

## **Audrey Pitt**

It's with great sadness that I must pass on the news that the great English Korat breeder Audrey Pitt died early today. Audrey enriched our breeding pool with a significant number of American imports including her stud Jaltari's Kanza. Under the prefix Rataekora she also exported breeding stock to Finland, Scandinavia and the US. She was a feisty lady who set high standards for those to whom she entrusted her kittens, "You can't buy a Korat, only its papers".
