GCCF Registration Policy (draft)

Transylvanian (TRS/TRL)

Effective (Date of approval)

Varieties: Black or blue cats in the karpati pattern for full or supplementary registration. Transylvanians in other colours and patterns will be reference registered and may be used for breeding.
(transferred from notes).

Permitted Outcross:

Domestic Shorthair/Longhair (black and blue)

Karpati patterned cats (Foundation Transylvanians) of any colour or pattern from the countries in the vicinity of the Carpathian Mountains.

Full register:

Transylvanians of accepted colours with only Transylvanians in the pedigree for the three preceding generations. (i.e. parents, grandparents and great grandparents.)

Supplementary Register:

Transylvanians of accepted colours with only Transylvanians (including Transylvanians of non-accepted colours and patterns and Foundation Transylvanians) and registered Domestic Shorthairs/Longhairs (as above) for the three preceding generations.

Note: registered Domestic Shorthairs can only appear in the third generation (great grandparent) of cats on the supplementary register, (unless transferred to the supplementary register as described in note 1 below).

Reference Register:

1. Transylvanians of any colours or patterns which are not accepted in the breed standard will be registered on the reference register with progression.

2. Transylvanian Variants (cats of Transylvanian parentage without the karpati pattern gene) will be registered on the reference register with progression.

3. Transylvanians with Transylvanians (including Foundation Transylvanians) and Domestic Shorthairs/Longhairs (as above) plus the unknown or unregistered ancestors of the Domestic Shorthairs/Longhairs and Foundation Transylvanians in the three preceding generations will be registered in the reference register with progression. (See Note 1 below for exceptions.)

4. Progeny from Transylvanians mated to any other breed will be overstamped “Not for Transylvanian breeding”.

Note 1: In accordance with GCCF Rules, Section 1, rule 12c ii, the Transylvanian Registration policy stipulates that cats (and their progeny) with registered parents who conform sufficiently to the breed phenotype, as defined by the Standard of Points, may be re-allocated to the Supplementary Register from the Reference Register and so be eligible for competition in GCCF shows. The opinion of at least three Full Judges of the breed would be required in support from occasions when the cat is shown as an adult in exhibition with critique classes.

Note 2 transferred to “Varieties”
