remain in the exhibit's coat during the show; it includes also trimming, clipping, singeing or rasping down of the fast coat.
   
   iii. Any treatment, including sedation, causing temporary or permanent change in the normal appearance or physical reaction of the exhibit or any surgery (cosmetic or otherwise) leading to changed appearance or reaction is forbidden.
   
   iv. The show manager shall at once inform the GCCF Investigation Committee of all relevant details in writing and shall similarly inform the exhibitor concerned that this action has been taken and draw the exhibitor's attention to the provisions of this rule.
   
   v. An alphanumeric identification tattoo in the ear or on the inner thigh shall not be considered a change in the normal appearance of a cat.
   
   vi. The use of chemical contraception with veterinary supervision is acceptable in the interests of welfare and is not considered as show preparation. Exhibitors with male cats that have received hormonal injection for contraceptive purposes are advised to have evidence of this with them to show to the Duty Vet should any testicular abnormality be queried. (Amended 21.10.2015)

23. Exhibitors may not receive any certificate and/or Best of Breed, Best of Variety or Best in Show awards from judges they have travelled with to that show in a private vehicle. (Amended 17.06.2015)

24. All disqualifications made by show managers under any of the rules of this section of the Show Rules shall be notified to the secretary of the Investigation Committee giving all relevant details. The Investigation Committee shall record all such notifications. Persistent or deliberate breaches of the relevant rules by an exhibitor resulting in such disqualification may render such exhibitor liable to disciplinary action.

During the Show

25. Exhibitors must vacate the judging area when required to do so by the show management, and must not re-enter until the doors are opened to the public, unless requested to do so by the show management.

26. Exhibitors are forbidden to enter into conversation with any judge under whom they are exhibiting and deliberately draw attention to the fact that they are exhibiting under that judge until after the judge's engagement is completed.

27. Exhibitors are reminded that the decisions of the judges are final. Any attempt to influence such decisions or to identify a cat or ownership of a cat to a judge at a show before that judge’s engagement has been completed, may render the offender liable to disciplinary action.

28. Exhibitors or their agents must not remove any exhibit from its pen whilst judging of any class in which it is entered is in progress except by direction of the show manager or other official on pain of disqualification and forfeiture of entry fee.
29. Exhibits must not be removed from the exhibition before the declared time for closure of the show, except that exhibitors may apply for earlier removal when making their entry. Such early removal may be made at the discretion of the show manager. The show manager may disqualify any exhibit so removed without their consent. In the event of such disqualification the exhibitor may be liable to disciplinary action and all fees and awards shall be held in abeyance until the result of such action is decided. (Amended 24.10.12)

30. Show prize monies may be paid out on the day of the show on the declared and contingent liability of the exhibitor that, in the event of disqualification, all prize monies and certificates shall be returned to the show manager concerned. Failure of any prize-winner to comply with this rule may result in disciplinary action. (Also listed as Section 2, Rule 22)

31. All persons using the show hall or any areas used in conjunction with the show must note that unacceptable or aggressive behaviour WILL NOT BE TOLERATED. Any such behaviour may result in the removal of those responsible (and their cats if appropriate) from the show venue. This behaviour may result in disqualification and/or disciplinary action by GCCF. The Show Manager is to inform the GCCF Investigation Committee of any such behaviour within 5 days of the show, giving the relevant facts in writing, and must also inform the person concerned that this action has been taken, and draw their attention to the provisions of this rule. A form will be provided to Show Managers to assist them to obtain the relevant facts. (Added 23.10.2013, amended 22.10.2014)

NOTES ON REJECTION AT SHOWS
(see Section 3, Rules 14,15 and Section 4, Rules 4a-4h, 5, 7a-7d)

Note 1. Rejection from a show means only that the cat showed signs indicating that it might have an infectious or contagious disease, or that it was not in a suitable condition to be shown and is NOT A DIAGNOSIS of any particular disease.

Note 2. It is carried out for the protection of the cat itself and/or for the protection of other cats present at the show or for the protection of the breed.

Note 3. Cats will be rejected under Section A for fleas, pregnancy, lactation, undersize, poor condition, trauma (e.g. clawed eye), distress, signs indicating presence of drugs, gross malformation in pedigree cats (including monorchidism in adults, cryptorchidism in adults, polydactyly, folded ears, curly tails, or severe expression of any of the standard faults in the SOP booklet) or if they have been declawed. They will also be rejected if it is not possible to examine them safely. No clearance is required but the cat may not be shown again until the reason for rejection is no longer present.

Note 4. Cats will be rejected under Section B for ear mite infestation or for dirty or waxy ears indicative of possible ear mite infestation. In-contact cats will be examined using an auriscope and may be admitted to the show if their ears are clean.

Note 5. The exhibitor will be issued with a rejection form and a special clearance form which details the tests that must be carried out WITHIN SEVEN DAYS AFTER THE SHOW (on the rejected cat(s) only at this stage) before the Clearance Certificate can be completed and sent, together with the rejection form, to the GCCF Office.
Note 6. Cats will be rejected under Section C if they show signs of possible infectious disease including ocular or nasal discharge, mouth or tongue ulcers, diarrhoea or vomiting, enlarged lymph nodes, raised temperature, etc. All in-contact exhibits will also be rejected. The exhibitor will be issued with a rejection form and clearance form. The exhibit must be examined by a veterinary surgeon NOT LESS THAN SEVEN DAYS after the show and certified free of the symptoms for which it was rejected or ANY OTHER signs of infectious disease, using the clearance form which, together with the rejection form, must then be sent to the GCCF Office. If the exhibit requires treatment for any infectious disease then all cats owned by the exhibitor and/or living at the same address must be examined by a veterinary surgeon and the clearance form signed when all can be certified free of symptoms of the infection. (amended 22.10.2014)

Note 7. Cats will be rejected under Section D if they show any skin lesions indicative of possible ringworm, including areas of missing or broken hair or any scabs. All in-contact exhibits will also be rejected. The exhibitor will be issued with a rejection form and a special clearance form which details the tests that must be carried out WITHIN SEVEN DAYS AFTER THE SHOW (on the rejected cat only at this stage) before the Clearance Certificate can be completed and sent, together with the rejection form, to the GCCF Office.

Note 8. Any exhibitor whose cat is rejected under Sections B, C or D should consider their cattery/household to be in quarantine from the date of the show until they receive the official GCCF acceptance of their Clearance Certificate. Their cats may not attend shows nor may they sell kittens or take or accept queens to stud.

Note 9. Official GCCF acceptance of Clearance Certificates must be received before exhibiting at any show.

Note 10. The GCCF Veterinary Officer may be contacted through the GCCF Office.
SECTION 5
VETERINARY SURGEONS

1. Invitations
   a. The show management shall engage the services of at least one veterinary surgeon with previous experience of veterinary duties at cat shows. At shows with more than 60 cats there must be two or more veterinary surgeons, commensurate with the number of entries. Suitable facilities shall be provided for the purpose of examining each exhibit prior to its admission to the show hall. At all shows held under GCCF licence at least one veterinary surgeon shall remain in the show hall until 1.00 pm and preferably until judging has been completed. (see Section 2, Rule 13a)
   b. The show management should issue written invitations to veterinary surgeons, stating the date of the show, the venue, the times of attendance and the remuneration to be offered. (see Section 2, Rule 13b)
   c. Fees or honoraria paid to veterinary surgeons whose services are retained by show management are outside the jurisdiction of the GCCF and any dispute which may arise concerning such matters must be settled by the parties concerned.

2. Attendance
   a. The show management must ensure that veterinary surgeons are conversant with Section 5 of the GCCF Rules and that they are provided with a copy of the official veterinary code. (see Section 2, Rule 13d)
   b. The show management must ensure that the duty veterinary surgeon(s) are supplied with the official GCCF rejection forms, the additional forms for Section B, C & D rejections plus other necessary documentation in addition to the above. (see Section 2, Rule 13e) (Forms updated 15.06.2016)
   c. Veterinary surgeons officiating at shows held under GCCF licence must attend at a suitable time to examine exhibits before they are permitted to enter the show hall.
   d. Examination prior to entry is to ensure, so far as is possible, that no cat suffering any infectious or contagious disease, or from infection with endoparasites or ectoparasites, is admitted to the show hall.
   e. Veterinary surgeons and assistants must not smoke whilst handling cats.

3. Vaccinations
   a. All cats exhibited at shows held under GCCF rules must have a current certificate of vaccination against Feline Calicivirus (FCV), Feline Herpes Virus (FHV) and Feline Panleukopenia * (FPV). (* Previously termed Feline Infectious Enteritis)
      i. The full primary course (first set of vaccinations) in accordance with the manufacturer’s recommendations, must have been completed more than seven days before the show.
      ii. Booster vaccinations against FCV, FHV and FPV must be given at the manufacturer's recommended intervals. Where a variable interval of 1-3 years for FCV and FHV is recommended the minimum interval applies. i.e. all cats attending shows MUST receive annual booster vaccination against FCV and FHV.

For Boosters only note: Exhibitors are advised to leave at least a week between a booster vaccination and show attendance to allow the vaccine to take effect and in case of any adverse reaction. (Amended 05.10.2016)
b. The certificate must have been issued by a veterinary practice/hospital and the last vaccination entry signed by a Veterinary Surgeon or by a listed Veterinary Nurse under the direction of a Veterinary Surgeon.

c. Cats with an invalid vaccination certificate will be rejected under Section A.

d. Cats unaccompanied by a vaccination certificate will also be rejected under Section A unless the exhibitor undertakes to provide proof of vaccination, valid for that show, by sending the certificate to the GCCF Office within seven days of the show. Failure to do so will lead to disqualification from the show and the cat’s name will be placed on the rejection list until proof of vaccination is received in the Office. (See Section 2 Rule 7c, Section 4 Rule 5)

4. Rejections (see Section 4, Rules 4 & 7)
   a. Queens who are pregnant, or could be pregnant, lactating or who have kittensed within the past 12 weeks must be rejected. (Amended 21.10.2015)

   b. Cryptorchid and Monorchid cats over 9 months of age must be rejected.

   c. Exhibits which have been declawed, exhibits that have had some or all of their eyebrows and/or eyelashes cut or plucked out, together with polydactyl cats, folded ears, curly tails and any other abnormality, are not acceptable exhibits and a duty veterinary surgeon is instructed to reject them. With the exception of declawing, and damage to eyebrows and/or lashes, this does not apply to exhibits (pedigree and non-pedigree) in the household pet section. However, pedigree pets of breeds that will not be recognised by GCCF, because of a harmful genetic mutation and/or where the resultant structural anomaly is the key feature upon which the breed is based, or cats resulting from a species outcross, cannot be shown in the pedigree pet section of GCCF shows and should be rejected. (Amended 23.06.2011, 18.02.2015 & 15.06.2016)

   d. An exhibit showing any signs of infectious or contagious disease must be rejected under Section B, C or D of the GCCF Veterinary Rejection form.

   e. Cats which show obvious signs of lack of attention to hygiene, have sharp untrimmed claws, or in the opinion of the veterinary surgeons are in an unfit condition for show, must be rejected under Section A of the Veterinary Rejection form. Note: Exhibitors should be allowed the opportunity to trim claws prior to a rejection, but should not expect the veterinary surgeon to do this for them at vetting-in. (Amended 15.06.2016)

   f. Blind cats may not be exhibited at shows licensed by the GCCF.

   g. Any exhibit which might require rejection must be examined by a duty veterinary surgeon.

   h. Any exhibits rejected under Sections B, C or D of the Veterinary Rejection form before or during a show by a duty veterinary surgeon must be removed from the show hall. Exhibits rejected under Section A may be removed from the show hall or may be permitted to remain in the hall but withdrawn from competition. All fees will be forfeited. An exhibitor must declare to the Duty Vet if an exhibit(s) from the same household is/are present at any other show(s) on the same day, and take action to ensure their withdrawal when rejected under Section C or D. For rejections under Section B the exhibitor must take action to ensure that cats at any other show(s) are subjected to an examination of the ears by the duty vet of that show in accordance with the Notes on Rejection at Shows. (Amended 22.10.2014)
5. **Duty Veterinary Surgeon**

One or more of the veterinary surgeons officiating at shows held under GCCF licence will be known as the duty veterinary surgeon(s) and must also:

- **a.** Remain until 1.00 pm. and preferably until judging has been completed. The show manager must obtain full details of a local veterinary practice available to treat emergencies which cannot be dealt with at the show.

- **b.** Be the signatory to all rejection forms, both prior to and during the show. In his absence a rejection form can be signed by any qualified veterinary surgeon.

- **c.** Ensure that if a cat is rejected under Section C or D, all exhibits owned by that exhibitor or living at the same address are also excluded from the show.

- **d.** Upon request, examine any cat at any time during the show in order to determine whether it is fit to remain on exhibition.

- **e.** Advise the show management if in their opinion the owners (or owner's agents) of any cats which have been refused admission, or removed from the show during the day, should also be barred from entering the show premises or requested to leave the show.

- **f.** Determine any question which may arise within the veterinary field, such as sex, possible pregnancy, use of drugs, etc., while he is present.

6. Requests to a duty veterinary surgeon to examine a cat during the show must be made by the show management either directly or, in the case of requests from judges or stewards, on official slips provided by the show management. Any other person who may have reasonable grounds for thinking that such an examination is desirable must apply to the show management. (see Section 2 Rule 13j)

7. A duty veterinary surgeon must ensure that all rejection paperwork is completed and the required copies supplied to the show manager. (see Section 2, Rule 13k)

8. A duty veterinary surgeon who rejects an exhibit during the show must inform the show manager immediately and advise whether the cat may remain in its pen but be withdrawn from competition (only permissible for exhibits rejected under Section A) or must be removed from the show or placed in isolation. (see Section 2, Rule 13l)

**Decisions**

9. Decisions made by a duty veterinary surgeon in pursuance of his duty at the show shall be accepted without question. (see Section 2, Rule 13m)

10. When a veterinary surgeon is not readily available the show manager alone is empowered to take decisions concerning the well-being of cats. (see Section 2, Rule 13n)

11. In exceptional circumstances, where the well-being of the cats would otherwise be compromised, and with the approval of the duty veterinary surgeon(s), the show management may vary the rule relating to the examination of cats prior to entry to the show. Under these circumstances the show management may permit exhibits and their vaccination certificates to be inspected by persons considered by the duty veterinary surgeon(s) to be competent to do so. (see Section 2, Rule 13o)

**END OF SECTION 5**
MISCELLANEOUS RULES

1. In the event of ringworm infection being diagnosed in a cattery/household by a veterinary surgeon, the cattery owner/householder will inform the GCCF Office and neither the cattery owner/householder nor any cat owned by them or living at the same address will attend any show until a Clearance Certificate, as required by the GCCF has been obtained. These restrictions will also apply to a cattery/household if Ringworm is diagnosed in any cat/kitten exhibiting skin lesions within 7 days of leaving the aforesaid cattery/household.

This rule applies to all cases of ringworm and not only to those detected as a result of rejection as a show. (Amended 24.10.12)

2. In the event of a cat being rejected for veterinary reasons from a show not licensed by the GCCF, the owner/exhibitor will inform the GCCF Office within 3 working days of the closure of the show with all the details. For any rejection for reasons similar to the GCCF Veterinary Sections B, C and D (see Notes on rejection at shows at the end of Section 4), no cat belonging to this exhibitor and/or living at the same address may be exhibited at future shows by this owner/exhibitor until an appropriate clearance has been received and acknowledged by the Office.
