### General Type Standard

The Foreign White should be a beautifully balanced animal with head, ears and neck carried on a long svelte body, supported on fine legs and feet, with a tail in proportion. The head and profile should be wedge-shaped, neither round nor pointed. The eyes a clear brilliant blue. Expression alert and intelligent.

<b>Head</b>	Long and well proportioned, carried upon an elegant neck, with width between the ears, narrowing in straight lines to a fine muzzle, with straight profile, strong chin and level bite.
<b>Ears</b>	Large and wide at the base with their setting continuing the lines of the wedge. Cats should be penalised equally for ears which are set too high or too low, distorting the triangular effect.
<b>Eyes</b>	Oriental in shape and slanting; clear brilliant blue, the deeper the better.
<b>Body</b>	Long and slender, the rump carried higher than the shoulders. Well muscled and elegant.
<b>Legs &amp; Paws</b>	Legs long and proportionately slender, paws neat and oval.
<b>Tail</b>	Long and tapering, whip-like, without kink.
<b>Coat</b>	Pure white, short and close-lying.
<b>Nose leather, eye rims &amp; Paw pads</b>	Pink

**Note:** 'Freckles' may appear on nose, pads, lips and eye rims. Slight freckling in a mature cat should not be penalised.
