

FINANCE COMMITTEE STATEMENT 2022

I have been fortunate to serve on the Finance committee and board for many years. I have again this year been responsible for checking and helping clubs with their club returns.

My clear understanding of how the finances of the GCCF member clubs work comes from being a Treasurer for four clubs, plus a show manager of two All Breed and Breed shows.

I have qualifications in bookkeeping and accounting. My working life included 28 years in the financial services sector of the city where I ran a settlements department. One of my many daily tasks included overseeing dealing transactions in excess of £100 million, plus preparation of budgets and balance sheets, careful analysis of costs on any proposals, liaising with clients and financial institutions.

I am treasurer for my local CLT (community land trust) project to build seventeen affordable houses with a budget of over £4 million, this keeps me up to date with any current financial issues.

I would hope to continue offering my knowledge and skills to help make practical and constructive contributions, that enable the GCCF to grow and develop, and use the resources and reserves it has now built up.
