Notes on Certificate of Entirety

All male cats used at stud **MUST** have a Certificate of Entirety deposited with the GCCF **PRIOR** to the registration of any kittens.

We therefore recommend purchasers/owners of stud cats have this done as soon as possible to avoid delays to the registration of kittens.

Certificates of Entirety must be completed by your Veterinary Surgeon.

Additional copies of the official GCCF Certificate of Entirety can be obtained as follows:

downloaded from the GCCF web site www.gccfcats.org,

or by telephoning the GCCF Office (post free)

Once your veterinary surgeon has signed it, scan and email the Certificate of Entirety to the GCCF Office.

We recommend you keep a photocopy available to show owners of queens using your cat at stud.

Please note:

A Mating Certificate is required by the owners of visiting queens to enable them to register their litters with the GCCF.

GCCF Rules, Rule Section 1:3d

When a litter is registered, the application to register must be accompanied by a copy of the certificate of mating unless the person registering the kitten(s) is also the registered owner of the sire. The owner of the stud cat must provide a Certificate of Mating to the owner of the queen upon collection of the queen.

***** Change in rule Section 1:1a from 21 October 2015 *****

Only cats/kittens required for breeding purposes should be registered on the Active Register. All male cats used at stud must have a Certificate of Entirety deposited with the GCCF prior to registration of their first litter of kittens. They must be uniquely identifiable at the time of the examination by microchip or alphanumeric tattoo; the number of which is noted on the certificate and included in the cat's own veterinary records.
