

## **Nomination Statement – Finance Committee**

I have previously served as a member of FC. I believe that careful financial control and management are essential to enable GCCF to continue to grow, develop and offer better and more innovative services to its members.

During the past year, I have continued to research and recommend suitable business savings accounts to Finance and the Board, and undertake the account set up process. I regularly update and circulate a report of account balances to Finance and the Board before each meeting.

This year I undertook a review of GCCF's insurances, obtaining alternative quotes. This resulted in GCCF changing its insurance provider with a saving of almost £3,000.

My work as a fundraising co-ordinator for a major UK charity, with over 5 million members, involved managing a budget of £90K per annum, to produce an annual income stream of between £800K to £1 million.

It is essential that GCCF continues to look at ways of growing its business in a limited market place, whilst controlling expenditure within its budget. I believe GCCF has been successful in achieving this in the recent difficult economic climate, and I want to see it build on this success.
