

## **Bryan Holmes**

I was sad to hear the passing of Bryan Holmes on Saturday 8th May. I first met Bryan and his wife Dawn who were both police officers over 20 years ago through our love for Birmans. Bryan stewarded for me many times and we always had a good time together. I knew Bryan had not quite got over his stroke and underwent heart surgery however it appears that in the past year he suffered terribly. I spoke to his wife Dawn the day after he passed away and she said "I don't know what I am going to do without him, he was a wonderful husband for 36 years". Poor Dawn they loved each other dearly. Bryan and Dawn were always a great support to me with shows etc. Sadly with the restrictions I cannot attend the funeral but I will be thinking of my friend Bryan on 20th May who will remain in my heart forever. 61 is no age but you are at peace now my dear friend.

To Dawn and her family my very sincere condolences - Dawn stay strong for Bryan

## **Carol Pike**

---

Bryan Holmes was a committee member of The National Cat Club for many years and eventually because hall manager and his wife Dawn a section manager. Everyone loved Bryan for his fairness and understanding especially the stall holders. Although the work for the show was hard he always managed to have a good laugh.

A great loss but Bryan is suffering no longer.

To Dawn our thoughts are with you

## **National Cat Club**

---

Bryan Holmes along with his wife Dawn were founder members of the Seal and Blue Point Birman Cat Club and Bryan for a while was our membership secretary. Bryan and Dawn took on the task of show managers for the club and did a wonderful job and were so very generous to the club always returning a good profit. It was a sad day when they decided that their hobby was moving in a different direction. They went on wonderful cruises and enjoyed their life until Bryan became unwell. At the tender age of 61 Bryan's suffering was taken away from him and he is at peace.

Dawn we will never forget him and our thoughts are with you
